Wolf Trap Linda Thomas-Sundstrom

When a full moon awakens the beast within Dr. Parker Madison, he is hell-bent on finding explanations for his new Otherworld form and his insatiable lust. On the prowl one night, he discovers a woman in trouble—one who stirs his darker desires and may hold the answers to all that he has searched for.

After a sexy stranger rescues her from a brutal attack, Chloe Tyler can't stop dreaming about him. Especially when something deep inside his electric-blue eyes calls to her, and his touch fills her with the most intense desire she's ever known. But her nightmares are all too real. A rogue werewolf's bite has changed her life forever, and the one who turned her hunts her still. Unless her dream man comes to her rescue yet again, the danger remains....

Didn't like it. Didn't finish it. This is one story that at this moment, didn't grap my attention. I'll keep it on my shelves, just in case I decide to re-read it at some point. As usually I go back and love the book.

Could be that I haven't read the books which came before in the series.

Stacie says

1/2-1 star

Did not enjoy this book at all. There was too much internal dialogue between the two main characters and not enough interaction between any characters. It seemed like a lot of ping pong thoughts. Not much to get and keep the readers attention. Had to make myself finish, but was not happy with the story at all. It got a little better about the last chapter.
