Love Medicine Erdrich Louise

The first of Louise Erdrich's polysymphonic novels set in North Dakota – a fictional landscape that, in Erdrich's hands, has become iconic – *Love Medicine* is the story of three generations of Ojibwe families. Set against the tumultuous politics of the reservation, the lives of the Kashpaws and the Lamartines are a testament to the endurance of a people and the sorrows of history.

Not for me

I hated it. Ugh. It was tedious reading. I live on a reservation myself, and I think I understand family issues here fairly well. This just bored me to tears.
