Annihilate Me: Omnibus Christina Ross

The Annihilate Me: Omnibus edition is a very limited edition that will be published only briefly. It includes Vols. 1-4 at a discounted price!

Description: The business of love is dangerous.

For Jennifer Kent, a recent MBA graduate who has been searching for work in Manhattan for four long months, time and money are running out. If she doesn't find work soon, she'll need to return to her native Maine, where the job situation is even more bleak.

And where her abusive parents lie in wait.

But when an unorthodox arrangement is proposed, Jennifer decides to take it. She agrees to be the "girlfriend" of Alexander Wenn, the reluctant, billionaire CEO of Wenn Enterprises, who is so devastatingly good looking, he needs a beautiful woman like Jennifer on his arm to "keep the wolves at bay."

In this case, the wolves are other women, all of whom vie for his attention so aggressively, they keep him from focusing on business at the exclusive events he must attend. It's there that deals are cut. What they want is his money and his power. Damaged by a past event, the only thing Alex wants to do is focus on work. And to forget the past.

But can Jennifer deny their white-hot chemistry? As she's swept into this glittering otherworld of society and big business, she finds herself struggling to keep from falling for Alex, an almost impossible feat she nevertheless must meet.

Armed with her MBA, Jennifer Kent knows about business. But what she doesn't know is what could destroy her--the business of protecting her own heart. And maybe her own life when it's put on the line time and again.

Over 200,000 words. Each volume was a #1 best-seller.

Janine says

This was a roller coaster - just when things looked like they were going to head to HEA, another complication arose. Fairly well edited.

Jennifer moved to New York to leave behind a painful past and embrace a new future. Unfortunately, finding a new job has not been as easy as anticipated. Leaving yet another failed interview, Jennifer meets a man on an elevator. He seems nice and listens to her troubles. As she leaves, she looks back, bumping into a man and losing her resumes in the process. The nice man, Alex, comes to help her rescue her resumes. She goes home and makes a new plan for her future. The next day, the woman she interviewed with calls and asks her come in and interview for a different job. Turns out, she is offered the opportunity to be a pretend girlfriend to help Alex fend off unwanted advances and concentrate on business. Jennifer accepts and begins her new job. The first outing ends in disaster and Jennifer walks away, returning to Plan B. Alex refuses to give up, and sets out to win Jennifer over as a real girlfriend. Will Jennifer forgive Alex? And if she does, what adventures and trouble await them? Will they survive to a HEA?

Overall, I enjoyed this read. It moved along well, and was filled with likable characters. Great for the beach or when you have a full day to kick back and read. Enjoy.

Mindy Lou's Book Review says

Audible Re-read: I loved this just as much as the first time and the narrator was really good. I have no complaints.

Great Romantic Suspense!

This was a great read, the suspense was good and I liked the main characters. I spent the whole time trying to figure who was the threat and it took right to the very end before I figured it out. I liked that it wasn't obvious. I have to say, my favorite character was Ms Blackwell. She almost stole the show from Alex and Jennifer. There was also enough about Lisa and Tank that has me wanting to dive right into their story. Great writing!

Sami Alford says

DNF: Honestly if I read another romance where the guy is 35+ and meets the 23-25 yr old girl who is wise beyond her years I will puke. As a 43 yr old woman it's irritating. I am expected to believe that just because she has her MBA she's a business genius? And he hires her as a consultant making \$500k a year? Give me a freaking break. This story was boring and the characters were boring. They literally mention that she's from Maine 1 billion times and evidently she has the best ass on the planet. She drinks dirty martini's and reads the business section of the newspaper all day which is why she's so business savvy. She's also the most attractive woman in Manhattan but she's so humble and doesn't realize it. Give me flawed characters with a sense of humor or something besides too perfect people.

DMC says

Overall this book was ok. I was curious who was plotting against Jennifer and Alex. However the conclusion was anticlimactic. I thought the main characters relationship seemed so formal and not very personable. Also, it really bothered me that Jennifer was supposed to be this news junkie but somehow knew nothing about the Wenn conglomerate. I know the author insinuates that the reason Jennifer is not hired for a job before she meets Alex is because of her beauty and that she is intimidating but it's seems incredibly unrealistic that she would go from not being able to find a job to consulting a billionaire and coming up with ideas no one else had.

I kept waiting for the book to have a plot twist or some heart jerking moment but it never happened. Maybe I'm nit picking...I could never write anything at all! Just my opinion.

mary therese laughlin says

Sappy and predictable, truly negative stars rewarded

The first two chapters were witty and I was prepared to curl up and read for the day. Boy was I disappointed! Jennifer becomes a simpering idiot with temporary flashes of intellect designed to trick the reader into believing she is not the vaporish air head that she is. She becomes increasingly like a paper cut on your finger, a stone in your shoe, a toothache waiting to become an abscess. Alex is nothing but a poor man's Christian Grey. The repetition of phrases, descriptions and adjectives contributes to the boredom and coma inducing tale. I am so angry I bought this as part of the set I guess it was cheap for a reason. You could not pay me to read the sequels. Those great reviews that were posted for suckers like me must have been bought. The sex scenes were clearly designed from the author's vicarious experiences from racy vacuous novels and a clinical dictionary. The reader is the only one annihilated here!

LS Kralicek says

Completely unexpected read

I found this book and was completely drawn into the story. Jennifer and Alex have a story that leaves you wanting more even at the end. this book leaves you in suspense and on the edge of your seat. This story keeps you reading and not wanting to stop until the end.

Maggie says

It alienated me

Where do I even start. The first book had a good beginning with likeable characters, then it went downhill from there. From the moment she attends her first party it went on repeat. Designer dresses, portentous

people, and the main character turned into the very people she fought against.

A size 0 is not perfect, reality check. By the end of this book I simply didn't care if they died or not because it was like a stuck record.

It was however well written otherwise and heavily detailed but far too long, books one and four would have sufficed. It would have been better. Books two and three are just waffle about designer clothes, eating salad and nothing. One character seemed hellbent on promoting starving oneself by eating nothing but salad and in order to be healthy or perfect in her eyes is to be a size 0. Totally offensive. At least the main character ate a burger.

The storyline was simple and easy to follow.

Really disappointed considering the money I paid. The book didn't live up to the hype.

Michelle says

I really enjoyed this. Rarely is a 600 page book a one-day read for me, but this was. I didn't want to put it down. It was a little over descriptive regarding fashion for me, and surprisingly under descriptive regarding intimacy, but there is so much fun story I overlooked it.

My favorite character might be the the wholly competent Mrs. Blackwell, who starts off as the mean-spirited HR lady. I sense a kindred spirit.

Can't believe I read these four books for free. Thanks Amazon prime!

Samantha Hollinger says

Amazing story and characters!

I bought this box set not knowing what I would be reading and I am so glad that I did. This is not your typical romance book. A great story line with feisty and sweet characters. We get to see them face life struggles and triumphs together and for each other. I really enjoy the suspense to the story and the mystery that had to be solved along the way. A twist ending that I didn't see coming.

Jamie Roberts says

This story was just OKAY! Initially, I was drawn into the setting and liked where everything was going, but the dialogue suddenly seemed very unrealistic after around 15% in. There was too much dialogue at times and then not enough in spots that should have had more. It became incredibly hard for me to stay focused, so I skimmed the last half to the end.

One example of dialogue in one particular scene that bothered me was when Mr. Wenn dropped Jennifer off for the first time outside of her apartment. He learns that she lives on the 4th floor in her building and his first reaction to her was to say,

"That's got to be hot"

Who says that as a first reaction??? How did he know from inside his limo that there wasn't any air conditioning inside the building? It seemed to me that he was upset she is living in a bad area of town by his facial reactions that Jennifer picked up on as they pulled near her residence. I feel that Mr. Wenn should have said something more about the area she resides in general, not something about the heating/cooling of her unit without previous knowledge of her space. He has never set foot inside her apartment.

This story had so much potential but fell flat in my opinion. Who knows, maybe it's just me.

MBL says

Fun Read

These books kept me entertained and I enjoyed reading them, but it was predictable and seemed hastily written. There were a lot of grammatical errors which at times distracted from the story, or scenes didn't quite mesh together. However, I had fun reading about Jennifer and Alex and it was a super easy read. I was looking for something light with a simple plot, and this delivered. I would recommend if you want a cute love story where you can enjoy the characters and a plot that is easy to follow.

WBS-S says

This was a somewhat "tame" read for me. My sister recommended it, knowing this and she was right! This series was worth reading. It started off a little slow but truly developed into a very beautiful love story...and who's not a sucker for ❤️ love. I will read the next series! I will also continue to read Ms. Ross's work because I think she is very clever and entertaining. Her characters are creative and fully developed in the story. This one is worth the read...even for those of you who like BDSM and erotica...a little departure for a beautiful story and something different and fresh is always worth the read...

Amy Barber says

It was just ok. I liked the characters but I had big issues with a lot of the dialogue. Every situation was over-explained and it was repetitive. The characters, every single one of them is so self aware they are able to psychoanalyze themselves in an instant and explain why they are doing the absolutely ridiculous thing that they are. It just made no sense. The story line itself started out ok but then it just got crazy and unbelievable. I know it's fiction, but I don't read paranormal for a reason, I like to believe my stories. So when the

characters were once again over-explaining what was going on they wouldn't even mention the most logical and simple of reasons. Even with all of that, I really wanted to hear Tank's story so I moved on to Unleash Me.

Sandy Nally says

UNDECIDED!!

It seems like this story line just dragged on and on. It just couldn't keep my interest. I'm sorry, and if I wasn't so bored with it I would continue on with the rest of them. But I just don't think I want to. I wax really looking forward to reading this series, but am very dissapointed!!

Tina Clark says

Great sexy story. All in one. Love to read more
