Lost in the Jungle Greyson Mann , Grace Sandford (Illustrations)

Will has spent his whole life in the shadow of his older brother, Seth. Sure, his brother's a master builder who's known throughout the entire Overworld, but Will knows he could make his own mark in Minecraft if anyone would give him the chance to prove himself.

So when Will gets the opportunity to go on his first solo adventure, he jumps at the opportunity. Seth urges Will to stay at home where he'll be safe, or at least take some time to prepare for the journey, but Will knows he has the courage and strength to face whatever strange biomes or hostile mobs the Overworld has in store for him.

Will's quest gets off to a great start when he meets Mina, a fellow adventurer, and they decide to look for excitement together. But when the two get separated and night starts to fall, Will realizes he's lost. With spiders and creepers spawning all around him and no shelter in sight, can Will survive the night all on his own?

Beginning readers—and gamers—will be on the edge of their seats in this thrilling first installment in the Secrets of an Overworld Survivor chapter book series!

Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks, and Pokemon Go; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a *New York Times* bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Tovah says

My son really enjoyed this book, good for any Mindcraft fan.

Brett says

I really loved this one. Can't wait to read the others!

Jill says

I just received this book from a giveaway today, and am really excited to read it with my little Minecraft fan. She says "It's awesome!" and has been carrying it around all day. Any book that will get my elementary school student to be so captivated and enthusiastic is a winner to me. The plot is entertaining and interesting and the characters are very different. We recognize all of the Minecraft elements and it makes this book super entertaining to read. Very fun read!

Nicole Dreibelbeis says

Really cute Minecraft adventure story. Luke loved it...we finished in just a few days. Looking forward to reading him book 2.

Stephanie Osborne says

Perfect to read to my 5 year old minecraft fanatic! I don't really understand minecraft so it's fun to learn more about the game as we read it together. My son has never paid such close attention to me reading a chapter book to him before! He was literally on the edge of his seat, eyes wide and so excited to share his minecraft background with me when I would ask if happenings in the book happened in game too. My 7 year old daughter likes minecraft too and couldn't help coming over to listen in when I was read it to my son. I like the life lessons taught along the way and the bigger words that my kids are being exposed to! Huge fan made here and I'm excited to continue with the rest of the series!

Addie LeMaster says

Great book! Really inspired me to play Minecraft and have my own adventures!

Michelle says

I passed this fun two-in-one book to neighbor children, who very much enjoyed it.

Kelly Carey says

This is a new chapter book fan-fiction series for MinecraftEdu fans. The book is easy to read and includes illustrations scattered throughout.

BooksAmL says

Such a cute and funny story, that brings me back to my rebel years where I thought I knew everything. It is such an easy read for any age, and if you like mindcraft I recommend you pick this book is just amazing and the pictures very funny. Have to thank the writer for this beautiful book that made me laugh with each page. The only big reason that i give a 3.5 stars is for the quality of the pages, it was bothering while reading the thin old pages .

Will has had enough living in his brother's shadow and wants to prove to everyone that he is able to do anything by himself. That is the main reason that will cause him trouble, because every time he was close to take the right decision he will say that he knows better and doesn't have to listen to his brother. All the adventures will happen in a jungle beside a lake , that will either kill him or save his life.

Mehsi says

Review for Book 1 and Book 2.

So I have absolutely nothing with Minecraft, no interest, no nothing. However, when I spotted these books (or actually previews of pages) being tweeted by the illustrator (whose work I really love) I just had to get them. Yes, I bought the books because of the art.

I think I would have enjoyed it better had Will, our MC, been better. And not so obnoxious, rude, a jerk, an idiot. I really wonder how he survives in this world. He knows NOTHING about it, and also doesn't care about safety, preparing, shelter, or anything. He just wants adventure, but then is crying when it gets tough. rolls eyes

I was hoping that this would just be a first book problem, but no, in the second one he has some redeeming parts, but they were quite little. For most part he was just daydreaming (and thus falling off a cliff (and almost falling of other cliffs)), being rude to someone who just wants to help him (and who is taking this serious and being serious doesn't mean she isn't fun, she just knows when to have fun and when to take care of her body), being an idiot, being ungrateful (he wanted to have a diamond sword, but oh no if they find diamonds then suddenly he is fixated on that stupid mine cart stuff again).

I also wish he would stop being such a baby. Instead of crying all the time about his brother, why doesn't he learn something and make his own path. And with that I mean with preparation, not just walk into the jungle

and hope you are fine. sighs

Sure he did one good thing at the end, so yay for that, but seriously, that was pretty much one of the few things he did right.

Mina however was a breath of fresh air in this book, and I loved her so much. She is prepared, she is fun, she is serious about things, and I loved that she was a potion maker and like inventing stuff. She is also totally kick-ass and I would have loved her to get the main character role. I also found her sweet, how she stuck to this guy and just helped him out each and every time. I know a lot of people would just have rolled their eyes and turned around walking away from all this.

I hope she will get a bigger role in the next book (though I am not sure if I will read those).

The adventure in both is pretty fun, the first book is about a jungle and the second one about mines.

It was definitely a page-turner you just wanted to know what will happen to our characters. Will they make it out fine? What about the monsters? What monster is lurking above them, or in that corner?

The monsters were quite interesting, of course I heard of them, Minecraft is something that is so big that you can't really escape it. Toys in the toys store, twitter, just internet stuff. Especially the creeper is the big popular guy.

The art was just as fabulous as I knew it would be. Her style just fits perfectly with these books, and I can't wait to see her artwork for the other books that are coming out. I will definitely be buying those, I am not sure I will read them, but I need them for the art.

I am not sure if I would recommend this one. For the art yes. For the story yes. But the characters (at least the MC) not so much.
