The Gathering Tricia Owens

After betraying the only man he ever loved, Hadrian waits for death amidst the ruins of a sorcerous battle. Wracked with guilt, he agrees to join a mage-led mission to bring his evil father to justice. But when Caled, the handsome mercenary he betrayed, insists on joining the mission too, Hadrian discovers that Caled's need for revenge will set the two men on a twisted path of desire and hatred.

My bleeds for Hadrian

I feel so bad for Hadrian...aside from dealing with the horror of stained soul, he has to deal with the slime that is supposedly protecting him. Thank God for Manix, for the wisdom of the Elder. He is wise enough for both Caled and Hadrian...both stubborn, but both still in love and bidding...

This book was better than the first one in this series. I couldn't put it down until it was finished. It's hard to see how Hadrian and Caled will be able to get along together, because of what Hadrian did in the first book. I didn't think I could feel sorry for Hadrian after what he did, but this second book got me to feel for him and want him to have a better life. I look forward to reading the next books in this series.
