Scandal's Daughter Emma V. Leech

Sebastian Grenville, The Duke of Sindalton, known as Sin to the ton, has had his fair share of scandal. His father's involvement in what became referred to as 'The Scandal of the Century' plunged him into the spotlight at the tender age of twelve, and he's been there ever since. Egged on by his best friend, Beau - The Marquis of Beaumont, his life is one of dissipation and ease. But every duke needs an heir and everyone knows Sindalton is in the market for a wife.

Both men, bored to death by balls and matchmaking mamas, go to a friend's hunting lodge in Cornwall. But caught in a storm, Sindalton heads for cover. Seeking shelter in a cave, the duke is delighted when he stumbles upon Miss Georgiana Bomford, the niece of the local doctor. But the feisty red-headed beauty is unimpressed by his attempt to entice her. Sindalton, however, is captivated and intent on seduction, makes her the target of his all too tempting charms. But Georgiana is not who he thinks she is, and when they meet again in London, the scandalous past is in danger of repeating itself.

Laura J. says

Melodramatic

I got past the hero assaulting the heroine when they first meet. Their getting to know each other and the reality of their situation kept me going until the villainous uncle showed up at the 30% mark.

Jen (The Starry-Eyed Revue) says

So, even though I figured out everything by the 25% mark on this book, I still enjoyed it. Even if it did remind me of one of my favorite Lisa Kleypas books -- or rather, the book that leads into my favorite. Or maybe because of that? It made me want to go back and read all the Wallflowers books, anyway. I actually had planned on reading book 4 in this series first because I saw a review on GR that claimed my interest, but then I also saw that the hero in book 4 was the villain of book 3, and I decided I had to meet him as the antihero first. It was a good call because I also really liked the main couple in book 3. I liked the case of mistaken/stolen identity, how the scandal fell about them, and what it all meant for their relationship. But I also can't wait to see what happens to Beau...the real one. :)

Melody says

A Pleasant Surprise Indeed!

As an avid reader, surprisingly this was a new find for me.

If you love the precise wording an author can use to describe any given situation transporting you to the exact place the characters share their story, then this author and book are for you! I fell in love with the characters and the roller coaster ride of emotions. From the kitchen squirrel scene (laughing hysterically), to life-long friends parting, the energy of the storyline was consuming. Mostly though, I loved how I could NOT predict what would happen next!!!

I started this late one afternoon, and looked up at 3:13 am! Seriously! Although I didn't finish it then, I realized I needed to slow down to make it last longer...truly wanting the story to continue.

There are a few typos, but not so distracting to take away from the story, otherwise, a perfect, pleasant surprise.

Jultri says

DNF 69%. What the hell was the author thinking (and drinking), ruining a potentially wonderful story by

having the heroine responding and participating too enthusiastically in racy crotch grinding, boob-squeezing make-out sessions with the hero's best friend. Yes, sessions! Not one, but two of these which is one too many to be called an aberration of a confused mind. The writing was quite excellent with very authentic language until the author threw in this crazy loop. I cannot possibly continue after such disturbing scenes. I know, from reading the next book (great read), that the best friend ended up kidnapping her in order to compromise her thereby estranging himself from both of them, but given the green light she had been giving him, who can blame him pushing his luck. Not my idea of romance, but the quality of the writing saved it from my usual highly-offensive-content one star rating. Yuck!

Kathy says

Georgiana meets Sebastian in a cave during a rainstorm. He tell her his name is Beau. She has read about him in the scandal sheets. There is no way they can be together but they are drawn to each other. It turns out a scandal is in their past. She is the daughter of the woman his father left his mother for. His father killed her father. Nope they can't be together. But they live each other. So many things interfere. This is a good book to read if frustration is what you want to feel.

Adele Dungan says

Fun read

I love historical regency Romance's. This was a great book. Anyone can read this book as the adult scenes are very well written and are mild in comparison to other books. The author has a great grasp of the era and it flows nicely throughout. I look forward to reading more of her books.

Jill Ray says

This was another fun book in the Rogues & Gentlemen series. Sure it's a bit unrealistic, a bit formulaic, and a touch melodramatic, but it's still a nice historical romance with a happy ending, and provides several hours of escapism. I've read these in order so far, and do recommend that since characters from the previous books play important roles, but this could probably be read as a standalone with nearly as much enjoyment.

Phil Ellenberger says

Always a five

Ms leech hasn't missed yet. Her characters are always great The Earl and Celeste have graced every story so far. Their own story was terrific! and they g were good,as were the main protagonists,in this one. The plot also won star billing Her works are just enjoyable reading.

Cynthia Houser says

Scandal

This is another good book by Emma! Two people meet fall in love believing each is someone else. The hero realizing that Georgie is not from a good enough family leaves. Circumstances are not what the couple believe. They find out that their parents had a history with a scandal. I really enjoyed the characters in this series. I can't wait to read Beau's story.

Mellisa Higgins says

Another 5 star winner!

Excellent like the other two in this series, but this one was spectacular! Great plot and fabulous characters with lots of exciting twists and jaw dropping revelations! Can't wait to read Beau's story and I'm definitely a fan that will read anything you write! Historical Romance at it's best!

Frances Law says

Another good Regency romance!

Emma Leech is one of the best authors of Regency Romance that I have read. Her characters are well rounded and interesting. There is continuity with the books that makes them that much more interesting. The romance is adult but far more realistic than so many books in the genre. 18+

Michele says

A sweet but adventurous girl is orphaned and taken in and brought up by her aunt and uncle. They refuse to tell her what really happened with her parents--As she is quite happy and content she never even bothers wondering. The truth will floor you!

The Duke of Singleton and his best friend from Oxford days, Beau are bored--they take off to a friend's estate for a rollicking good time. The Duke is bored and takes off on a walk--the weather changes and he takes shelter in a cave where Georgiana has also taken shelter. She somehow manages to deflect his advances but agrees to meet him the next day in the meadow where prying eyes won't see them. He has introduced himself as his friend Beau.

They ultimately fall in love. Georgiana knows nothing can come of it anyway--a Duke can't marry the daughter of the local doctor--so he leaves-----her modesty if not her heart still intact.

Well, the truth of Georgiana's parentage and what actually happened way back then is finally revealed to her by a relative who wants her money?

She is sent off to London and all kinds of craziness takes place-----

I found myself with wide eyes at some points and laughing at others. Romeo and Juliet? You will have to read to find out how it all culminates!!

Scandal's Daughter

Jeanette K says

A nice racy read, the touch of sex before marriage a stirring of the senses, the introduction of the uncle kept me on my toes. I thoroughly enjoyed this story I hope to find the previous books and then read Beau,s story.

I would highly recommend this series to anyone who enjoys an historical read, they are easy reading don't need a lot of imagination

Melba Hard says

Really enjoyable read.

I really enjoyed reading this book, it was refreshing, the characters were so well described that I loved them especially Beau! With the exception of the wicked uncle!

The dialogue unlike some books appeared very authentic for this period.

Barbara Rogers says

Series: Rogues & Gentlemen #3

Publication Date: May 17, 2017

Intricate, exciting romance. Well developed characters and a fast paced story line that is full of twists and turns make this a good read. This is my first book by Emma Leech and I thoroughly enjoyed it. I met the characters from the second book in the series and it just makes me want to read that one now.

This is the story of two people whose parents were steeped in scandal. One knows about it, but the other does not.

Sebastian Grenville, Duke of Sindalton, lost his father at the age of twelve. His father was involved in a duel over a married woman and the woman's husband was killed. His father and the woman were fleeing England when the boat sank and both of them drowned. Sebastian has lived with the scandal since he was twelve and he's tried every day since then to live so that his family gets out from under the scandal.

Miss Georgiana Bomford never knew either of her parents because both died when she was just a baby. She grew up in a very loving home with her aunt and uncle and had no idea of the scandal surrounding her

parent's deaths. She thought she was just a simple niece of the local doctor.

Sebastian is so disillusioned with all of the females he meets because none of them see him, they are only interested in his title and his money. So, when he meets a lovely young woman while he is visiting a friend's estate, he pretends to be someone else. Needless to say – the attraction turns to love, but he knows he cannot marry a commoner, so he leaves her there.

Shortly after Sebastian leaves, Georgiana gets a visit from a greedy, controlling, hateful uncle that she didn't even know she had. He informs her that he is her legal guardian and that he will be back to pick her up and she will be marrying. Luckily her aunt and uncle knew the details of her parents wills and they told her she was an heiress and that her other uncle just wants her to marry someone he can control so he can have her inheritance.

Imagine how surprised Sebastian is when he sees her in London – and EVERYBODY knows she is the daughter of the woman at the center of his father's scandal. Sebastian is shocked – the woman he loves is the daughter of the SIREN. How can that be!

There are many other characters in the book – good and bad – and they all do their very best to either help or hinder Sebastian and Georgiana. Beau, The Marquis of Beaumont is Sebastian's best friend. Beau has a despicable father and that has shaped him into a sort of twisted fellow. He's one character you'll have a love/hate relationship with. Hang loose, the next book is about him and I'm looking forward to seeing his redemption.

I won't cover the rest of the plot, but I hope you will give the book a try and enjoy it as much as I did!
