Runs Deep

R.D. Brady

Runs Deep R.D. Brady

Ten years ago, Simone Granger was killed in the sleepy little town of Millners Kill. Steve Kane, then sixteen, was quickly arrested and convicted. But Steve knows he's innocent. Someone else took the life of his best friend's sister.

Now Steve is on parole, and he is forced to return to the town that hates him. Steve would rather be anywhere than Millners Kill, but at least in his hometown, he's got his grandmother, his brother, and State Police Investigator Declan Reed on his side. And Steve intends to make no waves. He just wants to get his life back.

But someone else has different plans.

As the storm of the century hits Millners Kill, the bodies begin to pile up, and Steve is the only suspect. A town is losing its grip, and all their rage is focused on one man.

Steve knows he's an innocent man. But will anyone give him a chance to prove it?

John Elliott says

I typically do not read mystery but I enjoyed the story line and plot twists. I was fooled to the end.

booksthrubifocals says

Suspenseful murder mystery

As a teen, Steve Cane is convicted for the murder of his best friend, Julie's, sister. After serving ten years, he returns to his island home just as a major storm approaches. The bridge to the island is seriously at risk and therefore closed. Upon Steve's arrival, bodies begin to pile up and most everyone thinks he is to blame. State policeman, Declan, who never believed that Steve was guilty of murder, continues to fight on his behalf. Closed off from the mainland, people are frightened and beginning to lose control. Who is behind the murders? I never guessed!

Elena Pallares says

Good book

It was good. The story flowed well. I kept trying to guess whom it was. I did not get it right.

Susan says

I love this book. I was shocked who the killer was. It took me almost the entire book to figure it out. I thought it was the police chief Keith, he was arrogant, seemed to have it out for Steve, and knew everything about everything. But when they all got together at the school to discuss matters, Keith was talking when the murder gave an old lady a note.

I was shocked to know that it was Steve's brother Jack, but than after reading about their family history I wasn't shocked at all. I hate that grandma had to die, but glad that things worked out for Steve in the end.

Great story

mona hogge says

This was a really good book, very gripping and suspenseful, I couldn't wait to pick it up again

When I had to put it down to do other necessary things. The characters were real and well portrayed I looked

forward to hearing about each turn of events

annemarie_bookaholic says

Excellent story and quite different from her other books (which are just as good). This is more of a mystery who done it kind of book. I thoroughly enjoyed reading Runs Deep...no spoilers in this review...you just have to read the book

Shannon Yarbrough says

I enjoy a good engrossing mystery but really need to be kept guessing if I'm going to consider giving a book 4 or 5 stars. This one is pretty easy to figure out early on. It has a very linear plot so it's a quick read and easy to follow. It lacks a lot of those "A-ha!" moments I enjoy from mysteries but is still a decent read.

Steve has just served 10 years in jail for murdering a girl. He returns to the small island town of Milner's Kill while a huge storm is brewing that threatens to cut off the town from the mainland. Suddenly, people start getting murdered and all eyes are on Steve again.

There are several law enforcement characters that were hard for me to keep straight in the beginning: a couple of officers, the dumb police chief, a state police investigator, and a lawyer who happens to be Steve's brother. Another problem is they are all stock characters and not very likable. Steve, the main character, is about the only character I could warm up to.

The book could also use some editing. I stumbled quite a bit on extra words or misused words which gets old fast. But I thought the writing was solid, enough to make me want to check out the author's other books.

Jesse Watts says

Another hot read from RD Brady

Deeply rich story about a teen who's falsely convicted of murder he didn't commit. Now he is returning home to the town who turned on him. Once again RD Brady describes her main character so fully you lose yourself in the pages. It's a fantastic read. I did NOT expect the killers identity! Only thing i wanted is an apology at the end from the chief of police who was a real (jerk to put it nicely), and responsible for his conviction. I do understand why she didn't include it tho, bc if it were real life, a man like Keith would never admit his mistake. Great job highly recommend this book

Juliana says

Good whodunit

Although I solved the murders less than halfway through I still thoroughly enjoyed the book and the interactions of the characters. Ms. Brady routinely turns out stories that keep you involved and invested to the end.

Sandra Scheff says

I did not find the killer

I did not identify the killer even with the clues until the end. Read this in 2 days, staying up past midnight. Great book to take you away from the every day. The storm description was also well done enough to be considered a character itself.

Mary Banik says

Great Read!

Actually was about a third into a different book. Don't know why I started this except just checking it out and I became absorbed in the story. Absolutely loved it and am definitely looking forward to reading more of this authors books. I have a new preferred author. R.D. Brady!!!

Patricia Busch says

This book was a real page turner kept me up later wanting to get to the end. All the twist and turns the characters were great and human like people who are in a small town on an island.and the end WOW. I highly recommend this book.

Tracy Shires says

Engrossing!

Excellent story! It was hard to put down from the beginning. Great story line, real life characters, will keep you turning the page, excitedly wanting to get to the bottom of the mystery. You won't see it coming! Loved it!

Karen says

This book kept me entertained. I thought the story line was good, but I can only give it three stars because it dragged out too much. I went all through the story guessing who actually did the murders. As soon as I found out who did it, I just skimmed the rest of the book.

Lu Ann Montgomery says

A good read

This is one of those books that you can't put down. I loved the Beliah series, and was hoping I wouldn't be disappointed with this book. I admit, I was looking for one of the characters to be a fallen for a connection to that series but there wasn't one. The story line was well thought out and all in all, a good read..
