His Reverie

Monica Murphy

His Reverie Monica Murphy

I knew from the moment I first saw her she was the one. The only girl I could ever want.

The only girl I could ever love.

She is light.

I am darkness.

She is innocent.

I've done too much.

She is good.

I am bad.

She is my every dream.

I should be her every nightmare.

We come from different worlds. She's...perfect. And I'm...

Not.

Somehow she wants me anyway. So we'll grasp at what we can. We're going to make this summer count. She's my secret. And I'm hers.

The problem with secrets is they never last for long. And when others discover we're together, they'll do whatever it takes to keep us apart. All I know is: I won't let them.

Because Reverie Hale? She's mine.

Lindy says

My Thoughts:

His Reverie was a gripping story about the innocence of first love, and how when you meet that special someone, you completely get lost in them and want to spend every waking moment together.

Reverie Hale comes from an ultra-conservative family. Her father is a televangelist, and even though she has had a life of wealth and privilege, she also has been suffocated by her parents ideologies and prejudices. Reverie is a romantic at heart. She daydreams of the day she will fall in love and be moved by a guy the way that the characters are moved in her books and television shows. When she see's Nicholas, the new hired help for the summer, she thinks he is absolutely gorgeous.

Nick had been down on his luck for most of his life. His father left his mother, and then died a year later. He got wrongfully convicted and sent to jail for a crime that he didn't commit, because his best friend lied about him, and now that he is released, he quickly ends up losing his mother to terminal Cancer. However, when he gets hired for the summer to work at the Hale's summer vacation home, he hopes to save enough money to begin a new life. When he meets Reverie, he is taken aback by her beauty, innocence, and sweet disposition. He knows Reverie is out of his league, but he wants to do something to make himself happy for a change.

Soon Reverie and Nicholas find themselves sneaking around every spare moment to be together. However, the odds are stacked against them with Nicholas' jealous and conniving ex-girlfriend, Krista, threatening him, as well as Valerie Hale making it clear to Nick that her daughter is off limits, or she will destroy him.

His Reverie pulled me in right away. I fell in love with both main characters right away. Even though Reverie was a bit naive and innocent about life, she was very sweet, loving, caring, and compassionate. She reminded me a lot of myself when I was younger. I couldn't stand her mother Valerie, who acted jealous of her own daughter, and felt the need to compete with her for her father's attention. I felt for Nicholas' plight. The poor guy had the odds stacked against him. Yet, he was resilient, hard working, and wanted to make something of his life. He made some mistakes, but he learned from them.

The romance between Reverie and Nicholas was very passionate, and I was rooting for the two of them the whole time. I loved how this story was realistic and included sex scenes. Many Y.A. stories aren't realistic in the fact that they do not include more than a kiss, and act like teenagers don't know about sex. The scenes were not frequent, or explicit in nature. However, at 17 years old, most teenagers have some knowledge of sex, and some are even experimenting with it, as was the case with Reverie and Nicholas.

I also loved how the story was told from Nicholas' point of view, yet we also got to read some of Reverie's thoughts through her daily journaling. I kept waiting for the last shoe to drop for these two, and had an idea of how I thought the story would end. Boy was I wrong! I was shocked by the ending of the story! The suspense meter was at an all time high during the last third of the story!!! Then, I was delivered a massive cliffhanger!!!

My Rating:

I give, His Reverie, by Monica Murphy 4 Obsessive First Love, Suspenseful, Passionate, Dreaded Cliff-

Hanger Filled Stars!!! I can't wait to read the sequel, and am glad that it is coming out later this month, so I don't have to wait too long!

ARC received on behalf of Monica Murphy from NetGalley.

Nick has just spent the last eleven months in jail for a crime he did not commit. But life isn't what he expected it to be once he's on back on the other side. Tragedy hits and he is now forced to face being seventeen on his own with a reputation that isn't wiped away just with a simple acknowledgement of his innocence. This turn of events brings Nick to the Hale summer home, working for a famous televangelist, Reverend Hale where he sees her for the first time.

Reverie Hale is just shy of seventeen, sheltered and pure as the driven snow. Her life has never held excitement, she had never known what it was to actually live or love until she sees him.

Innocent flirting turns into so much more as these two try to fight their attraction and Nick tries to hide his secrets from her, knowing that they could never be more than a few stolen moments if anyone knew - if she were to ever discover his past.

First off, I loved the writing and there were moments where I really felt a little connection to Nick... but that being said, this one just sort of did not work 100% for me. The dual point of views were told in fashion that gave you Nick in the moment then Reverie's memories via her diary - this showcased her innocence that much more - but it just left me unable to feel much towards her throughout the book.

When I picked this up I had not realized this was a part one of a series... there is a pretty decent cliffhanger at the end of this one and I have a feeling that the real story is going to get moving in book two. His Reverie almost felt like a prelude to what might turn out to be a much larger story. I have read numerous Monica Murphy books and usually I am able to be drawn into the characters and the story instantly, this one sort of has to grow on you. I have a feeling that if I had my hands on book two and was able to read these back to back - the overall experience would have been more.

I will read book two because it is MM and because I am curious as to where she'll take this story. I have a feeling that Reverie will kick it up a notch in book two and that it will be her time to shine.

Laura says

The story starts with Nick the hero coming out of Prison after a year for a crime that was not his fault. This is YA read and a bit too tame for me. Reverie turns 17 in the book and Nick is 18. The story is told from Nick's POV but we get Reverie's POV through her diary entries but they read too immature and I kept picturing her as a young child which didn't help. Reverie (I don't like that name by the way!) is quite the innocent as her father is a Preacher and she has led a closeted life.

The writing flows easily enough but I didn't like that Nick kept having sex with his ex. Not just because of his growing feelings for Reverie but because his ex was connected with why he ended up in prison. The plot theme of 'she's too good for me' is nothing new and so didn't hold my attention.

This is a cliffhanger story with the next book 'coming soon'. Again, I'm not a fan of continuation books. I'm not sure why an author can't tell a story in one go nowadays. This book didn't interest me enough to want to read the conclusion but that's not to say a younger audience might not love it.

Barbara says

Aspettavo questo libro, la trama mi aveva affascinato e immaginavo che si trattava di una storia tormentata e difficile, insomma... un libro per Caterina ;-)

Parliamo della storia di Nicholas "Nick" e Reverie.

Nick è un ragazzo sfortunato, tradito da un amico, dalla ex fidanzata e dalla vita, all'apparenza un bad boy!

Reverie è una bellissima ragazza, figlia di un reverendo molto famoso e ricco.

Lui è il male, lei il bene. Si incontrano, o meglio si scontrano e scocca la scintilla.

Ma le difficoltà sono tante, più provocate dall'esterno che dalla purezza di questo amore.

La narrazione è esposta a POV alternati, ovvero il pov di Nick e il diario di Reverie.

I pensieri dei due ragazzi sono tanti e profondi e devo ammettere che rispecchiano benissimo le paure e i desideri di due diciassetenni.

Il problema è sempre che lui ha sì diciassette anni, ma l'esperienza di vita di un trentenne.

Reverie invece è una ragazza senza alcuna esperienza, rinchiusa in una gabbia d'oro dai genitori ipocriti, che predicano la semplicità e la pudicizia quando invece vivono tutt'altro.

Reverie è vergine, si sente stretta nella sua gabbia ed è stanca di tutto ciò, pertanto si rifugia nella lettura di nascosto dai genitori e indovinate cosa legge? Libri erotici! Vorrebbe la libertà di vestirsi come una ragazza

della sua età, vorrebbe frequentare una scuola comune e non un istituto femminile. Mi è piaciuto molto il suo personaggio perché rispecchia effettivamente la ribellione, la passione e la purezza di quegli anni. Nick ha dovuto lottare, è insicuro, diffidente, tormentato e ha ancora dei sospesi da sistemare. Questo libro neanche troppo lungo, mi è sembrato il prologo di una storia che ci farà soffrire con i personaggi.

Infatti, attraverso le pagine imparerete a conoscere bene i due protagonisti principali e vi troverete a tifare per loro.

Nel momento in cui questo amore sboccia, Reverie diventa coraggiosa e pronta a tutto per stare con Nick. Lei non conosce ancora tutti i segreti del nostro bad boy, pertanto lui sa che se i genitori venissero a sapere della loro storia per loro sarebbe finita.

Lui ha paura a svelare a Reverie il suo passato, si sente inadeguato per la bella "principessa" anche se ha la volontà di migliorare il suo futuro onestamente e con determinazione.

Le altre figure al momento solo accennate, secondo me verranno fuori meglio nel sequel, dove ne vedremo delle belle a giudicare dalla trama del secondo e conclusivo volume (ANTEPRIMA QUI). Le scene d'amore sono delicate e passionali ma non esplicite come a sottolineare la purezza di questo legame.

Il linguaggio di lui è ardente ma mai volgare.

Amazon Buy Link---->> His Reverie

~~ 4 Stars ~~

This was the first book by Monica Murphy that I have read, so I didn't know what to expect from this book. I have always been one to enjoy a really good YA or Mature YA book now and again, and I have to say that I am glad I took a chance on this one. I thoroughly enjoyed this book. This was a book about so much more than a high school aged love story. It was truly about learning to love some one unconditionally. About learning to accept a person for who they are now matter what.

I thought the storyline was interesting enough, that it kept my attention throughout the whole book. What I really liked was how this book was written. It is mostly in Nicholas's POV, but Monica also gave us Reverie's POV in the form of journal entries, I really thought that was an interesting way of presenting Dual POV. The flow and pace of the book was also really good, I think this is a book that can be read in less than a day. Now Monica did add some suspense to the story right at the end, so of course this book does end with a CLIFFHANGER!!! I don't think it was the worst I've ever read but it definitely makes me want the next book NOW!! I want to know how it is all going to turn out. I have found that lately a cliffhanger is almost inevitable, so I am glad I didn't put this book off, although I did take a star away because we aren't warned or given any indication that this book was part of a series. I truly think that the reader deserves to know, so that if they aren't a fan of cliffhangers, then they can wait for the next book to come out.

As for the characters in this book, I really liked them. Reverie and Nicholas were complete opposites. Reverie was the good girl, daughter of a reverend, and living a really sheltered life. Nicholas was the bad boy, who got caught up in some trouble that wasn't even his fault. Nicholas was put in jail for a lie his best friend told, and when he finally gets out, he finds out that his mother is terminally ill. Nicholas is only 17 in

this book and has gone through a lot of bad stuff. The Reverend takes pity on him and offers him a job at his summer home, this is where he meets Reverie. Talk about a girl who is sheltered. She was 16 going on 17 in this story and she isn't allowed to do anything. All she wants to do is break out of her shell and be able to act like a normal teenager does. When she meets Nicholas she is immediately attracted to him and he is to her as well. Over the course of the book their friendship and attraction grows, even though both of them know that it is probably wrong to pursue anything. Making their relationship kind of forbidden. What I loved the most about these two characters is that they were both able to see past each others weaknesses and learn to care for each other no matter what. It wasn't an easy road, and they do have their ups and downs (mostly because each of them have severe insecurities and they don't believe they deserve each other) but I was glad to see them work things out along the way. I will say that I did have to continue to remind myself of Reverie's age, because while reading her journal entries, they come off kind of immature or that she is younger than 17. But I also realize that most of that comes from the fact that she is sheltered and inexperienced that I am guessing that is truly how a girl would sound in reality.

I would recommend this book to anyone who is a fan of YA books or if you are looking for a book about unconditional love and seeing past a persons differences. If you have read Monica Murphy's Girlfriend series, I am told this book is completely different and since I haven't read that series yet, all I can say is that I'm guessing it is based off the genre of this book.

Lady Vigilante (Feifei) says

2.5 stars!

OK yeah, I'm not happy. While the writing was eloquent, everything else – from the characters to the story structure to certain plot devices – was a big disappointment. Had I known what I know now, I don't think I would've picked up this book. At least, not until the next one came out first. Still, the writing is amazing and the only reason why I was able to finish the book.

That blurb caught my attention immediately – it's pretty powerful and I was told it's a *forbidden romance* so I jumped at the opportunity to read this. Once I started reading though, I quickly realized that aside from the forbidden part, there wasn't anything else that grabbed my attention.

The story

The book starts out with the hero Nick just getting out of jail – he was wrongfully accused of murder (which, by the way never got resolved by the end of this book) and after a year in prison is being released. He's practically destitute – no money, no job, but a miracle arrives! The rich Reverend of the town hires him to help around the house and it's there he meets the Reverend's lovely and exquisite daughter, Reverie Hale. They immediately are attracted to one another and keep their budding relationship a secret from everyone around them.

The characters

Unfortunately, I didn't like any of the characters enough. I felt that as the hero, Nick whined and complained about his lot in life more than taking action and changing it for the better. He was more of a "beta" hero than anything and still very weak. I liked Reverie more than Nick – as the daughter of the Reverend, it's to be expected she's sheltered and innocent, not at all wild like the usual teenage girls portrayed in stories. However, I felt like she was *too* childish and naïve and her relationship with Nick actually made me **UNCOMFORTABLE**.

The plot devices

OK I'm just going to rip off the band-aid fast – I did NOT like the following plot devices. At all.

1. Nick's arrangement with his ex-girlfriend Krista: (view spoiler)
2. Reverie's journal entries: I thought that was pretty different – it's a great way of showing her POV but through a unique way; however, her diary entries made her sound like a 10 year old child than a mature teen ? why I felt uncomfortable reading about her relationship with Nick. I think it would have helped more if I actually got a POV chapter from her, not just a diary entry in her perspective.
3. **THAT. BLOODY. CLIFFHANGER.** Not going to lie, I'm really pissed. Had I known this book is the first *installment* in the series I wouldn't have picked it up now. I was under the impression that this is a standalone, or at least, a book that had a HFN ending. Nope. You've been warned.

I don't voluntarily read many YA books but I made an exception for this one. I loved this author's Drew and Fable books and really looked forward to enjoying this book, but no matter how hard I tried to stay positive, the things I mentioned above got in the way and unfortunately I had to dock stars. Regardless, I'm still a fan of this author and look forward to her upcoming work.

ARC provided by the author via NetGalley in exchange for an honest review.

Cassia Brightmore says

I received a copy of this book in exchange for my review. This is one of those books that as soon as I saw the cover, I knew I had to read it. Reading the synopsis, it pulled me in further and I was thrilled that I would not only have the opportunity to receive a copy, but to also share my review. Once in awhile, a book comes along that reminds us that love can be sweet and simple, pure and selfless. It speaks to us of the innocence of first love and what people will do to protect it. This story of Nick and Reverie is one of those books.

Nick is a teenage boy who has suffered more than most in his short 17 years of life. From the wrong side of town, it was just him and his mother, and he was content with life. Sure, they struggled to make ends meet after his dad left them and then subsequently passed away, but they had each other and that was enough. A cruel twist of fate and a betrayal from his best friend finds him sitting in a jail cell for 11 months for a crime he didn't commit. In there, he was forced to grow up faster than he should have, experiencing this he never should have seen. What I liked about his character is that he didn't let it harden him. He managed to escape his injustice relatively unscathed.

We meet Nick when he has just been released from jail, the charges finally being dropped against him. He is more than ready to go home and let life get back to normal - unfortunately for him, that isn't in the cards. His

Mom has been diagnosed with terminal cancer and within weeks, she passes away. Leaving him on his own to fend for himself. He has no choice but to seek employment or end up on the streets.

Reverie Hale. On the outside, it appears that she has it all. Her father is the famous Reverend Hale, and with his faithful followers on his weekly television show - their family has benefited from preaching God's word. Living a life of wealth and privilege, you would think she would be happy - however, that's the farthest thing from the truth. Behind closed doors, she is kept under lock and key. Under the thumb of responsibility and image and the strict rules of her parents, all she dreams of is finding her first love and being given the chance to really live her life. Stealing pieces of it through the romance novels she reads on her Kindle isn't enough for her anymore - she longs for when she can feel those emotions for herself. A chance run-in with one of the new employees hired for summer help, she begins to see that maybe her dreams are within her reach.

When these two worlds collide, a true love story begins. Nick was drawn to Reverie right away, I loved how he always made her the center of his world - calling her his "Daydream," and going out of his way to make her feel special. As their stolen moments increase, they both come to realize that they are in jeopardy of losing their hearts to one another. The secrets surrounding their forbidden love are monumental. Fearing that he will lose Reverie, Nick hides his past from her. Never a good idea...That on top of the sneaking around they do to spend time together - it all looms over their head, a black cloud threatening to shatter everything they built.

This is a story of love in its purest form - first love. It's a sweet tale coupled with threats and deception. It captivated me to the end, had me on the edge of seat fearing for the outcome of these two star-crossed lovers. I loved that although the story was told through Nick's eyes, we also had glimpses into Reverie's thoughts through her diary entries - that was the little something extra that made this book stand out for me. Those little snippets were the perfect touch.

What happens with the bad boy falls for the innocent good girl? Are they doomed right from the start? Their love just may be explosive enough to bring the entire hierarchy crashing down around them...

Caterina Montebello says

4 STELLE TUTTE MERITATE

Ho amato la storia e lo stile con cui è stata raccontata, mi sono completamente persa nella narrazione, ho amato i personaggi, le loro paure e le loro ingenuità tipiche di quell'età.

Il doppio punto di vista di Nick da una parte e di Reverie dall'altra per mezzo del suo diario l'ho trovato molto originale e piacevole. L'autrice riesce a rendere l'innocenza e l'ingenuità di Reverie ancora meglio con questo escamotage.

In questa storia viviamo la sofferenza dei personaggi, le ingiustizie alle quali sono sottoposti ma anche la determinazione che hanno nel perseguire i loro obiettivi malgrado la loro giovane età.

Un cliffhanger finale grande ci fa intravedere un seguito tortuoso e pieno di sofferenza. Tuttavia questo amore e questa passione tra i due protagonisti ci scalda il cuore. Una storia veramente molto romantica e

travagliata che merita qualche ora del nostro tempo.
Lo consiglierei senza indugi.

monica ? says

3 Stars

Nick and Reverie come from very 'different' world.
Reverie is a daughter of a famous reverend. Her family is so religious and wealthy. Her parents want her to be an innocent girl and only allow her to have sex after marriage.

"You never rebel. You're always the good girl"
"Good girls are boring. I want you," She says, her voice shaking. "So much."

And there's Nick or Nicky or Nicholas (as Reverie calls him) with his life that is so opposite from Reverie's.

"She lives in a completely different world. One I will never, ever find myself in."

He's not coming from a wealthy family and he has dark past that makes his life changed forever.
Nick's mom died because of cancer. Now he's alone and he works for Reverie's dad in their vacation house.
Nick knows from the first time he saw Reverie that she is an off limits, but he wants her. And she wants him too.
So can they both be together with all of their differences?

"We may have committed a sin according to the Bible for having sex before marriage but... I love you. And I want to be with you. I don't think that's a sin, to become physical with the one person you care about more than anyone else."

This is the first time I read a book with 'religious' content like this. I know every religion has their own 'rules'. But I don't really understand with Reverie's family life with the religious TV shows etc.. because I'm not a Christian.

But the thing I understand is, her family wants to keep her innocent so they're so protective to her.

I'm a fan of Monica Murphy. I have read ALL of her books and this one is new. This is her first YA book (or Mature YA as she calls it).

I like YA, but too bad I think this one is just not for me.

Nick is good. But that's it, just good, not a great hero. I know with all his pasts and problems, it's hard for him to keep fighting for Reverie. But I think he could have done something braver and fight for his love to her. And the heroine, Reverie is not great at all (in my opinion). I don't really like her. She's like a spoiled kid from a wealthy family and she's pretty annoying. Well, typical 17 years old teenage girl though.

What I really like from Monica's books is because the story is focus only to the main characters. There are no unnecessary characters that are suddenly pop up in the middle of story that just make the story becomes long and more complicated.

And this book is also written in dual POV, even though the main is male POV and the female POV is written implicit through the dairy she writes.

The cover is also beautiful. I like it.

I enjoyed reading it but it's just didn't really work for me... That's why I only give 3 stars.

And what I really hate from this book is.. THE CLIFFHANGER ENDING!!! AARGHHHHH

Giulia ♥? says

2 stelline tirate tirate... Avevo già dei problemi al 5° capitolo e continuando le cose non sono migliorate affatto. Non solo non sono uscita ad entrare in sintonia con i due protagonisti (un YA in piena regola..proprio adolescenziale) ma anche lo stile non sembra affatto quello che la Murphy ha usato nella storia di Drew e Flable. Delusione più totale. Libro bocciato..non lo consiglio.

TeriLyn says

***His Reverie* generously provided by the published via NetGalley in exchange for an honest review.**

His Reverie tells the young adult, contemporary tale of renowned bad boy Nick Fairfield and doe-eyed naïve – his Reverie Hale. Star crossed lovers of the Romeo and Juliet variety, Nick and Reverie meet during the summer when Reverie's family spend the summer at their house in the town where Nick resides. It's a

provocative young adult story building up to an even bigger story with the books intended to follow.

The plot moved at a fast pace. All real-time prose told from Nick's point of view made the story interesting. Male points of view are not always done great but Ms. Murphy met the challenge. Nick's life runs on the edge of good and bad. He's shades of grey in his life because of people he's surrounded himself with and felt loyalty to align. When he meets Reverie, a black and white kind of girl, all he sees are bright lights and hope. She's something unreachable to him, someone who couldn't possibly see the good in him. Reverie's naivety yet spunky demeanor draws you to her character immediately. You want to see through her eyes but only get glimpses through journal entries after the fact.

It's an interesting dynamic telling the story through Nick's present day perspective while adding Reverie's past perspective on events that have already happened. I liked hearing from both of them and given the innocence of Reverie I liked how the author chose to not have us live through moments with her in the present but rather as a reflection and introspective look. It made her growth more substantial and her strength more evident. All the while Nick moving the story forward and providing the angsty details of what he'll do next.

I love a good story of forbidden love. The novelty of the secret, the excitement of the challenge, the question of how they can possibly make this ever-lasting all provide an excellent combination of good story. We get some passionate scenes here, not in great detail but enough that we understand and feel the connection between the two characters and we revel in the sincerity of their courtship. The secondary characters are good additions even the villains of the story provide great conflict.

The reason I chose not to give the book five stars is because I found it a bit predictable in parts. While the writing is good, easy to follow, and laced with mystery as a back story of what's going on and leaving us wondering, there were parts that I found myself skimming paragraphs due to predictability and stale plot points. Some aspects of the story I couldn't put my Kindle down while others got boring for me. It's not a story I couldn't stop thinking about, while I enjoyed it there wasn't anything that drove me to really loving it.

The ending definitely leaves you wanting to know more right away; luckily we're getting a sequel very soon. I enjoyed Nick and Reverie's story. Their connection felt sincere and I'm definitely rooting for them. I'm excited to learn what happens next especially after the ending. If young adult forbidden love stories are something you enjoy reading, then *His Reverie* is definitely for you.

Bella says

I LOVE Monica Murphy's One Week Girlfriend series. When I saw this book on Netgalley, I requested it asap and did a happy dance when I got approved.

I love Monica's writing - it's very easy to read and that holds true in this book as well. This book is told from Nick's POV but we do get Rev's POV in the form of her journal entries. This is a clever way to do alternating POV. But I felt Rev's POV just repeated everything from the previous scene. It was great to have some insight to her thoughts but I wish it wasn't so repetitive.

The plot left me wanting something more in this book.

The main characters are young - 16-17 years old. So I expected a bit of immaturity. What I found was that Nick was way more mature for his age. He's been through a lot and it making it on his own. I really liked how Nick was trying to make ends meet and get out of his crap town.

But Rev - she is so sheltered and immature. It was hard for me to read without rolling my eyes at times.

To sum it up: 2 kids from opposite sides of the money spectrum connect and fall in love. They begin a secret romance.

Character you love to hate - Krista of course.

Cliffhanger ending - BE WARNED!!

Gaia says

Sono veramente arrabbiata!!! 200 pagine di strazio!

Dov'è finita la Murphy di Drew e Fable???? Come fa a scrivere dei libri così???

I personaggi sono uno più antipatico dell'altro: Nick senza spina dorsale e Reverie che quando scrive il suo diario sembra che abbia 12 anni!!! ho capito che è la figlia del pastore ma cavolo una non può essere così torda!!!!!!

Per non parlare delle scene più "hot" tra loro due, eravamo abituati a ben altro in "one week girlfriend".

No no e no una delusione questo libro!!!!!! non vedevo l'ora che finisse e il colpo di scena alla fine a mio parere è inutile e senza senso.
