Danielle Morgan says

Oh Hissey, how you marked my childhood with wonderful stories and sparked my imagination.

Kate B says

I haven't quite decided what age group these are aimed at. Grandparents more than toddlers perhaps.

Sarah says

This book was great with the mystery of what the new thing was in the normal surroundings, they never failed to make me laugh.

The Brothers says

Asher liked this story - though I found it a bit tedious. The stuffed animals encounter a new friend stuck in a box.

The illustrations are very cute and cuddly looking.

Rachel says

I didn't think this book could be cuter than the other book of hers that I read, but it is. A teddy bear that knits scarves and a toy giraffe named Jolly Tall (Jolly for short), that says it all. Now I really want to own all of her books they're as good as the two I've already read.

Zayneea says

Really cute story where the toys make a new friend - Jolly Tall the giraffe.

Chris says

I even have a Jolly Tall stuffed animal - well, I had to give it away to my daughter when she was little. :-)! It is one of her very favorites. I love Jane Hissey's simple, beautiful stories.

Kay Lea says

Lovely story about children finding a new friend "Jolly" Giraffe.

Snoozie Suzie says

I love reading this story to my little boy. I think it is a lovely book and the reason for the name makes me smile every time.
