Screw the Fags Josephine Myles

Resisting temptation has never been so much fun!

When Cosmo Rawlins makes a special request for his upcoming birthday, his toppy boyfriend strikes a deal with him: if Cosmo gives up smoking, Alasdair will buy him a car. What Alasdair doesn't realise, however, is that a week of keeping a close eye on his bratty submissive will test the very limits of his libido.

Warning:

written in British English, where "fag" has an entirely different definition than it does in the States.

From Reader Review Screw the Fags for online ebook

Dreamer says

Short in which Cosmo is manipulated into giving up his cigarettes in return for a birthday present. Alasdair tries to distract him from the withdrawal..

'Despite the whole corporate arsehole daytime act, underneath it all Alasdair was a hot leather Daddy with cool tattoos and a secret marshmallow centre. Submitting to him just felt right, for some bizarre reason.'

Sofia says

This was very necessary after reading Screwing the System. It showed me a bit of Cosmo and Alasdair ten months on and they seem to have grown together. I loved seeing them comfortable with each other. Part of the happy ever after feeling which we romantics crave.

Ingie says

3 1/2 Stars - a lovely short sequel about a unique couple - ...nice to meet them again

I loved Alasdair and Cosmo's lovely story in Screwing the System (my review) and this free mini sequel (35 pages) gave me a brief meeting with them ten months after the novel ended.

Their HEA life rolls on but there are still some small issues to be resolved. Cosmo wants a driver's license and a car. Alasdair want Cosmo to quit with smoking. Time for more rules in the house...

“All I can think about is lighting one up and sucking it down. Fuck it. It's worse than being in love.”

Steamy, talkative, fun as always with a super charming smart Cosmo and his resolute "Boss" Alasdair. I smile and bows for a few pages yummy good reading....

I LIKE - every time, when I get to meet these guys

### **Ann says**

Great follow up to Screwing the System. Little bits of closure from the first book and it was so good to see Cosmo and Alasdair fully together and happy \*sigh\*.

---

### **Josephine Myles says**

Screw the Fags is my way of giving something back to my readers, and of tying off one of the loose ends remaining at the end of Screwing the System: Cosmo's smoking habit. I really enjoyed this chance to revisit the two characters ten months into their relationship and explore how their approach to domestic discipline had developed over time.

I know that some of the people reading this as a freebie probably won't have read the original story, and I did my best to avoid giving spoilers. I hope reading this has piqued your interest enough to want to find out more about how these two unlikely partners ended up together.

---

### **Mercedes says**

I am left with a happy feeling that Cosmo is no longer smoking and that these two are happy as clams.

### **Awilk -never sleeps- says**

What a great little read to let us catch up with Alasdair and Cosmo. I truly enjoyed this but I do wish it was longer.

Alasdair has wonderful ways to help Cosmo give up smoking.

This was a short, hot, sexy little read.

---

### **Sara says**

Oh a chance to visit with Alasdair and Cosmo again was one I was not going to pass up. This baby was even

free! Talk about a double treat for me.

This was again, fun, sexy, hot and the BEST follow up to Screwing the System to see what they boys are up to. Oh yeah, what ARE they up to?

*“You look like you’re planning some kind of sadistic challenge for me.”*

*“Oh yes. I most certainly am.”*

Like the summary says; Cosmo wants a car and Alasdair wants him to stop smoking. They make a deal and what happens was amazing. From the last fag to nipple clams to yoga poses, wiggling toes and trying to stay quiet, to untidy tables due to butt plugs and the talk in the kitchen in the middle of the night. This was simply perfect, simply wonderful and a lovely way to get to visit the boys again.

*Alasdair might need Cosmo like he needed oxygen, but he wasn’t about to start getting all mushy with red roses, jewellery and the like. Not unless the jewellery came with a padlock.*

Screw the Fags is a must read if you have met the boys before. If this happens to be your first introduction? Go now and get the first book. You will love it.

## **Danny Tyran says**

This is the sequel of "Screwing the System". It's set ten months into Cosmo and Alisdair's relationship. Their dynamic had changed a little in that time. Cosmo, for example, is still bratty and disrespectful to Alasdair, but he is a little more... submissive in a way that is true to his character.

Cosmo's anniversary will come soon. In fact, this is the same day as Valentine Day. So, Alasdair wants to buy him a nice gift. When he asks Cosmo what he wants, Cosmo answers a motorbike. Alasdair disagrees with this idea but says that he can get him wheels. He will buy him a nice car if Cosmo gives up smoking. But then, how to be sure that Cosmo will respect the terms of the deal without keeping an eye on him? The only way he finds is to bring Cosmo to work with him.

So, the first day of the deal, Cosmo goes to Alasdair's company wearing a t-shirt reading « manhole inspector ». Alasdair must keep Cosmo busy. As Cosmo's problem is "oral" and "manual", Alasdair does his best so the young man's mouth and hands are rarely idle. The scenes in Alisdair's office where Mavis interrupts are hilarious. Alasdair tries to keep working at the same time. Not an easy challenge.

The author shows us that D\s is not only spiced sex but could be a guy trying to please his Dom by giving up his “fags” for good. Note that in this story, "fags" refers to cigarettes not to faggots.

The writing is still very good. The D\s and BDSM are realistic. The sex scenes are hot. There are funny jokes. I still don't like Cosmo's lack of respect though. So I give it four stars and a half.

### **Kaje Harper says**

This is a fun light free sequel to Screwing the System. And of course the Britishness of the book is part of the fun - "fags" being cigarettes - no angsty moments here. I enjoy these guys, especially the way Alasdair's toppiness and domestic discipline get a little off key due to the fact that he adores his sub, Cosmo. That boy is going to end up a little spoiled, and a lot loved. I think this one could be read first, without too many spoilers for the novel, although you'll enjoy it more in the right order.

### **Steelwhisper says**

Jo Myles is such an enormous pleasure to read!

Not just that she writes an extremely realistic BDSM which has all the dots and crosses all the t's and is a hundred times more interesting and amusing than all that distorted and abused "fantasy-BDSM" you get to read from others, she also has an innate humour within her stories which has me go from a tender smile to open laughter and back, all the while enjoying her very erotic descriptions of male loving.

This one was hilarious, warming like a good cup of cocoa and British in the best sense.

Recommended for everyone!
