**Hilarious, sweet, and engaging...**

The Cowboy's Christmas Baby by Carolyn Brown is a super sweet read. Family, love, and new beginnings are major themes in this book. I was hooked immediately. From the sassy women to the sexy cowboys, I was addicted. Then, there were the ways the farm animals kept coming into the farm house causing a hilarious yet interesting scene. There was also the cutest little baby boy, Joshua who warmed so many hearts including mine. I just could not get enough of these characters. Trouble, drama, and romance all rolled into one brilliant read. I would highly recommend this title to all readers.

I received this copy from the publisher. This is my voluntary review.

**Desere says**

Cyber-dating has always been dangerous, you never really know who you're speaking to on the other side. It can cause a endless amount of trouble for both parties involved. In the new Carolyn Brown read this however is what Natalie and Lucas get themselves involved in for almost a year before meeting face to face, or in this case face to pistol and screaming baby.

Yes you read that right, screaming baby and pistol! Lucas has just come home from Kuwait and all he wants is to get rid of the desert sand and find Natalie, the woman of his cyber dreams and he is dead set on making sure their first meeting is nothing but perfect.

But he comes home to find Natalie already there, with a dead coyote at her feet and a baby in her arms. Not romantic at all and certainly not what he expected, and understandably he explodes and feels that she lied to him on purpose.

This is of course not the case at all and Natalie tries to explain but with Lucas furious beyond reason she gives up and walks away ready to leave the ranch immediately, only fate and Lucas's housekeeper has other plans for these two and by the time Christmas day arrives they won't be able to live without each other.

The character of Natalie was a real hell-cat, spitting fire and just totally awesome! I adored her standing strong through her mistakes and sticking to her guns no matter how hard life knocks her down, as any single mother would know dealing with the raising of a child alone is never easy and nor is it easy to find love again and acceptance for you both.

Natalie does not let this little bump in the road stop her nor does she let Lucas's bad-ass attitude stop her from standing her ground, totally adored her knocking him back ten times harder then what he dishes out, had me laughing ever time the man got roped in.

The character of Lucas was the one that stole my heart in this read, coming home after war and losing your

best friend in battle with the dream of having the woman of your dreams in your arms and then finding her already a mother and with a whole lot of baggage is not the homecoming any man wants, and yes understandably he loses his cool, but the author also lets his true personality come through as the read developed I found him to be a true gentleman and always staying true to his feelings. He digs deep inside his soul and finds that family comes in all shapes and forms, you just need to embrace it.

The backdrop settings and dialogue were so delightful and full of spirit that I felt the emotions of each character, saw the landscape and could touch the chemistry, truly amazing stuff Carolyn, you stole my breath away.

Am taking away a message of life sometimes brings us to where we want to be but not in the conventional way, it takes us on twists and turns and along the way shapes us into better people. It might feel like nothing is going the way you planned but in that is where the beauty of life lies, don't walk away from it, simply go with it and know that in the end you will see that who you have in your life came into your life exactly the way they were meant to.

I highly recommend this read for all fans of sexy, spunky hot cowboy reads. Carolyn Brown delivers on each and every page a truly phenomenal story of friendship never forgotten, love and family found and above all the message of miracles happen every day.

I look forward to many more highly enjoyable reads from this author!

I have this terrible 'can't stop reading these nearly DNF' books syndrome with Carolyn Brown. I've read 3-4 and liked one. That's it just one. For some reason I keep reading them. I think I keep hoping they get better but so far...not really.

This one dealt with a soldier returning home and finding his dead friend's girlfriend/fiancee/whatever at his home. They'd been talking online for awhile and anyway she's got a kid. His dead friend's kid. The thing is they've been talking online for a year or so and he's expecting a relationship and then gets pissy because she has a kid she never mentioned. Okay...anyway they have issues and then everyone around them keeps pushing them together.

So not a terrible premise but the actual story is quite ridiculous. I never felt any chemistry between the two characters the whole time I read the book. I never understood why I continued reading it even though it was a struggle. I never quite understood why the hero was so pissy in the beginning.

So basically I do not have much to offer in line of a review because, to be fair, I really did not care for it. I just find Carolyn Brown's writings to be sort of amateurish which is sad because she's a veteran. I just feel like the story could use a really good collaboration or editor to make the book shine. Instead it seemed watered down and unpolished.

There are so many words that can be used to describe *The Cowboy's Christmas Baby*. Fun! Flirty! Heartwarming! Lucas Allen and Natalie Clark had one thing in common. It was Drew Camp. He was Natalie's lifelong best friend. He became Lucas best friend when they were serving over in Kuwait. That is the bond that brought the two of them together. You must read the book to find out how Lucas and Natalie got together. It was a very rough start. And did they find their happy ever after? Carolyn Brown always knows how to get your attention and keep it to the very end. I loved every minute of this book and was sad to see it end.

Nothing pleases me more than reading a good book from a favorite author and thoroughly enjoying it. Carolyn Brown's book, *The Cowboy's Christmas Baby*, just happens to be another delightful addition to the many I've read in the past. The book started off with a bang and continually kept me on my toes with antics that had me chuckling out loud. I love a book that makes me laugh and this one had it in spades. Carolyn Brown brought a sexy cowboy, sassy cowgirl, an adorable baby and a whole cast of side characters for one fine addition to the *Cowboys and Brides* series.

Natalie Clark and Lucas Allen have been cyber-dating for over a year while he was stationed in Kuwait. They formed a friendship through a mutual friend Drew and it grew even more when they both grieved over his tragic death. They plan to meet and see if this relationship could develop into something more once he returned home. Lucas returned home early and he got the surprise of his life. He turns the corner and sees Natalie standing there with a pink pistol in one hand, a dead coyote at her feet, 3 puppies behind her, and a baby on her hip. A baby?! Little did he know at that moment was just the beginning of an adventure leading up to Christmas.

Lucas and Natalie were two very likable characters and needed to find out if they truly were right for each other. They got to know one another online but it is different in real life. There is family to consider and with Natalie joining the Allen men on their ranch she became their temporary cook while Hazel was off recuperating. I got to see both characters points of view and knew each were hesitant to love for fear that the other didn't reciprocate back. It was refreshing to see a new twist of a plot on a storyline of a man accepting and loving another man's baby. The antics with the animals of all kinds were such a hoot for me. I could

visualize every one of those scenes and it had me grinning from ear to ear.

I like it when all the parts fit together and the story flows well from chapter to chapter. The book never settled but kept building one scene after another. I loved the scenes with the Joshua the baby because he brings everyone closer together. The one element that I love about Carolyn Brown's writing is her use of similes. You never know what she is going to come up with but you know they are going to be good. The ending was predictable but still quite satisfying with a happily ever after. Luke and Natalie are a good match and I can see them going the distance in love with never a dull moment.

**"The Cowboy's Christmas Baby" Cowboys and Brides #2 is by author Carolyn Brown.**

**Published: September 24, 2013**

**My Rating: 5 Stars**

I've read many Christmas romances in the past few weeks. Some were good, some great. But "The Cowboy's Christmas Baby" was the most heartwarming. It's one I will definitely reread. At 352 pages I hesitated reading this one. But only because I was at a point in my week where I needed to select a book I could get through in a day, two the most.

This book was pretty far down on my TBR list, having added it a while back. I am so glad I selected it! It had every "feel." There was an absolutely amazing and spirited cast of characters. Not only were the H/h perfectly and realistically written, but the secondary cast was a wonderful gift to the story. They were all truly a great bunch of sassy, quirky and humorous characters.

Lucas Allen is the hero of the story and my hero as well. He is a cowboy by nature and by heart. Hardworking and loyal. Lucas has been overseas, in the military but he is finally coming home to the relief and delight of his witty and loving family. Lucas missed his family. Another reason he is eager to get home is to meet Natalie. She is the woman he has gotten to know over the past eleven months via Skype. Natalie is the woman Lucas can't wait to meet in person, the one he thinks about a future with. But all his hopes and dreams of a future with Natalie are stalled when he comes home to find her with a baby. Her baby! Lucas is upset and not a little angry. For nearly a year they got to know each other. She never once told him she was pregnant! Why did she lie?

Natalie Clark is a strong, sassy gal. True she didn't tell Lucas about her baby. But only because she didn't know how. She was afraid to lose him so she decided to wait and tell him in person. When they do meet for the first time, things don't go well. The situation is tense and even a bit unfriendly. Of course, Lucas's reaction is understandable and believable.

What I was really thrilled about is that Lucas didn't hold onto his anger long. The relationship between Lucas and Natalie took time to develop. It was a slow but perfect journey. I can't say enough how much I loved this book and all of the characters in it. Lucas will forever have a special place in my heart. The mold was truly broken after he was created. Well, that's just my opinion but he was amazing. Not only was Lucas perfect with his looks and physique, he was well-mannered, patient, loyal, considerate, friendly, generous, loving and absolutely genuine with his care of Natalie's baby. This book also had a ton of laughter. As I said earlier, "The Cowboy's Christmas Baby" has all the "feels." Absolutely all of them!

So yes, I would recommend this book if you are looking for a steady-paced, feel good, heartwarming romantic story. And what makes it even better is that it takes place over Christmas time.

This was a really good book and I had a hard time putting it down. Natalie was such a down to earth person and Lucas was dealing with coming back to the states after being overseas. When Lucas first sees Natalie he gets a rude awakening and then is rather rude to her for awhile. His family and Hazel is great to Natalie and he soon begins to think maybe his first impression was too harsh. These two had matchmakers, an ex-girlfriend that kept sticking her nose into their business, and a sweet little baby.

Lucas Allen comes home from his tour in Kuwait to find his cyber girlfriend on his front porch, with a baby on her hip, a gun in her hand, a dead coyote on the ground and the puppy hound dogs circling like they just took care of the coyote all by themselves. Shocked might be an understatement.

Natalie Clark wanted to surprise Lucas by being at his home coming...they only problem...she left out a few details about her life. The big one, she has a baby.

Sizzling chemistry and hot cowboys accent this marvelous story that makes you believe in the miracle of Christmas. If the crazy animal attractions don't pull you in the cute cooing baby will, or the doting grandpa want a bes, or the wonderful meddling cook...*The Cowboy's Christmas Baby* is a heart warming, touching story that makes you want to break out the mistletoe.

Oh boy, do sparks fly when Lucas Allen returns from his tour of duty in Kuwait. When Lucas returns to his ranch to find his internet girlfriend toting a pistol in one hand and a baby in the other, he wonders if he should have stayed in the desert. Lucas can't believe what he is seeing his internet girlfriend, Natalie Clark with a baby in her arms when they had been communicating via the internet for almost a year and Natalie never said a word about the little man. Nor is he very thrilled with the prospect of this beautiful woman being in his home tempting him, but that's exactly what happens because right before Lucas' homecoming, his long time housekeeper, cook, friend, Hazel has hurt her hip and begged the very talented Natalie to fill in for her until Christmas.

Natalie has been in a precarious position since she she became pregnant with her best friend, Drew's baby. In a drunken stupor, the best friends since childhood fell into bed together before he returned to his tour in Kuwait. Natalie didn't even have time to tell him about her pregnancy before his death in the desert. She honestly was in denial for quite a while and then when she realized she was in fact pregnant, it was never a good time to tell Lucas, who she started chatting with upon their mutual friend's death.

Lucas thought he would be able to fall quickly into a relationship with Natalie, but baby Joshua could be a deal breaker. Only thing is, all the Allen men and all at the ranch have fallen in love with Joshua and leaving is going to be a very hard on everyone. If only Lucas would get over his stubbornness and see the woman he begun the internet friendship with, things might actually end well. There is never a dull moment in *The Cowboy's Christmas Baby* by Carolyn Brown, who's sassy personality comes out in each and every page. Each and every character shines through in this story. I wanted to be a part of it. All the Christmas plans and the traditions put me in the holiday spirit and the sizzling romance doesn't hurt either. If you're going to pick up one Christmas book this season, I strongly suggest that you pick up Carolyn Brown's *The Cowboy's Christmas Baby*.

Fun book full of sassy romance and quirky characters. Lucas has arrived home from his deployment a couple days early, ready to surprise his family. He's also looking forward to meeting the girl he got to know over the internet in person, when she arrives in a few days. But there are a lot more surprises than he expected when he arrives to find the family gone, and Natalie already there. She's standing there with a pistol in her hand, a dead coyote at her feet, and a baby in her arms, just as stunned to see him.

Lucas was introduced to Natalie, via Skype, by his tentmate, who was also Natalie's best friend. When Drew

was killed by an IED, Lucas was the one who told her and became her friend also. He's spent the last few months building up dreams and hopes that come crashing down when he sees her with the baby. He's angry that she didn't tell him before, hurt that there must be someone she cares for more, and jealous of the baby.

Natalie is stunned to see Lucas show up early. She and the family had big plans for his homecoming and now it's all ruined. She knows she should have told him about the baby, but she hadn't been able to figure out how. She wants to explain, but he won't listen. Now he's just making her mad with his reaction. She's ready to walk away from the ranch and Lucas, but the family housekeeper/cook has been hurt and has made Natalie promise to stay and look after them until she's better.

I loved Natalie. She's a strong, sassy woman who has no trouble standing up for herself. She doesn't take Lucas's attitude for long, and soon pushes back. I like the way she owns up to her mistakes, then moves on and expects him to also. She'd spent most of the last months getting to know Lucas online and falling for what she saw. Lucas in person is even better, and her attraction to him is sizzling.

Lucas was fantastic. I felt for him, with the shock he received when he got home. He's still dealing with the loss of his friend and had been looking forward to holding Natalie. It isn't surprising that he loses his cool for awhile. Once he cools off and he and Natalie have a chance to talk, his true nature begins to reassert itself. He is really quite a gentleman and a romantic too.

The development of their relationship was quite well done. They already knew each other pretty well, but there are some things that have to be experienced in person. Though they start out ticked off at each other, it doesn't take too long for them to move forward. I loved seeing them together, from their cooperation with the ranch work to caring for the baby to acting on their attraction. Both of them were cautious about confessing their feelings, worried that the other didn't feel the same way. I really enjoyed Lucas's efforts for Christmas and how he tried to plan each little detail. The ending is really sweet with them finally having the courage to reach for their dreams.

There is also a great theme of family running throughout the book. Both Natalie and Lucas are close to their families. Though she spends a fair amount of time avoiding her own family, Natalie thinks of them quite often. I enjoyed the conversations she had with her mother, and how Natalie tried to keep control of her own life. Lucas's family was a lot of fun. The three older men were really sweet with the way they took to baby Josh. I loved seeing them fuss over who got to hold him or take care of him. It was also fun to see them try their hands at matchmaking. Lucas has dreams of having his own family, but fears it will never happen, thanks to an ex-girlfriend. There's a great twist at the end that is the direct result of her actions, but it helps bring Lucas and Natalie together.

There are quite a few laugh out loud moments in the book. Natalie's refusal to be intimidated by Lucas's ex was very fun to read. There were several funny scenes involving animals and their determination to get in the house and the havoc they created. I also enjoyed Hazel the housekeeper's long distance interference, and her arrival back home once she's healed. The interactions among characters were fun and moving and just plain terrific reading.

3.5 Early this year I read and enjoyed the first book in the Cowboys & Bride series, Billion Dollar Cowboy, by Carolyn Brown. I was excited to see the release of The Cowboy's Christmas Baby. This time she brings

us a yummy rancher who has just finished a tour in Kuwait, and the sassy woman he has been chatting with for the past eleven months. Filled with memorable characters, a friendship to lover's romance and the joy of the season. Mini review: sweet, humorous and romantic.

Lucas Allen is excited to be returning home to his ranch, and family. It's been a year and he is anxious to celebrate the holiday season getting to know Natalie Clark. She is the woman he has been chatting with online for the past eleven months. He has visions of scooping her up in his arms and kissing her silly when she arrives. Imagine his surprise when he returns home to find Natalie surrounded by puppies, holding a pink pistol and a baby in her arms. The tale that unfolds was sweet, sexy and filled with hilarious moments that made me giggle aloud.

Lucas and Natalie have both lost someone special to them, and it has forever changed them. Lucas is sweet and smexy. At times, he could be a stubborn, Neanderthal but you cannot help falling for him. He has a soft spot for family members and even in anger he is tender. He is fairly fleshed out, and I felt his emotions. Natalie is tough, loves sports and ranch life. She is living with the consequences of too much tequila with her best friend and suffering from his loss. Lucas has been her rock, and those night spent chatting online her salvation. This is a friendship to lover's trope and Brown did a good job of filling in the details, allowing the characters to grow and making the relationship feel real. The secondary characters especially the "three wise men" and the housekeeper really added humor and tender moments to this tale.

The Cowboy's Christmas Baby was one I easily slipped into. The characters came to life, and I felt like I was right there on the ranch. Brown did a lovely job of creating a rancher's life, and bringing it to the reader. I liked how Brown used the Angus Association of Ranchers to tie Lucas to the characters in Billion Dollar Cowboy. The tale was well paced, with twists, and turns while not over doing the drama and obstacles. There were lessons, and magical moments and laughter all around. The romance developed slowly, and while the tale was completely predictable I was happy chasing my HEA. There was a scene where the couple bickered, and I think it should have been handled differently, it put me off Lucas for a New York minute, but we quickly got back on track and I ended up adoring him. The baby who did nothing more than coo, had a unique role in the tale, and I adored every moment and scene he was in.

When I don't know what to read or can't seem to decide between books, I reread a Carolyn Brown because it's a sure value.

Lucas met Nathalie via Internet when he was serving in Kuwait. She was best friend with one of his brother in arms and when he died, they continued to chat. For the past eleven months, their cyber friendship became serious flirting and they both visualized what would happen if they finally meet in person. Lucas certainly never imagined a pink pistol, a dead coyote and a baby ! First impression doesn't goes according to plan for the two of them. Lucas is not happy she neglected to tell him she was pregnant and had a baby. When he came back to Cedar Hill, Lucas assumed they would become a couple and marry. He's not really angry about the child, but because it made him think she was seeing someone and didn't say a word about it. The bickering and little bit of animosity of the beginning subside when he learn that Joshua's father is Drew, their late friend who died in Kuwait and he was conceived more than a year ago on a drunk evening. That's when the bitterness transform into a hot chemistry and sizzling sexual tension. Christmastime this year will include

Nathalie, Lucas and baby Josh but also three wise men (Lucas's father, grandfather and uncle) and an entire menagerie of animals who seem to fall under the spell of the two months old baby.

I might have frown a time or two because of the gender stereotypes (like when it was said that boys don't write in diary for example), but a sweet romance is what I wanted and it's exactly what I got. It was fun to see Lucas and Nathalie not refute the false rumors and let people believe what they want. I liked the heroine's fiery attitude and that she could hold her own against the mean girl. And what a delight it was to read about all the farm animals who invite themselves inside the house.

"Debra could yell, rant, and cuss, but when she whispered, the devil covered his ears and whimpered."

"then thank you. Now I need to see Josh. I like his name. It's a good strong name like Lucas. Nowadays, girl are namin' their kids such weird names it looks like they just throwed the whole alphabet up in the sky and whatever fell on the table, that's what they named their kid."

Original Blogspot: <http://headouttheoven.blogspot.com/20...>

My Rating: 4.5 of 5 Stars

A recent email from Momma enclosed a reading assignment and a couple of romance books (NOT the reading assignment). Yes, boys and girls, Momma still gives out assignments. So like the good, obedient student I have always been, I started on something else. How could I resist a good cowboy romance over an assignment?

Carolyn Brown writes a mean romance. A Cowboy's Christmas Baby turns out to be the second of a series of four (first is Billion Dollar Cowboy) and makes a story all by itself. There is a short mention of the other three cowboys since they're all friends but this novel can easily stand alone.

Lucas is the entire sexy cowboy package - plus. This is a dedicated rancher who also volunteers to serve his country and does what he thinks would make a great Christmas surprise for his family. He comes home earlier than expected.

He finds a bigger surprise, though. The woman he'd been dating on the internet throughout his Kuwait tour stands on his porch, holding a baby and a smoking pink (Really? I'd prefer a blued Colt myself!) pistol. Natalie is a rancher too, working on her Dad's spread that's bigger than what Lucas owns. She loves cattle, cooking, and guns; not necessarily in that order.

Ms. Brown paints a real picture of Lucas. He's survived Kuwait, the death of a close friend (who is also Natalie's best friend), is painfully working through fitting into the normal world and getting over the nightmares that plague him every night. I'm glad that she acknowledged the difficulties the soldiers have, not only the stresses on their tour of duty but the very real adjustment problems many don't realize wait for them in their safe place - home.

It's people like his understanding family and strong characters like Natalie who help most in these situations. Natalie herself is wounded by the death of her best friend Drew who also happens to be the father of her

child. Together, they deal with their grief and make a family for little Joshua while living up to the wild rumors of Lucas having a secret bride and baby.

When you throw in their Three Wise Men into this matchmaking mix, it becomes a really laugh-provoking, Merry Christmas. Are you confused yet? Good! Needless to say, I started immediately on the next (actually the first) book.

Laugh-out-loud good! The crazy characters make this story a huge page-turner! Lucas and Natalie corresponded via SKYPE for over a year. When they finally meet, in person, Natalie has a secret that stops Lucas in his tracks. Add the huge lie that Sonia tells, to the mix, and you wonder if the relationships is over before it begins! Great story.

Title: The Cowboy's Christmas Baby

Series: Cowboys and Brides bk 2

Author: Carolyn Brown

Genre: Western Romance

A PISTOL-TOTIN' WOMAN WHO'S NO ANGEL

LOVE THAT WARMS THE COLDEST NIGHT

After a year in Kuwait, Lucas Allen can't wait to get back to his ranch for Christmas and meet his gorgeous Internet pal in person.

When he pulls in, there's Natalie Clark right in his front yard with a pink pistol in her hand and a dead coyote at her feet.

Lucas is unfazed. But wait...is that a BABY in her arms? (from the back of the arc)

Lucas Allen cannot wait to meet the woman who has not only been his confidant but his life line during his time in Kuwait, but when he realizes she hasn't been exactly forthcoming, he begins to question if he truly knows her at all. Natalie Clark may have omitted the fact that she was pregnant then gave birth to a little boy whilst starting up a relationship with Lucas, but she's no liar and intends to prove it. Now that he is home, even though he is a bit angry at her betrayal, neither can deny the attraction they feel for each other.

Brimming with secrets lots of sexual tension and characters that are delightfully flawed, The Cowboy's

Christmas Baby is another keeper on my shelf.

I love Christmas books especially ones that center on cowboys. Carolyn writes in a way that you feel you have a connection to the characters. I have to say that I enjoyed both the hero and the heroine. They were both strongly created characters with these human flaws they had to work through and both had valid reasons why they did or acted as they did.

Love this series.. Keep up the great writing Carolyn!

A+
