## Year One: Chapter 1: Chronicles of The One, Book 1 Nora Roberts

*A stunning new novel from the #1 New York Times bestselling author—an epic of hope and horror, chaos and magic, and a journey that will unite a desperate group of people to fight the battle of their lives...*

*It began on New Year's Eve.*

*The sickness came on suddenly, and spread quickly. The fear spread even faster. Within weeks, everything people counted on began to fail them. The electrical grid sputtered; law and government collapsed—and more than half of the world's population was decimated.*

*Where there had been order, there was now chaos. And as the power of science and technology receded, magic rose up in its place. Some of it is good, like the witchcraft worked by Lana Bingham, practicing in the loft apartment she shares with her lover, Max. Some of it is unimaginably evil, and it can lurk anywhere, around a corner, in fetid tunnels beneath the river—or in the ones you know and love the most.*

*As word spreads that neither the immune nor the gifted are safe from the authorities who patrol the ravaged streets, and with nothing left to count on but each other, Lana and Max make their way out of a wrecked New York City. At the same time, other travelers are heading west too, into a new frontier. Chuck, a tech genius trying to hack his way through a world gone offline. Arlys, a journalist who has lost her audience but uses pen and paper to record the truth. Fred, her young colleague, possessed of burgeoning abilities and an optimism that seems out of place in this bleak landscape. And Rachel and Jonah, a resourceful doctor and a paramedic who fend off despair with their determination to keep a young mother and three infants in their care alive.*

*In a world of survivors where every stranger encountered could be either a savage or a savior, none of them knows exactly where they are heading, or why. But a purpose awaits them that will shape their lives and the lives of all those who remain.*

*The end has come. The beginning comes next.*

## **Lynn says**

Year one hooked me from the first page and held my interest until the last. Now the problem is waiting for book 2 of the series!

---

## **Jan Parker says**

Nora Roberts just keeps on keepin on. I love all her books. This one seems different from her others, but excellent. Can't wait for the next one in the year one series

## **Stephanie Wilson says**

**1**

I can't wait to finish the book

I love to read Nora Roberts books. She is a fantastic writer that keeps me wanting to finish.

---

## **Mary says**

### **First chapter**

Sample of year one. First chapter didn't draw me into buying it at the price they want maybe if it goes on sale. As an avid fan of this genre there will have to be something spectacular. I've read many books by this author, but not sure about this one.

## **Anne F Hunter says**

### **This was a good read**

Suspenseful. Kept you on the edge of your seat. You will not regret reading this book by Nora Roberts. Awesome.

---

## **Alecia says**

It seems like an interesting book but it is just a teaser. I thought that it was a complete book. Disappointed.

### **Myla Aguilar says**

#### **A great read**

Nora Roberts has done it again. She sent me chapter one, so after I read it, I had to finish this amazing book, so I got the hardcover. I read this entire book in one sitting. It is that good and I cannot wait until the next book comes out. I highly recommend Year One. Very cleverly written, very well written characters and a story that keeps you wanting to read more.

### **Liana says**

as a book, it looks promising and exciting, however I dislike samplers that masquerade as "free books" on Amazon. Completely annoying.

---

### **Denis La Force says**

**As expected. The best of writing. Just not my cup of tea.**

Horror on a grand scale.

This is a horror story on a grand scale. The detective stories I have been glad to read are not this.

---

### **E.M. Murren says**

When you see the name "Nora Roberts," you usually think romance. While there are romantic relationships within this work, this is no romance genre novel. It is more like a Celtic Armageddon staring with a plague that eliminates 2/3 of the party's population. What remains are people with emerging characteristics out of mythology and humans that for some reason were immune to this illness turned pandemic. Good and evil emerge from all sides.

This work is filled with allegories aplenty. One doesn't have to look far in today's society to find the inspiration for much of this work. The addition of the mythic creatures adds a Lord of the Rings quality at the same time using them to show how self defeating prejudice and segregation is to a society... Even what is left of one after so much loss. It is a trilogy, so it will be interesting to see where she takes the story from here.

### **Erin Mcmillen says**

A bit cliché' with all the apocalypse stories out there but good enough to finish. I can't say it captured me enough to read the next book.

---

### **Olga Haxton says**

**Very accurate historically. I can envision the farm, smell the food, vividly puncture the faces of the people. Excellent book.**

Recommend it to all. Waiting for the next books to come. Hopefully within this coming year please. Can't wait for them!
