## **Loek Krancher says**

**Intense, emotional and very romantic.**

This is a real page turner. It's about two committed women in a warzone, in Afghanistan. For me, this warzone felt very realistic. Both women have problems with their relationships. I loved the pace in which the love for each other developed, how the intensity of their attraction grew. All the emotions they go through makes it very interesting. There were several tearful scenes, fear and happy moments. I loved the ending. This is a very well written story and I can highly recommend it.

## **Baxter Trautman says**

I don't mind romance in a novel but I don't like romance novels. Unless the novel is Tracey Richardson's "No Rules of Engagement".

In a military hospital at Kandahar Air Force Base, we are introduced to the eponymous Major Logan Sharp, a keen, confident doctor, unflappable in the most urgent of situations. Until photojournalist Jillian Knight arrives at KAF on a two-week assignment. The attraction is immediate but untenable; Logan is not willing to breach the walls necessary for her to effectively do her work just for a temporary fling with a civilian, and for reasons of her own, Jillian does not force the attraction. Thus begins a tantalizing, achingly protracted love affair.

Richardson's characters capture the love/hate paradox often found among war professionals, both at war and long after coming home. She writes of the current conflict in the Middle East without polemics, graciously allowing readers their own opinions. But above all, "No Rules of Engagement" is a white-hot romance, worthy of a place alongside the searing Afghan sun.

### **Love it**

First time reading anything from this author and must say I will be reading more. Love Logan and Jillian and I thought Mark was a male friend we could all use.

## **Alena says**

I really enjoyed the first half of this book set on an Army base in Afghanistan.

Then it enters cliched romance land, where issues are glossed over and character motivation is kept in the

dark, only to hint at \*something\* before the big reveal and HEA.

Still, likeable characters, quick read on a train ride.

### **ISA SIMONET says**

I am going to be very fast and especially very clear: the books of Richardson I wouldn't bother to make a review of each of her books. You can go there with your eyes closed, everything is good, her writing, her stories, her characters, everything. Go ahead, read Tracey Richardson without hesitation !!

I wish we could give half stars, I liked this book enough for 3.5 stars, but not quite enough to give it 4 stars, but was a good read.

### **Lex Kent says**

This is just a good old-fashioned romance. I really enjoyed reading it. I loved that the romance was slow building. The two main characters, had so much chemistry that their love, for one another, was very believable. This is my first book by Richardson, and if this is the norm for how she writes, I will definitely be reading more.

I would easily recommend this for any romance fans.

### **Jae Jae says**

A satisfying read with interesting characters in an interesting setting. The two characters establish a connection that goes deeper than just lust/love at first sight.

### **Val says**

I enjoyed this book so much. I don't know why I'm drawn to these military type books but they are certainly some of my favorites. A zillion times better than other book I read by Richardson.

### **Cheryl says**

It was ok. I enjoyed the first half of the book as the characters were introduced, fleshed out more from the inside than the outside which is kinda rare in this genre. Angst and conflict between individuals were danced around just enough to whet our appetites. But then back in real life stateside, the angst wasn't there, the

resolution just seemed too pat...almost like it was destined to happen.

Sometimes, I wish these Bella Books were longer to give the author time to really get to know the characters and then put a plot together and follow it all the way to the end without rushing to the obvious answer.
