**Big Three** Demi Donovan

Three men who I could never have.

Three men who want nothing but me.

Three men who I shouldn't even think about.

But I can't stop.

I want them. I need them. And they want me.

There's nothing nice about this. There's nothing fair about this.

But I need to be with them. And they need to make me theirs.

### **Mandy Marant says**

I really enjoyed The Big Three, It was well written and the sex scenes were smoking hot. Lily meets Troy and Callum the twins at a baseball game and feels an attraction to both of them, than she meets Austin at the library, she has an attraction to him as well. Lily is a hard working lawyer, who just been put on a case. That's when she comes across the twins and their step brother. Not knowing they were related to each other and to her case, it throw her for a curve ball. It was an interesting story to watch them go after Lily. Overall it was a well written MFMM book. Recieved an ARC for an honest review.

I am volunteering to leave a review for an ARC of this book. Attorney by day, what by night? Lily bumps into notorious twins at a baseball game, and these twins are captivated by her. Normally, they engage in one

night stands, will the same be true with Lily? What about big brother Austin? Will Callum and Troy need to compete with Austin for Lily's attention? This was one hot book! Phew. Pick this book up if you want to read about a situation that truly boosts Lily's lost confidence!

All I can say is WOW! First book I read by Demi Donovan and OMG it was off the charts hot!! Besides that, the book had an actual storyline, not just hot sex and blow your mind steaminess. I read the story straight through and enjoyed it immensely. Lily was a lawyer who kept to herself mostly after being dumped by her fiance and hurt terribly. Her best friend and assistant Christine kept trying to get her to live a little and have some fun. She got Lily to attend a baseball game and little did she know her entire life was about to change. She met Callum and Troy, two ex-NFL stars and now sports broadcasters. Then she meets their step-brother Austin at the library while both were researching divorce legal issues. She is handed a higher profile case at work which is their step-mothers divorce with their Dad and then runs into all three of them at the same time. They all want her and her mind can't take in the fact they actually want her. She has to go to Hawaii for the case and try to get their Dad to sign the papers and finalize things before he marries someone else there. Sparks fly and holy hotness the adventures no one ever expected begin. Will they be able to handle all this craziness together? Grab this book and start reading!! I voluntarily read an ARC of this book.

I received this book with the understanding that I could leave a voluntary and honest review.

In this book we meet Callum, Troy, and Austin Stephenson as well as Lily Morris. Lily is in a office that is going through cutbacks and she is sure she is the next on the chopping block. Instead of getting fired though she is asked by her boss to assist on a divorce case with Milan Stephenson as their client. Oh ya Lily is a lawyer. So when her best friend suggests that they go out for drinks that night though she is not sure she goes. How did she know in the following 48 hours she would not only meet her clients step-sons but she would find herself wondering what it is about them that makes her heart race? Can she save the case and get the guys or will it all blow up before it all begins?

Austin is just out of a bad marriage and his step-brothers are notorious players. So when they all meet the same girl and want more from her at first they think it is the usual. They compete to see whom she will choose. They soon realize Lily is different and if they want this woman they are going to have to put away their games and step up to the plate for real. They wonder can they all have what they want or will the past get in the way and ruin something amazing?

This is a great book about three men who all fall for the same woman. There are some twists and turns in this book that will have you hanging on to see what will come next. I want to tell you all about them but don't want to ruin it for any other readers. I will say this is a book that once you start you can't put down. I would highly recommend it to anyone and everyone.

Big Three  
Demi Donovan

Lawyers, playboy twins, and a man who heads his own business. And three men who have one mission on the brain. Catch that woman.

Lily is a lawyer in a high profile office. When her boss starts to fire random people she thinks she is next in line on the chopping block. Thankfully she's safe but for how long. She now has a high B-list client. That her boss wants the job done yesterday and to the clients specifications now. It involved finding an exclusive ex-husband whose to get married again soon. And if she don't get it done. She knows whose neck is next on the chopping block. Only her weekend seems to get better. She's runs into the hottest guys ever but they will definitely be her downfall if she sticks around especially with the twins. Who are known playbloys. Then meeting them all in the same room as she ends up their "sister's" lawyer and to hopefully wrap up the case. But what she doesn't know is the boys have a plan and it involves her....can she keep her head straight or will the boys get to turn her all upside down?

Fiscal Responsibility...

“Big Three” is one outrageously torrid good time! Well written with lickable... err um, I mean... likeable main characters it’s easy to become inflamed... ahem, I mean engaged with the story-line. So, if you are into fiscal responsibility (like I am) “Big Three” offers a HUGE... ahem, return on investment... after all, who doesn’t want a three for one discount?!

Disclaimer for the Disclaimer... the term “seriously harmed” is not intended to include: overheating, scorch marks, minor melting or inconsequential fire that can be put out with an extinguisher. Fire retardant gloves highly recommended while reading.

### **Delacey says**

4.5 stars. I enjoy menage reads and this one did not disappoint. I liked that the plot was developed, the male characters well developed and the story had lots of time outside of the bedroom, not mostly inside it. The only weakness to this book IMHO is the Lily was a little boring with out much personality - I was neither shown nor told WHY the brothers liked/loved her other than being uptight and vulnerable. Otherwise, this was a well developed romantic menage with just the right amount of heat. I look forward to reading more by Demi Donovan. \*I received an ARC of this book and this is my voluntary and honest review.

3.5. A good story overall. The sex scenes weren't drawn out. The storyline was plausible but was lacking depth.

### **Rebecca Johns says**

When Lily is surprised to be keeping her job when everybody else is getting fired, she gets handed a new case that could be the end of her. But before she even meets the client, she meets the boys. Not all at the same time of course, but they can't be forgotten either. Troy and Callum, the twins, literally bump into her at the baseball game, when beer is spilled on her clothes. Being ex-football players, they know how to grab the attention of ladies, but Lily really doesn't want to be at the game in the first place. The next day she runs into Austin, their stepbrother. What none of the brothers know is that Lily is their stepmom's new divorce attorney. After some interactions and complications, they all come to one conclusion. Their attraction and desire to Lily can't be ignored any longer. Milan, the client, may have something to say about their attraction though, and its not good. It will be the end of her career, but the start of something beautiful with three strapping brothers. I loved this book. I voluntarily read an Advanced Reader Copy of this book.

### **Zelda says**

This was a heart-warming story of three large alpha male step/(twin!) brothers who aggressively pursue an uptight lawyer named Lily. Lily is handling the men's father's divorce to Milan. She meets Austin, Callum and Troy prior to starting the case. As you can already tell, the courtship is going to be tremendously complicated! What I enjoyed about this story was that all four characters recognised from the outset that they needed to be together, and even though it was going to be difficult and poorly received from outsiders, that they would find a way to be together. While there were hot times in the book, they did not dominate the whole story. These men were devoted to making their woman happy, and did whatever it took to make that happen (yes, a cherry pie falls in this category!)

I received an arc of this book and have voluntarily reviewed it.

## **Wendy Livingstone says**

Callum and Troy are twins, and with their stepbrother Austin, we have three very sexy alphas. Lily is a lawyer and when she goes against her will to a baseball game, she ends up having beer spoilt all over her by Troy, and when she finds out who he is, she runs. When Lily is faced with the three brothers in a meeting, things do not go as she expects. No spoilers; this is an absolute must read, you will not be disappointed! This author has written an amazing storyline which is sweet, intense, steamy and intriguing. This story is well written and flows seamlessly. I was hooked throughout, and I highly recommend this authors work for all lovers of MFMM.

Truly amazing work Demi!!

Wow - what a story - three of the hottest alpha's around and they all want Lily. And to add a little spice to the plot, Lily ends up being their stepmother's divorce lawyer. She has a wounded heart and her friend makes her go to a baseball game to cheer her up. She meets the twins when one spills his beer on her. Then she meets the stepbrother the next day at the library. They finally agree to share her and there are so hot and sexy scenes. A sassy read with an HEA. Lily meets Callum & Troy at a baseball game after they spill beer on her. Their hot but trouble so she runs. Days later she meets Austin their stepbrothers not that she's aware of this at a library the chemistry she feels between them all is confusing.

Their paths cross again when she's hired by their fathers ex wife.

This is my first book by this author but definitely won't be my last.

I voluntarily reviewed an advanced reader copy of this book.
