A Diary of Greed and Lust Elia Mirca

Book 1:

One summer evening Juliane lands in the arms of her husband's best friend. This relationship drives her to new heights of sensuality beyond her wildest imagination. Still, their affair remains a casual relation because she doesn't want to abandon her husband. Ironically, Daniel moves to another city shortly thereafter to pursue his career ambitions. Their weekend-marriage life does not last long because Juliane's husband follows his professional calling and leaves for the USA. Juliane is dumbfounded and lonesome. Nightmares torment her and demons from her childhood start taking control of her subconsciousness. Again, Juliane jumps into a relationship with a significantly older gentleman, a university professor, in the hope of satisfying her desires for closeness and comfort. However, their amorous encounter fell victim to the man's need for exceptional and freaky desires. Still, the seed was sown for her to become easy prey for pimps who already wait in ambush.

The Julie's Passion Trilogy

This is a novel about the temptations of sensuality, but it also narrates the intimate feelings, the yearning and quest for love of a young woman. Some say it's a romance, other say, it isn't. Whoever enjoyed '50 Shades of Grey', 'Scandalous' or the 'This Man' trilogy might fall in love with the erotic tension in this book as well.

Due to sexual content and the subject matter, this book is intended for ages 18+

It is tale about a man and a woman who try to find their role in life – sharing some common denominators: sensuality paired with the desire to succeed. But they are only to learn, in the course of their marriage, that this volatility of excitement was and will not be sufficient. Daniel is a conventional fellow who focuses on his career in the world of technology. Juliane, on the other hand, sees her marriage slipping away – no longer can she cope with her husband's demands for sexual promiscuity to further his chances in his career; nor is she willing to further succumb to those ideas.

For many people, Juliane is considered a vixen – young, vibrant and blessed with her good looks. Only a few know that when men and women alike feel being physically attracted to her, it is recognition, self-affirmation and testimonial for her as a woman. Sex fulfills her needs and becomes her language of communication – perhaps a substitute for 'normal' communication that she has not mastered yet. Her desire for comfort and closeness remains often unanswered, thus she must pay a high price for the path she has chosen.

Despite several relationships before her marriage, the young student Juliane is still a novice in matters of love. One day she stumbles into an affair with her husband's best friend and this is the prelude to a rather erotic, but also crazy, story that will run her into great perils and wicked complications.

Her husband abandons her temporarily for a trip overseas. In her longing for comfort and partnership, she enters into yet another affair with an older gentleman. Little did she know that she has fallen victim to the man's egotistical intentions. He uses her for his purposes and personal advantages. Sooner than later, Juliane ends up in California. This is where her life turns out to be as risky as back home, as she becomes entangled

in a real case of murder.

Months later Juliane returns to her homeland – by herself – where she considered herself to be safe in the company of a former lover. But that turns out to be the wrong conclusion. Lo and behold, she needs to fight for her life and her freedom again.

One summer evening Juliane lands in the arms of her husband's best friend. This relationship drives her to new heights of sensuality beyond her wildest imagination. Still, their affair remains a casual relation because she doesn't want to abandon her husband. Ironically, Daniel moves to another city shortly thereafter to pursue his career ambitions. Jane Geddis says

Always wary of the older man younger woman motif, I began "A Diary of Greed" with some skepticism. Not very helpful were the "50 Shades of Grey" comparisons, which is a comparison that gets thrown around about many novels. I understand the reason is because the book was so popular, but really "50 Shades" is to erotic fiction what Gilligan's Island is to shipwreck movies. It just isn't that good.

I was pleasantly surprised at the depth of the character of Julie, at the verisimilitude of the plot and the explicitness of the sex. As someone who knows all the pseudonyms Dean Koontz once wrote dirty books under, my erotic fiction connoisseur credentials are intact. This is one of the better erotic books you'll read. Line up for Julie like the men do at the . . . oh well, just read the book.

Kathy says

This was a Goodreads give away.

The story is well written, definitely sizzling and detailed in the sex scenes. The main character is too naive for today's women which took away from the story but over all I rated it a 4.

Tam says

This book was a goodreads giveaway.

This story was written as if you were reading out of the main character's, Julianne, diary. Julianne tells the story of and her relationships. I usually do not like first person pov writing style, but after settling down with the story, I got used to it. The author is very descriptive and you start to feel as if Julianne was on the phone telling you her story. Did I like the story? I am not sure. At first I was very upset with Julianne because of the decisions she was making. So much so, that I did not think I could finish the book. I pressed on and after a while I started feeling sorry for her. You start to realize that the decisions and mistakes are possibly coming from some deep emotional place, whether it was loneliness, confusion about her relationships or maybe even some past trauma. Whatever the reason, I believe she is definitely looking for something to fulfill her, and the search for that something or someone keeps the reader interested enough to stay with her through her journey in hopes of a discovery. Be advised, Julianne's journey is full of very steamy and sometimes kinky scenes. There is some romance, though unconventional, and also danger as Julianne realizes that there are serious if not fatal repercussions for deciding to continually give in to her desires.

Mary says

This was a free read from Goodreads First Reads. I like books where I relate to the characters. I felt no love or commitment between this husband and wife and certainly no trying to save their marriage. I rate books on my wanting to read them again, overall this was a downer book with nothing for me to say to recommend it.
