**William the Outlaw** Richmal Crompton

William and his chums have to decided to be outlaws. No more school, no more teachers, and no more parents making unreasonable demands. But when they end up cooking a mixture of blackberries, Worcester sauce, Turkish Delight and sardines, life on the wrong side of the law is less appetizing.

Was given this book as a child, this character is hard to hate.....

I must buy copies of the William books for my keeper shelves - delightfully refreshing.

## **Pippa says**

I'm filing these under children's books, but I can't help wondering if they are really more for the grown ups. Great fun anyway. In this one the parents seem a bit more human, so I guess RC was fleshing them out as she went along. Love the humour.
