A Grave Mistake Leighann Dobbs

When a mutilated body shows up in their seaside town of Noquitt Maine, the Blackmoore sisters realize that an ancient relic they've been trying to locate has been hidden under their noses the whole time.

... Too bad they aren't the only ones that know it's there.

Stalked by a mysterious candy-chewing killer and threatened by paranormals, the girls must race against time to interpret a decades old clue left in an overgrown graveyard before the relic falls into the hands of their evil enemy Dr. Mortimer Bly.

The search turns personal and the girls find their paranormal skills tested on every level while they try desperately to find the relic, a vessel with mystical properties, before it falls into the wrong hands.

This was a fun read. I enjoyed it and love the Blackmoore sisters. My drawback with this book is the repetition, the same bad guys and comments of one characters not being quite with it. I'm hoping Bly isn't going to be the base in every story. There is a hint of them going somewhere else for the next book so I hope that means we are moving on. This is just a mild irritation with me, I do love the characters and the whole idea of the sisters having a special talent. The mystery was good and I hope that we see more of Mateo in upcoming books. I definitely will continue on with this series.

I definitely so enjoyed the seven books in the Blackmore sisters cozy mysteries series. I am hoping there will be a book 8 as I got to love the sisters. It was so much fun watching Belladonna the cat. Oh she was so funny. Now i am reading the mystic notch series. Reading Ghostly Paws. This is the first book of five. Yay. Then I will tackle the Lexy Baker series. Thank you Leighann for such beautiful writing.

This series of books us definitely getting better, as the Blackmoore sisters learn to control their unique paranormal gifts.

My biggest problem with them, is the timelines don't match. Jolene aged about 4 years a few books back, now she's 6 months older, but Celeste and Cal, who only just got together, have been dating for 2 years. Their mum was missing for 7 years, in every book. Even as they aged or time passed.

If this series continues past book 7, which I'm about to read, I hope that gets fixed as it's really bugging me.

Kindle Unlimited, Leighann Dobbs writes under Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted styles.

The Notch Cozy Mystery Series {5 out as of this writing} and the Blackbore Sisters Cozy Mysteries are not on Kindle Unlimited which as said before about 1 & 7 {the only ones given free, sure would not have bought them} and ditto for Ghostly Paws which is 1 of 5 at this time but did get others free over time.

While some of her other books are Kindle Unlimited none of the Blackmoore Sisters Cozy Mysteries are which doesn't matter to me as read #1 and #7 and was way underwhelmed. Leighann Dobbs writes under

Leighann Dobbs, Annie Dobbs and (soon) L.A. Dobbs but her real name {not sure if she writes under that one} is Lee Dobbins, Hazel Martin Mysteries only one I found for this type with her, she has not made sure that terms used match the British terms as well as in other areas for that period of architecture and assorted styles. By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Yet another goodreads won't hide it don't want to see the badly proofed badly plotted poor excuse for bad soft core porn crap. The 'historical' ones are like that and so are the some of the non cozy mysteries and some of the sorta but not really mysteries because can't write, etc ad nauseum. The most any of them got was 2 changed to 1 for crap cozy, some get a 1 which means basically crappy soft porn 'romance' etc.

3 in Silver Hollow Paranormal Cozy Mystery Series so far which are on kindle unlimited, 3 in the Moosamuck Island Mysteries , 5 in the Mystic Notch Cozy Mysteries so far {not ku}, Blackmore Sisters has 7 {not ku}, Hazel Martin Mysteries only has 1 so far, Lexy Baker Cozy Mystery series 12 so far is on ku. Others including Scandals and Spies Book series so far 4 which are basically romance soft core porn dreck but hey you can get them on ku. Witches of Hawthorne Grove 1 so far, Cevonne Bride of Oklahoma, Unexpected Series 4 so far ku.

The Lexy Baker Cozy Mystery Series By the way, bakeries and other food service places don't run like that. Badly needs to proof things, it's messing up the flow of the book, which my computer reads to me, so that's bad. As for these, it's not that the situations couldn't happen, it's in the telling of the story, with unlikable unbelievable characters and situations, again.

Copy/paste fill in the blank seems to be pretty much what she is doing in her books, which wouldn't be half as bad if the plots and ploys and actions were believable at all. Just change the name for a book and maybe change the series list under, and you are right back to copy paste same old same old.

NOTE: I specifically mentioned certain of the 'books'/series were achieving soft core crap status, and specifically said which ones those were, reference AGAIN the above quoted review, and did not specifically mention the blackmore ones as that, BUT and had not mentioned that had went back and rated all no talent no plot cardboard charactered 'stories' listed above as 1 as well. I will change the original review to reflect that, but it is still a 1, and MY review of the crap stands.

Another fun mystery featuring some bad guys we have seen before. The girls are back. The bad guys announce themselves with a dead body in town clutching a map a lot like the one their aunt sent them. This gets the girls racing against the bad guys and following clues.

I was a little disappointed in this book. Not that the story wasn't good it was. It just felt like I'd read it before. I want to know more about Mateo. I am thrilled that the ending hints the girls will be going to a new location for their next adventure.

Anastaciya says

Oh my god, these ladies!.. just let the cat do everything! It's been 5 books and almost two years in the story, and they are still being dumb about some things... sigh

Krystyna says

Candy wrappers are they the new threat?

Terrific! A body washed up on the beach, could it have one of the answers that the girls are seeking? The girls and their ancestors have to unite against a new threat to their lives. Are the candy wrappers a clue to who is stalking them? A great read and a terrific plot. Live the story with the sisters.

Kathleen says

The stories are creative and fun. The writing was a little bit stiff but I enjoyed the read!

Cathy Inboden says

This is a very good series. You will want to read it and love it like me.

Thomas says

The Blackmoore sisters are once again in a race for another relic located in their hometown. This time no one knows exactly what it is, but obscure clues have been left on a gravestone from centuries before.

They come up against old foe's in addition to a new one that has unusual powers that all of the girl strengths combined may not be able to beat.

Another fun and enjoyable story that moves quickly from moment to the next. I think this story is kind of taking on a life of its own, and is starting to lean towards more suspense than that of a cozy. There is still no language or risque scenes to make for an uncomfortable read.

Sharon Rockteschel says

Another good read.

So far I have not been disappointed. Love how the books flow to the next. Will be sad when I have the last one read.

Ashley says

Another new beginning

This was another great one in this series. I really like the development of some of the characters and the relationship between another character. I am extremely pleased to read in the author's note at the end of this book that she has more books for this series planned already. I can't wait, so happy this wasn't the last one, they just keep getting better somehow.

Brandy says

One more to finish the series. I have enjoyed the books, nice story and a good escape.

Sandy Bartles says

A Ghostly Grave

I absolutely love that Leighann Dobbs brought the girls' mother back home in the previous book as she made a wonderful addition to this story. Morgan, Fiona, Celeste and Jolene once again use their mystical powers as they search a graveyard for a mysterious relic, hoping to find it before the bad guys do.

Kathleen says

What does Erza Finch have that everyone wants?

Fast paced read with intrigue, suspense, and compassion. The sisters are developing their skills, learning about working together and with others. Not everyone is a bad guy in this book.

Once the item they are looking for is found, a heartwarming Thanksgiving scene takes place. This dinner is interrupted by Dorian to send them on their next mission. Stay tuned for book 7.
