Harper was a freshman in college when a misunderstanding & vicious false rumors kept Declan from getting to know her. Now, she's a junior & he's managed to get back in her circle again. Her money hungry aunt has raised her after her parents both died & Harper has had to work hard for everything she has. Declan's dad is a famous musician & Declan doesn't want for anything. He's trying to make sure he stays out of the public's eye.

How do I describe this story? Both Harper & Declan needed to grow up but in different ways. Harper needed to stop running away & stand up for herself! Declan needed to stop letting his fear of his dad's fame dictate his actions. Every fight, altercation, and interaction illustrated the growth of their characters. I love Jamie's character! Such snark, wit, sarcasm! Behind it all was genuine affection & support for her friend. Well written story!

Annette says

This really exceeded all of my expectations. These college kids have the most realistic, adult situations to deal with while trying to squeeze a bit of enjoyment out of the college life. They are total opposites, he has it all, it appears, and it appears that she has lost it all. Though Harper does have some self-worth issues, she remembers when things were different and it is her driving force. As their house of cards crashes down and secrets are revealed, she blossoms on the inside into the beautiful person she already is on the outside. Declan has never had money issues but he has his own issues and struggles with being who he is expected to be versus going with his heart. When it comes to Harper, it is obvious that they are soulmates, he completes her and she keeps him in check, they are really very mature for their age and I really love how he is so patient with her and how he prefers they can talk through everything instead of the flight method that Harper has always relied on. Their story has its share of drama that will engage the emotions in good ways and some not so good ways through it all they are a formidable team and I thoroughly enjoyed my time in their world.

So so...

I really tried to love this book but it was just alright. I really liked the story but Harper's character really

annoyed me the majority of the time. I get that she has gone through a lot but I just couldn't get on board with her reactions and interactions. I'm not saying not to give it a chance. It just wasn't my favorite.

Rcvd an advanced reader copy from the author for giving my two cents. We meet Harper as a new college student asked out by the hottest guy on campus...only for a shot nosed witch from high school start spreading rumors and poof...its over b4 it started. Fast forward 2 yrs...Harper is determined to set her sights on med school and she needs in her profs good books to make it in. Declan, son of a rock star, has always thought about the pixie girl from 1st year...he feels bad about what happened and is always on the lookout for her. Harper overheard deccan talking to the prof and forms an idea. She goes to the frat hour seeking out Declan for a proposal....shell help him with classes if he helps her with the prof..win win. Declan doesnt know how to play this but agrees...unfortunately he cant stop his frat brothers from making rude comments about his tutor. Spending time with one another has Harpers feelings for Declan to come to head...but shes got so much baggage and hurt its hard to open the gates. Will Declan be able to break down her walls? Will Harper ever trust Declan?

Terry Moskowitz says

Harper and Declan are not in the same league nor would they travel in the same circles. When they end up in the same school, there is an incident that knocks her confidence down.

A few years later and they both need something and the only way to get it is to work together.

She never dreams she will be in this position but it is a confidence builder and makes her look at the way she was living and comes out of her shell.

This was a well thought out book. It is emotional and worth every minute.

This is Almost Never written by Amy Lamont. Harper has always tried to be unseen. When you become a target, sometimes that's the best strategy. Everyone knows Declan Cooper, son of the rock star. When Declan gets too close to Harper one of the vipers drives them apart. Will they forever be on opposite sides of the campus? Should she ever trust anyone besides her roommate Jamie? When things start getting hot around

college, can Harper let down her walls to let someone in? Is Declan the person that everyone thinks he is? Things are very seldom as they appear. Get lost in this book. You won't see the end coming!

Kym says

While it was enjoyable to watch Harper and Declan's romance unfold, it was just as enjoyable watching both grow individually as young adults making their way through college.

Harper's life is more "complicated" (purposely being vague to avoid spoilers!) of the two and she's determined to get into med school with her focus on getting into a mentor program at her undergrad college. There's lots of personal drama that causes her to be less self-confident than the type of student driven enough to be setting her sights on attending med school. Her lack of confidence however, while understandable, is a little excessive given what she has achieved academically.

But then I remember that these are young college students.

As for Declan, I would have enjoyed a little more backstory on him...so much is focused on Harper that sometimes it feels unbalanced. We don't learn a lot about his story, goals and future plans until further along in the story - although when we do, it really enhances their story together.

And as mentioned above, watching them both grow as individuals enhances their story together!

All in all, this is an enjoyable, romantic love story with a touching ending!

I voluntarily read an advanced reader copy of this book, however, this is my honest opinion.

This would be great but as others have said, it goes to chapter 12 and then repeated. Hopefully waiting for a fix to this book so I can really finish it! It's been great so far :-)

I loved Declan!

I enjoyed the story and I absolutely adored Declan! I loved Harper too and they were adorable as a couple. The reason I gave it 3 stars or actually 3.5 stars is that I felt it ended very abruptly, yes it has an epilogue but I felt like we missed out on seeing Harper confront her professor, and meeting Declan's dad and for that matter his mom assuming she is in the picture (I can't remember if it said or not) and also what happened with Jamie she was wasn't mentioned in the epilogue. So although I loved Declan and Harper, there were just too many loose ends to give the book any more stars.
