## **From Reader Review Saga #37 for online ebook**

### **Brandon St Mark says**

It's so weird reading this as a floppy, but man was it good. I really like Peteichor, and the little guys at the end were hella cute. Also, there was a dick on page four. How could I not give this five stars for that alone? ALSO Lying Cat is back and she is my most favorite character. One of the better issues, I think.

---

### **Tudor Vlad says**

So this marks the beginning of a new story arc and this means new locations, new characters and maybe some returning characters. This issue has it all, but what it also has is an ominous feel that everything is going to end so horribly bad, and I'm scared, like really scared. I think I recall Brian K. Vaughan naming this "Saga's first major event" or something like that, and it sure feels like the start of something that's gonna effect the series in a big way.

---

### **Alice says**

This chapter is a filler, however I love Fiona's cute tiny creatures, the ones at the end of this issue are similar to sad little meerkats but with the same loving expression of my fave aka Ghüs.

---

### **Maria (Big City Bookworm) says**

Ahh! This was so good. When is this not good?

I've started to get into single issues rather than waiting for the volume bind-ups recently.

This issue is the beginning of a new story ARC and it was a damn good introduction!

That little family...so cute but, are they friendly?!

On to the next issue!

---

### **Derek says**

These issues are too damn short. Just when you're getting into the story it ends. That's how good this was. . .

---

### **Arctialuna says**

The beginning of a new arc which promises a really bad end. I imagine this means that someone will die but I think I will never be ready for it.

I pray for the second Deluxe Saga Volume to be shortly announced.

### **Amanda says**

Having impure thoughts about Prince Robot IV again. Thanks Fiona Staples.

---

### **Amina says**

Lying Cat is back! Yayeeeeeee!!!!

---

### **Sierra the Nerdgirl says**

3.5 This one was just ehh.

---

### **Hannah says**

Kurti and his family omg I am dying from this overload of cuteness!

---

### **Michelle (Witchy Books) says**

Stars: 5

I enjoyed it.

---

### **Dimitris says**

New arc, new chapter.

The spaceship is running out of fuel and they need to stop somewhere.

The only place they can land is a comet where Moonies are currently at war with the Wings, so that's not the

ideal planet to go with a kid. Especially theirs.

Prince Robot bitching about things and calling the couple sex criminals was the best in this one. Izabel was funny as hell too.

---

### **Dregus Ilies says**

"Every new world we visited was an adventure. And few adventures ended worse than this one."

This was amazing, and really got the Saga spirit inspired by the stuff of stars that wasn't all that present in the last arc. This my end up being more amazing than all the previous of Saga... and that scares me.
