## **Deadly Dreams** Sarah Dieng

Danielle Mason is a typical teenager. School, best friend...nightmares that reach out and touch her. She doesn't know why she has nightmares of darkness and death and she doesn't know why the green eyed boy in each one reaches out to her. Then the day comes that she realizes that the nightmares are somehow tied to her but she just doesn't understand how. Could these be scenes from previous lives and could this green eyed boy be part of her destiny? And what about the new boy at school and the familiar feeling she has around him? Could it be just a coincidence?

## **From Reader Review Deadly Dreams for online ebook**

### **Mary K. says**

This was an amazing book. For this being the first published in the series and her first book period it was very well written, kept my full attention and was difficult to put down. I recommend this to anyone who enjoys the paranormal young adult and mystery genre.

---

### **Conny says**

This book is breathtaking !!!

---

### **Tanya says**

I have tried several times to read this book. I've had it on my currently reading list for about a year, but got distracted by other books. I finally decided to finish it & have been reading to about half way through the book. I unfortunately just couldn't finish it. It just seemed repetitious, day after day similar with Dani having some dream & Mitch worrying about her. The author glosses over pretty much any other interaction Dani has with other people & it just dragged on.

---

### **Ruby says**

This was a fantastic story and a great start to the series. It is very interesting YA Paranormal story with dreams. I love how the relationship between Dani and Mitch is developing. I really hope it continues going forward with the series especially with how this first book ended. I can't wait to read #2.

---

### **Samantha says**

I liked this book well enough, it was interesting to the point where it made me want to finish it but I proberbly wont read the next one.

---

### **Tracy says**

Much of the book is repetition an drags on to much to finally get to the plot.

---

### **witchypoo says**

I really enjoyed the story in this book, but I think some more editing would have made it even better. There were missing commas, the word to instead of too, etc., and there was one spot where the main characters are sitting in a booth at a diner & then you turn the page & they're almost home, with no segue. There weren't an abundance of errors, just enough to be annoying. Also, I think the chapters written from Mitch's POV could have been eliminated completely to streamline the story. There were only a few chapters using his outlook & with the exception of telling us what had happened with his father & his sister, they really just repeated exactly what we had already been shown through Dani's eyes. That being said, the mystery was interesting, I liked the paranormal aspect, and I liked how the story left off. I think for a first book, this was well written. Maybe the next ones in the series will be even better.

### **Karen Graham says**

Very good paranormal mystery with clues unveiled over time via the main character's dreams-- dreams that are becoming more and more real! The story line is unique and engaging. The relationship between the main characters is endearing. The book is for YA but enjoyable for all age levels. Love the cover. Some typos are found, but not enough to ruin the story. This is the first in a series and I'm looking forward to reading the next book.
