Redemption of Fate S. Simone Chavous

When Ethan Kellar awakens alone in the dark and discovers the carnage that surrounds him, he struggles to remember anything of who or where he is. His mind and body feel foreign, like a flesh and blood prison, until he discovers the lifeless form of the beautiful naked woman in his arms.

Drawn to her in a way he doesn't fully understand, he touches her necklace and is met with the searing pain of his newly acquired silver allergy. With the pain come flashes of his old life and the crushing realization that the woman is his mate, and he attacked her in a fit of bloodlust.

On mandatory lockdown at the Elite compound, Cami has never felt more trapped in the place she's called home for nearly two centuries. Trapped by fear for her missing brother and by the unwanted, yet undeniable attraction to her young, cocky new brother-in-law, Jared.

When the body of one of their kind is discovered by humans, the Elite are forced to intervene, giving Cami a reprieve as she leads the team to retrieve the body and clean up the mess before the race is exposed.

Back at the compound, Chloe continues to grow at an astounding rate and it isn't long before the strength of her preternatural powers are put to the test as she fights to save what's left of her family.

All the while, Lucias continues his pursuit of Chloe using his blood bond to Ethan to extract information and utilize the race's most powerful vampire in his struggle to rule humans and vampires alike. Unbeknownst to Lucias and despite Alexa's death, the mate bond still exists keeping a small part of Ethan beyond Lucias' control, but will he eventually give in to the darkness or will it be enough for fate to redeem itself and save him.

Dawn says

All I can say is Man, she is so good at cliffhangers!

Tashia Scott says

this was a good series but did drag a bit.

Becca says

There was just way too many characters POV during this book, and though it feels like a lot happened it was just a bunch of different people with one big thing happening in their lives. I was especially upset with the ending and what Ethan did. Very upsetting because there was very of Ethan and Alexa in this book.

Amy says

I thought this was suppose to be Ethan and Alexa's story.? I mean I love see the others POV, but its getting to be a little much. Especially the fact that it keeps switching without notice and when I really want to see what happens with one person it goes to some pointless scene of another character. And poor Chloe. One second people are totally forget about her and the next they are treating her like a child. Like I know she's growing up fast, but maybe if you were actually around it wouldn't be such a huge surprise. She's a mature vampire and you guys are all hanging the fate of your race on her, but you insist of treating her like a child. What a bunch of hypocrites.

Speaking of hypocrites, how can Dante and Alexa be pinning for their lost mates and yet find hope in each others kiss!? Like what the heck, that's not okay. It made no sense how they could do that and be totally okay with each other afterwards.

Completely unrelated to my rant, I knew Kaleb was an okay guy and I really hope him and Chloe really are soul mates because he deserves it.

Ivy Rasmussen says

I told you about the first part well part of, in the continuing fait accompli for out most loved couple Ethan and Alexa are about to embark in a new chapter in their life, but lets throw in a third party. Their daughter Chloe-she is the most powerful born vampire, no body knows the extent of her powers, all but one Lucas who has a wish to exterminate all mankind and the council of the vampires with sweet innocent Chloe as his bride. For a child who becomes and adult in just weeks looses all she has ever loved or yet still to loose, how do you leave behind all who have ever looked after, protected and loved her? What do you do when your heart is breaking?

Yes this gets much, much more interesting, in order to know what I'm talking about don't miss out get part 1 & 2 now.

Angela says

I am so hooked on this series! It's fast paced, shocking twists you never see coming, violence, betrayal, angst, heartbreak, a true love bond that defys reality, will have you jumping from one emotion to the next, and so intriguing that you can't wait to see what's next! This is definitely not a stand alone and you must read book #1 prior to this. My strong suggestion is to get the boxset if you don't already have the individual books. I can't wait to see where this story goes next in the final book!

I definitely recommend this series!

Celeste says

Amazing!!! I am so glad I continued this series, this is PNR at its best!

Pandora VanMeter says

AMAZING!!!!

I am officially OBSESSED!!! I couldn't put the book down. This book will not disappoint any reader. However, the only thing disappointing is the final installment in the series is not out. Please complete ASAP! Thank you.

Crystal says

I read the first book in this series and fell in love with it. I almost went crazy when I got to the ending. This book made me feel better in some ways but with what is happening to Ethan is just bad and Alexa has to see it happening.

Ethan and Alexa are soul mates and their daughter Chloe will either make the right choice or the wrong one. It would be hard to know I was part of a prophecy and everyone was counting on me. Chloe grows faster than a normal child and can do all kinds of things. Her family is trying to keep her hidden because they know that Lucias is looking for her. Lucias has already made her dad do things since he injected him with some serum.

Cami is Ethan's sister and Jared is Alexa's brother. Seems these two are also mates. Cami isn't your normal female vamp. She can fight as good as any man. Jared has a hard time getting in with Cami and making her admit her feelings.

I almost cried at the end of the first book and I just didn't know what to think when I reached the end of this book. I really can't wait to see what is going to happen next. The author did a great job writing this story but

there was just something about the first one that really caught my attention.

Michelle Ferrari-Johnson says

I totally fell in love with this series starting with the first book! I was so grateful this was available to buy and read next as I wasn't sure I would make it to a future release date.

Ethan has been turned and is pained by constantly reliving how he murdered his wife. Being held captive by Lucas he has no idea his daughter, Chloe, is growing by leaps and bounds.

This story just grabs you in book one and you just get sucked into the characters and story!

Once you start reading this series you will not finish until you make it to the end of book 3. Definitely worth the ride and will leave you replaying the story in your mind for days~

Stephncaitlyn says

I have mixed feelings about this book. I was not happy that it took so long for the book to pick up where the first one left off. The first book had such a dramatic ending and after waiting so long for book 2 I didn't think that it was fair to delay the conclusion to that scene. Plus, the synopsis makes it sound like that's where the book begins! I still loved the characters in the book and the story. I totally believed in the world and people that the author created. It took me a few chapters, but then I was totally sucked into the story. I'm not happy that we have to wait again to find out what happens next, but I will most certainly read the next book! Another thing, this book could use some editing.

Wendy coling (trowbridge) says

Chloe is a wonderful character. She is great one in the book. Poor alexa loses Ethan but gains Chloe. Cami try to avoid jarred cause she don't know how to act on how she feel but he does ans shows her. Their good together. Shocking end but brave.
