Grave Holiday

Lily Harper Hart

Grave Holiday Lily Harper Hart

Christmas is almost here and Nick Winters has big plans for the love of his life, Maddie Graves. A proposal is imminent, but first death plays a visit to Blackstone Bay.

It seems the town's local Santa has been a naughty boy, dating multiple women without caring if they're single or married. Age isn't a factor – he likes them young and old – and the suspect list is long and twisty. Maddie finds herself dealing with a perverted ghost while trying to narrow the suspect list. The problem is, each time they clear one person another pops up. Santa was a terrible person in some ways and a charming one in others. Solving his murder is important to everyone, but Christmas is barreling down and everyone wants a happy holiday so they're desperate to find answers before the first snowfall of the year.

When Maddie finds out that her nemesis Marla was one of Santa's favorite gift options, she can't help but wonder if her oldest enemy could be a current threat. As things start to unravel, Maddie soon realizes that there's more at stake than punishment for the guilty. There's also salvation for the living to worry about.

Nick is determined to deliver the perfect proposal. He just has to keep Maddie safe long enough to do it.

Who is getting the gift of a lifetime? Spend Christmas in Blackstone Bay if you want to find out.

Elisa Hordon says

Maddy and Nicks first Christmas and what a Christmas it will be.

Maddy is growing in leaps and bounds, she is gaining more self confidence and standing up for herself especially against bully's like Marla Proctor I even love when she stands up for herself against Nick and his extreme over protectiveness...lol I love Nick but he needs to dial it down sometimes.

I really enjoyed Christi and John in this story they are good together and funny.

This was a great mystery with good twists a few I didn't see coming and I just loved the ending.

Siobhan Henn says

Loved it, Maddie and Nick are super cute, as are Christie & John. Marla is a pest but I really enjoy these books, even if they're a bit smaltzy for my usual tastes.

Priles says

Another special Nick and Maddie book

An unusual murder victim. I was not even close to figuring out who the murderer was until the end. Another funny and adorable story.

Tracy Carroll says

I always love a good romance.

This book ends with tears in your eyes and a smile on your face, but most importantly, with love in your heart. I love reading Maddie & Nick's story and it makes me hope my daughter's find the kind of love written about in books. If you want a book that has suspense, murder, snark, romance, and a little bit of magic this is worth reading. Plus, you get to see Maddie stand up to that witch Marla. Happy reading!

Robyn Jones says

Love that maddy is finally standing up for herself!!!

Munira Vahed says

Fantastic!!!

Its Christmas and Maddie wants it to be perfect. She wants it to snow and goes all out in decorating the house.

Nick on the other hand intends to propose to Maddie. He's nervous and excited at same time.

Before any of it can happen, a murder takes place. This time its Santa Claus. Yes u heard it right! Santa Claus!

This Santa Claus was a ladies man with no types. He went after any lady. Didn't matter if they were single, married, fat, thin, old or young. They had to be female.

The suspect list is long, very long. It doesn't help that as soon as one suspect has been cleared, another name gets added.

Will they ever find who killed Santa Claus?

Marla becomes more of a feature in this book. Maddie doesn't hold back of the retorts. Fantastic to see the change in her.

In the book there is someone following Maddie around. The identity doesn't get revealed til the last page.

What I didn't like was Nick's order of keeping Maddie close and not letting her out of his sight which is slightly unhealthy. Understandable though but still freaky!!

Can't wait to read the next installment. Seems like its the final book. Have to wait til next month before its downloaded.

Please let June come round quickly.

Nancy Vaughn says

Another fun and exciting story.

Good story, all the regulars and a surprise at the end which make me wonder what the next one will be about.

Kristen says

Maddie finally got gumption!

I was pleased to see Maddie standing up for herself and not be a wilting flower because that was getting old. I hope this continues. I like reading about strong confident women. I'm quite happy that this series finally improved in this book.

Can't wait for the next one.

Connie M Spence says

Excellent

Fast paced enjoyed the characters can't wait for next in series. Maddie and Nick made a great couple. Olivia spirit is exciting.

Amanda says

I actually liked that Marla was in a fix this time. She deserved to be scared a bit. Super happy for Nick and Maddie. Wish they would have told if Harriet found her 'gift' Maude was leaving.

Lara says

Pragmatic

I am so tired of the word pragmatic, find another one. Use a thesaurus and change it up just stop with pragmatic please.

I love the stories but sometimes it seems like the characters are 12 instead of nearly 30.

Kerry says

After reading a few lackluster books lately, I wanted to read a story I knew I would love. Lily Harper Hart never disappoints!

This series is what introduced me to my now favorite author, and I was really excited to read this installment! It is Nick and Maddie's first Christmas together, and it was just as magical as I expected. The mystery was interesting as always, and I liked the angle of so any suspects! As expected, the end was just perfect! I really could not have asked for more in that regard! I also loved how the last few pages opened up a totally new plot point that I am really excited to explore more in future books. Can't wait for book 10!

JadeShea says

Nick plans to propose to Maddie on Christmas, but a the dead Santa is getting in the way. On top of that Maddie is in the middle of having to deal with his ghost, and figure out what really happened to him as well.

This one was okay, but not great. I loved the proposal that happened, but I was annoyed with the ghost in this in and how Maddie handled some of the situations in it.

Other than that, I liked it and I still look forward to more in this series.
