### **Hannah says**

I have now read six of the left behind books. The series is written by Jerry B. Jenkins, is about four young characters and what their lives are like after the rapture. The rapture has always fascinated me and it's interesting to hear about it from a teens perspective. Even though the series has been interesting, I don't see myself finishing it.

The sixth book "The Underground" has been my least favorite. The book is focused on the teens going back to school. They are told that they are not allowed to talk about Christ because of the "separation of church and state." The teens realize they need to tell others about Christ so they start writing a newspaper called "The Underground." I thought the idea was cool but not the name. The underground make me think of the underground railroad. They could have thought of a better name. Later in the book, a teen named Shelly joined the group. I felt she was unnecessary. Her only purpose was when her mother told the principle that Vickie was trying to "brainwash" her. When I first started reading the book I thought it was interesting. As I continued to read, I felt it was too cheesy. An example is when Ryan found his dog and brought it to Judd's house. When they are talking about possible names Lionel recommends Rapture and Vickie recommends Ashes. I thought it was an interesting choice to name your dog rapture when you were left behind. The teens then decided to name the dog Phoenix. I thought this was incredibly predictable and I wanted to stop reading the book. The end of the book was also predictable. The teens think Vickie told the principal about the Underground. I wish it would have ended on a cliffhanger. Honestly, I cannot see myself finishing the series. I have become bored with the series and wish I would have read the adult series instead.

I recommend this book to young children who are interesting in the rapture. I do not recommend this book to older readers, they may find it boring. I felt the series had too much detail about the children's lives. I wish it would have explained more about worldly the events that were taking places. If you don't know much about the rapture I recommend reading the book of First Thessalonians in the Bible.

The Underground by Jerry B. Jenkins is the 6th book in the left behind books. The kids have an excellent idea of how to spread the truth when the schools ban any talk about God.

A newspaper! So that's what they do. But the teachers start confiscating copies. They even bring in the police. Two boys at the school, John and Mark, agree to help. Shelly, Vicki's friend, decides she wants to become a Christian too. But when Shelly's mom tells on Vicki, the whole group may be sent to jail.

This book shows how a lot of schools react to Christianity. I have heard of schools where people can do anything religious, but when a Christian comes along and carries a Bible around school they get suspended. These books are written well and really do make you think. People can't expect other people to just give their lives to Christ just because you talk to them, and some people think they are safe if they die because they act good or they think God is too nice to not let anyone enter into Heaven. Like when Shelly told Vicki she just wanted to die, even though she wasn't saved she thought she had a good chance of going to Heaven. She didn't understand anything about praying, which is why she called Vicki before she O.D. on pills. If Vicki hadn't been there, Shelly would have died and went to an unfriendly place.

### Pre Teens- One Star

### New Teens- Three Stars

### Early High School Teens- Three Stars (and a half)

### Older High School Teens- Four Stars

My personal Rating- Three Stars (and a half)

{These ratings are for content, since everyone has a different opinion on the Rapture and how it will happen.}

Again, with very light “language”, which was nice! I’m still very much into the whole rebel plot of this

book. (You would think that the teachers would realize, however, that the more you say something is banned, the more the kids will want to do it. That's just common teenager logic.)

I will say that I highly disagree with dogs being left behind in the rapture, though. That was the most annoying part of this book. Overall, "*The Underground*" was a good one for laying the plot for future books in the series. ;)

I thought the 1st six books were good cause it tells you in the beginning and it talks about the friends how they live alone but in the 6th book Vicki Bryan and Judd Thompson are captured and put to ask questions at the school cause in the 5th book Judd meets new friends and they were involved now Vicki has been kidnapped to ask questions and wait to see whats going on with them

This book is about how Judd, Viki, Lionel, and Ryan write and publish a newspaper about the disappearances, bible verses, and stories about god. But it has to be a secret newspaper because it is against school rules to talk about god. How will they get the word out about god?

I liked this book because it was a type of book that keeps you on the edge of your seat while still talking about the lord. Now there were some bad things to this book. Sometimes in a story I like to see someone get caught so you can read the struggles to get out of the situation. But in this book they're so close to getting caught but they always get out of it.

If your a type of person who likes reading about people who were left behind from the rapture and how they learn about god, then I recommend this book/series.

#### **Actual Rating: 4.4**

This was an enjoyable read. The Young Tribulation Force are now going back to school. It is different because they have God by their side. Also, they are trying to get more Youth to believe in God. I really thought Vicki grew up in this book as we see her fight for her beliefs. I hope she can help bring her friends and teachers to God. The paper seems to be really annoying the school. Also, I did not like the fact that a teacher confiscated a Bible and called it "Dangerous Material." I think the school is taking away the student

ability to express their freedom. I think the newspaper's name is intriguing. I want to know why they called it The Underground. I can't wait to read Book 7. Overall, a great read.

### **Heather says**

This young adult series was not that good. You need to read the series in order to understand what was going on in the books. I felt that it wasn't written that well and not sure who it would appeal to. The main characters are high school students, but the reading level of the book is about 4th grade reading level. The topics are very high school (and maybe upper middle school) level. Very religious and almost too much to enjoy the fiction book.

### **Yemima Yulia says**

The courage to fight for things that you believe is true, may takes many things in your life, but that's the price that should be paid to show how much you love HIM. That's the responsibility of being human. We are blessed not only with instinct and mind but also with the ability to listen to the voice of our heart and the desire to know GOD and HIS way. In Christianity, that ability comes only from the existence of The Holy Spirit. The will to give their all to GOD no matter what is the strongest message of this book.

#### **A Quickie Review**

In this sixth outing, Judd, Lionel, Vicki, and Ryan produce a newspaper called The Underground so that they can spread the real story behind the mass disappearances to their classmates. However, such material is banned by the school administration, and their newsletter could have dire consequences.

**Content Concerns:** The cliffhanger ending is a bit intense; that's about it.

**Score: 4/5**

This book has the Young Trib Force making a newspaper underground to spread the word of God. They get the 1st copy's out and they soon get thrown away. On the 2nd copy distribution they get caught but narrowly escape. Near the end Vicki gets caught. Will she get out of it?

I liked reading this book. It had a lot of suspense as to what would happen to the kids. It left a huge cliffhanger though

I recommend this to people who have read the series
