**Melody says**

This did not float my boat...at all. I am shocked at how disappointed I am. I have been anxiously awaiting this book. I loved the first two and I can't believe this is even in the same series. Where did this part of the story come from?! It was out of nowhere and left so much up in the air and unanswered. It was almost as if everything from the first two books didn't even matter because here's a whole other story.

And Brooke...ugh I almost hated you at 80% I pretty much did by the time I finished. I thought oh she'll not be as stupid as she was after getting herself kidnapped (oh and by totally random evil Danny from her past and who also disappears into thin air again) but alas she was still stupid. I honestly thought after she had her flowery moment with the questionable homeless man that she was going to march her butt up to Jett and let him in on his dad's not so much being dead but no lead into major stupid decision! The combination of her annoying insecurities (my god woman get yourself together you're carrying his baby he obviously likes you!) and get constant contradictions were enough to put me in the I hate you category. Every other line was a contradiction! And then just random lusting for Jett (that's ok).

Then out of nowhere super creepy sex slave rape fantasy club kidnapping...enough said....ewe!

And no where throughout this whole thing is the pregnancy and a super concern. Let's kidnap the pregnant lady to the aforementioned super creepy sex slave rape fantasy club. Ewe.

Then let sweep it up into the random we have no idea why we're going back to this gang that Jett used to consider his family. This story had so many holes and contradictions in it you're head will spin. No answers. Since Jett didn't fill her in I guess we don't get filled in on what's going on here either?! And Kenny is begging them not to tell the rest of the gang that him and Jett have maintained their friendship....even though Kenny is magically dating Sylvie who is Brooke's best friend and they all know each other and Sylvie is with him at gang HQ.

Then to Jett's family and the sum of all evil with this stories ending.jeez. Talk about loopy and so unbelievable. Again it's really not fitting in with the first two books. Just it's own new little story. It's just too loopy and convenient. All wrapped up in a I will always love package ending.

**“I want to be on your side when you experience things for the first time. I want to be the first one in everything you do.”**

This series is one of my favorites. I have been in love with this one from start to finish.

**“All my life I’ve never felt this close anybody,” he whispered. “If shit didn’t happen, I’d never know how to treasure my blessings.” His thumb trailed the contours of my lip slowly. “You’re my blessing, Brooke. I don’t want to keep dreaming or take risks because, for the first time, the reality is better than anything I could ever envision.”**

I have to say I think that the final book of the series might actually be the one that actually sealed the deal, catapulted into “Not enough kisses rating” !

Here is why... **Jett Mayfield**. Do not get me wrong I love Brooke, adore her actually, I just loved that with this book we got to see into Jett’s past, the things that make him tick.

This series has it all. **HOT** as sin page scorching, sizzling power cords of your e-readers sex! It has sweet and tender, the kind that make you want to have white picket fences and HEA. It has intrigue and mystery, deceit and lies. Did I mention Betrayal- **OMG** people! It leaves nothing back and takes prisoners, you are held captive page after page.

**“Brooke, I’m not just into you...I’m in this for the long haul. I dated others, but I always knew they weren’t the real deal. That whatever attracted me to them would pass. With you, it’s different.”**

We have seen the growth of Brooke and Jett from beginning to end and we are so much better for it, I think that JC Reed has taken two beautifully broken humans and gave them the perfect person. Each other.

She could not have made a match better suited for another. They push buttons, and break rules. (*The client’s house- Just wait! Sexy and fun*) They are each other’s best and worst. (*Her stubborn attitude and his need to be in control*) The symmetry of the two together is a puzzle that has found the one piece that was missing. (*They work and it is perfection!*) Like I said I have and will always be held captive by their charms.

This book tests them, each other, the love they have, commitments. Can they truly be together and trust each other. Do they get to ever have any peace, ever? What secrets do they not know about and damn can they ever catch a break?

**“It’s called being in love, I guess. You simply treasure what you want to keep. If he doesn’t forgive you, he doesn’t feel the same way about you. You deserve someone who stands by you in every possible way. If he truly loves you, he’ll walk the extra mile just for you.”**

I am not going to give anything away on this one. My suggestion to each of you is: **read this series**. Take the time to fall in love with the mystery, the intrigue and get caught up in the heat. You will not be disappointed.

Jett is bad boy perfection, Brooke is one tough cookie with moxie for miles. This series is a must read from my perspective and I feel each of you should take the time.

I cannot and will not ever be happy that it is over, but damn I sure did enjoy the ride. Although I know she does have a novella coming out, thank goodness. I will get to spend a bit more time with them.

Now JC Reed I will tell you in my best Jett Mayfield southern charm voice... ***"Don't keep me waiting too long, woman."***

Having quite liked the first two of this series I was very disappointed in this book. It just had a completely odd feel to it and the story was pretty implausible. So much happened in so very little time and yet in the end loose ends were left unsorted.

The story lined seemed very rushed and poorly plotted held together with shock value and sexy romps but in a way that was repetitive and became annoying. Disbelief would have to be completely suspended to think that one doctor would be running a private clinic that could deal with a critically wounded chest gunshot wound let alone many other of the plot points of this novel.

Sorry, I did not like this and would not recommend it.

It's finally here! "Treasure Your Love" is the third installment of the Surrender Your Love series. In the first two books, we witness Jett and Brooke's relationship begin, under false pretenses, but evolve into a true love. Jett, a multi-millionaire real estate agent and his assistant Brooke begin a hot, world wind romance. As their bond strengthens, they realize that there are forces surrounding them that are masked in secrets, deceptions and betrayals. There are mysteries to be solved in order to set a path towards their safety and a future together.

The story line takes several twists and unimaginable turns, which, where totally unexpected. This book is action packed with plenty of angst, suspense and thrill rides. Several nefarious characters appear from both Jett's shady past, as well as Brooke's. These characters add an extra layer of mystery to the story, holding our couple hostage, and playing them as if they were puppets on strings. Things are not always what they seem, and when it comes down to the wire, Brooke and Jett must question everyone's loyalty. But be that as it may, their love will always be treasured and the sex will always be HOT.

Although the story had a sweet and quite romantic HEA (thank goodness no cliffhanger), I can definitely see room for a spinoff from other characters and sub-plots. J.C. Reed's story was an enjoyable good read.

This has to be the lamest ending to a trilogy!! :/

I was really looking forward to reading what more was in store for Jett and Brooke..

But instead I got confusing plot lines that just didn't make sense and confused the hell out of me, and a really crappy ending :/

Argghhhh I hate it when this happens :(

All Jett and Brooke seemed to do was fuck each other... that's it... I don't think they even sat down and had a decent conversation without it turning to sex (even though it was HOT, and for that I'm bumping it up to 2 stars)

oh and the house they kept repeatedly fucking in was some client's mansion... I kept thinking that Jett was gonna surprise Brooke with the house, and he was joking around.. but I guess he wasn't.. That's disgusting and disrespectful, fucking in someone else's house :/

\*\*\*\*SPOILER\*\*\*\*

At the end of book #2 we find out that Brooke's pregnant.. In this book, there was no emotional attachment to the baby whatsoever.. I wondered what's the point of her even being pregnant?! I mean seriously, there was hardly any talk of the baby or looking forward to it..

It was non-stop drama... people dying, people coming back to life, fast & furious type racing, gang related shit going on and lots of new characters being introduced that I just lost interest

by the end of the book, the couple were holidaying in some beach.. (Brooke was still pregnant,) and I was left with a whole load of questions and confusion..

\*sigh\* this was a let down sadly :(

Thank you to the author for providing me with an ARC in exchange for an honest review.

I have been on this journey with these characters since the beginning and I just had to read the conclusion! The entire ride has been fascinating and I am sad to see it end.

Just like it's predecessors, Treasure Your Love does not disappoint. It is sexy, romantic, and I could not put it down! It starts right where Conquer Your Love left off. Brooke is now working for Jett in a high position than before. Jett's past come back to haunt him. So does Brooke's. Their love and trust is put to the ultimate test in this book. There are secrets and scandals. Just when you think the author could not throw anything else in the mix, she does! Just when you think you know what's going on, you don't! That's what I enjoy most of this author, she puts suspense and mystery in her story and makes it sexy, yet intriguing! I can't say what happens, without giving anything away, but we really find out who's behind everything and how much danger Jett and Brooke really were in.

I loved that in this book we see a more romantic and playful side of Jett. He made me swoon in this one. A lot. In the first two books, there are a lot of insecurities between Jett and Brooke, but in this one we really get to see them in love. We get to see them develop as individuals and as a couple. If you haven't read this series before, definitely add it to your list. It is sexy, suspenseful, and romantic. There is not a moment you will want to put it down.

*Tinha de ser consistente e classificar com três estrelas (e meia) este último livro da trilogia "Surrender Your Love" apesar de ter gostado muito mais deste do que dos anteriores. Embora nos dois primeiros tenhamos tido acesso à maior parte da "trama" que envolve tanto Jett como Brooke e tenha sido o início da relação escaldante entre os dois. Achei Brooke, neste último "capítulo", mais madura e mais segura do que realmente quer, embora a expressão "baixar as cuequinhas" seja recorrente (um dos aspectos que me fez não dar mais estrelas). Acho que este terceiro livro já tem um nível de amadurecimento que não permite a utilização de expressões assim tão "juvenis". Estamos a falar de uma mulher madura e um homem que sabe bem o que quer da vida e que assim é reconhecido.*

#### **2 Stars Unfortunately**

This book literally had so much potential! I was so excited and then wahhhhhhhh?? SO let down it was unbelievable.

1. I was so excited for the baby at the end of the send on book like omg awww she got him the little pink booties and they were both so happy and then the third book came and it was like baby? what baby? This kid is only mentioned maybe like 7 times the whole book. When she's hungry and even then she plays it off at Jett wanting to much sex. There was **NO EMOTIONAL ATTACHMENT** to this baby I felt bad. Jett even said he would've gotten over if the baby had died but not Brooke? Wait What and you want to be a father. Not to mention Brooke does whatever the hell she wants. "OMG he's stringing at me, let me sip this whiskey

so he stops even though I'm pregnant" WAIT WHAT? Not to mention this kid is a super human, its literally been beaten up, drugged, in crazy car races, drinking whiskey, almost raped and killed, been the victim of rough sex and all though out this its okay. If the author wanted to put a baby in the novel she needed to follow through.

2. The rest of the story was just a cluster of other stories to be honest I had no clue what was going on . Jett goes back to his gang, Alessandors been dead forever, wait what happens to the estate? I don't know we never learn. What happened with the lawyer who was working with everyone? Oh I don't know we never learn. Danny comes back? for maybe 10 pages hits Brooke and then is gone, what Happened to him? Not sure we just vanishes. Pepole dying and then coming back to life. What was the obsession with sleeping in that chicks house in the hamptons and playing in her pool I hare no clue. What about Brians GF not like Brooke? not sure no one cares anymore. Sylvie just randomly hangs out in gangs with Kenny now? Oh okay.

LIKE DID I READ A DIFFERENT BOOK? I must've than everyone else because I don't know.

I had such high hopes and this was nothing like the first two books, absolutely nothing. It could've been a stand aline honestly she just had to change their names and I never would've known it was part of a series let alone the ending of a trilogy.

I hate giving bad reviews but this was necessary because i paid \$4.99 for this eBook which is crazy overpriced

Holy smokes Jett!!!

This was a FAV in this series for me! For sure...

I was honestly sad that I wasn't offered an ARC for this book since I got ARC's for the first two, guess J.C.Reed doesn't like my reviews too much. Hahhaha!!

Well... Mrs Reed, I still like your books A LOT! So I will still read them :)

On to the story...

**"All beginnings are scary, like all endings are sad, but that's the journey and everything in between is worth experiencing."**

Now if you haven't read book 1 and 2, I don't suggest you read this as this story continues from the false pretenses of a relationship in book 1 to the whirlwind drama in Italy...

**"LIFE HAS A way of throwing everything around. Sometimes I couldn't stop the feeling that we were all trapped inside a cup called life, and like dice shaken around and thrown out. Ready to be tested and played. Ready to risk and face the unthinkable."**

**Brooke has to make some tough choices...**

Now in book 3 we finally get answers to all these questions we've had since book 1.

The story hits you by surprise and many unexpected things happen including some truth into Jett's past which makes him even more irresistible!!!

**"Forget perfection—he was a god, sent into the world to mentally torture women with his impossibly sexy body."**

Yes I'd lick him too!

It is awesome! Jett and Brooke are sooooo HOTT together!!!

**"You're not just any girl for me. You're the only one that matters, and I have no intention to ever let you go because every moment with you is a little more than amazing."**

READ this series (if you haven't started already)

## Kim says

*Love is a wild ride. Without the passion, we wouldn't surrender and conquer what we never thought could be ours. True love stories don't have happy endings, because for those who treasure it, true love never ends.*

Jett and Brooke are back! They are together. They have new positive things on their horizon. They are in love, in lust, and moving forward. Some of it is fun and games. Some of it has rules. And some of it is complicated...really complicated...

*"All beginnings are scary, like all endings are sad, but that's the journey and everything in between is worth experiencing."*

As the secrets and mysteries that have been building this entire series become more apparent, the suspense and danger escalates. There is tragedy, guilt, shocking twists and turns, and behind the scenes connections. It is a matter of life and death and no one is safe. There are various factions in the mix, making it difficult to know who to trust and who to fear the most.

But all throughout, I loved seeing Jett's commitment to Brooke. He is protective, strong, dominant, and possessive. He pushes her to be bolder and take chances in some ways, but tries to pull her back to keep her safe in others. There are challenging times. But ultimately he is willing to fight for her, even if he has to fight her to do it. And their chemistry is still oh-so-scorching-hot! He is a hot, tatted, resourceful alpha with a mission and he knows he has something to lose. And he does not plan on losing.

*"All my life I've never felt this close to anybody...if shit didn't happen, I'd never know how to treasure my blessings...You're my blessing, Brooke. I don't want to keep dreaming or take risks because for the first time, reality is better than anything I could ever envision."*

Brooke has her insecurities and intermittent doubts, but she is also strong and determined. She pushes Jett right back and would not be a door mat. And with the situations they find themselves in, she needs all the spunk and strength she can conjure up. And she loves hard and also strives to protect those near and dear to her.

*I surrendered to him and he conquered me--body and soul.*

They have such a witty rapport, steamy chemistry, and deep connection. But trust is something they are learning along the way. They face serious challenges, tests, life threatening situations, betrayal, and guilt. This book has so many moments where I was literally saying "Holy Crap!" and everything shifted again. It was tense, surprising, suspenseful, and exciting. It was also sweet, sexy, racy, and romantic.

*"I want you to know that if you fall, I'll fall. You belong with me, and everything we do, we're doing together."~Jett*

*"And if we fall, I'd rather we do it together. No exceptions, no regrets, and that's a whole lot better than*

*taking a chance and having to live without you."~Brooke*

So this installment had everything I have come to love about J.C. Reed's stories with Jett and Brooke. I also enjoyed getting to spend more time with Sylvie and Kenny. And there are some intriguing new characters as well that all play a part in the complicated framework of the story. Although this is officially the end of the Surrender Your Love trilogy, I am looking forward to seeing more of some of these characters in the future in No Exceptions, a special edition short novel connection.

Thanks to J. C. Reed for providing me an arc in exchange for an honest review. Will be posted at : Reviews by Tammy and Kim.

### **Kelli C ~ Jack Sawyer's Heart says**

Ok so I am a whole bit disappointed here...if a book can "jump the shark" as in TV lingo, then boy did this ever happen here! I never DNF a book, but I must say I was close.

Treasure Your Love has left me confused, a bit sore from whiplash and a whole bit unsatisfied. I really liked the first two books in this series with the mysterious meeting of Brooke and Jett...I loved their chemistry, his dominance and the mysterious Italian estate that was intimately connected to both of them. I was looking forward to seeing how this played out and was hoping a wild ride.

Instead I read something like this: Happy couple working together, expecting child, and still sizzling with hot chemistry...escapes to famous people's house in the Hamptons, weird atmosphere of sex in a place we shouldn't be, followed by unexpected death, then return from dead, kidnappings and forced breakups, lots of violence against women....oops here comes the return of old felons from past, dirty cellars with possible sex slave selling, embezzlement and wait....just when you think you are not reading the same story...enter old "gang" members who are now gun toting vigilantes, dangerous car racing for respect, and yes all kinds of damn unanswered questions about some black book with important names.

If your head is not spinning yet then wait, you are at the late 80% mark and everything is just tidied up/ended and happy couple is in Hawaii!

SHUT THE FRONT DOOR! What in the hell just happened. Who are the bad guys? who is related to who? what happened to the gang? is Jett still "in" or is he free" What's up with Sylvie and did you know Kenny is a gang member and he and Jett are old friends? I didn't! Why does the happy couple keep going to some rich ladies house in the Hamptons for sex? WTF? Where did Danny, the guy who got Brooke's sister hooked on drugs and killed, go? How is he even apart of this? Too many stories in one book and not one related back to the Estate in Italy that started this whole mystery! And finally my main complaint...how in the hell did it just end? I'm so unsettled. I just didn't get it.
