**Exhaust** Skye Callahan

Book 4 of The Redline Series

A month ago, I brought home a stripper.

I didn't plan. I didn't think. I violated every rule of a good criminal. And now, she pays the price. My brother stole her back, seared away her identity with drugs, and spliced her body together with images of my long-dead lover.

Devlin wants nothing more than to see me fall. And that's just what I've done.

They say old habits die hard, but old addictions never die. Chasing lines. Chasing demons. Anything to drive the memories away.

Maybe it's too late.

I can't shake the feeling that I'm bound to Aubrey in some way. I owe her. I need to fulfill our deal. Even though I'm not sure anything will remain when the smoke finally clears.

There is no hell like the one inside your own head.

Warning!: If you're looking for rainbows, butterflies, and happy endings coated in chocolate and caramel, turn back now! This story deals with dark themes and intense situations that aren't suitable for sensitive readers. If you're looking for an intense roller coaster of emotions and situations that will warp your sense of right and wrong and drag you through the debauched underworld of crime and deceit, then you're in the right place.

#### **Definitely a Good Read**

This was really a good story. It was definitely a dark romance, and the suspense. Well the suspense has me biting my nails. I can't wait to find out what happens to Colt, Aubrey and Merc. I'm sure the next book will be just as good as the others. Definitely a good read.

Part four of the this five part series. I'm so addicted to this series, it's unreal, it's taken over my life. I'm snatching a page every chance I get. Although this one was the calm before the storm and not as suspenseful as the past three, it still consumed me. I'm in love with this world, these characters, and I can't get enough.

Let's see if Cole can seek revenge and redemption all at once. Let's see if Aubrey can live a normal life or is forever tainted. I don't know how one book it going to tie all of this together, I feel like I need at least two more. Yes, I'm definitely being greedy, I don't want it to end. I'm not ready. This is coming from a reader who is famous for not finishing series. I'm looking forward to the last book, but not.

Who will win the war? Will there be light at the end of the tunnel?

While not as engrossing as the first 3 parts of the series, I still really enjoyed this book. Colt and Aubrey are totally screwed up and I'm so ready for Devlin and Merc to go down. Could have used more down and dirty sex, but I understand that this part of the series was more about Colt and Aubrey working on getting their shit together than it was about them shutting out the rest of the world and banging away their problems. The ending though?? I think Skye is trying to give her readers a heart attack. But it leaves you begging for the conclusion of this dark and sexy series.

Good series. Not great. I liked it but it wasn't anything super standout in my opinion. Still worth checking

out. It's entertaining :)

I liked this one better than the others. This one had some action and more plot which made it more engaging. I am still not connecting with Aubrey and I am frustrated with her I can't get over what happened to me but I do not want to talk to anyone about it attitude. Colt's self loathing and addiction problem is almost more than I can stand but when you have an addict it is hard to help them get clean. Hopefully his friends will have an intervention. One more book to go.

4th book of 5 and omg, what another ending.

This series will take you on a thrilling ride and it's not finished just yet, You get drawn in the more you read.

With saving Aubrey, helping her then sending her away to heal and protect her but can Colt save himself, help himself. Will he be able to forget about Aubrey and will she be safe from Devlin and herself? How can Colt and Aubrey overcome something they can't admit, more than the drugs, the torture and revenge?

With Colt still trying to bring down Devlin and stepdad Merc, can he pull himself together long enough to get a revenge that he deserves? I really do hate Devlin and hope he suffers.

I cannot wait to see how it all ends in this thrilling series.

This is book four in this serial. It's not a stand-alone, you must start at the beginning.

There's not any triggers in this book, but in the previous book, there's a strong warning.

I didn't think I would be still so drawn into these characters.

I mean especially after the last book, how's the author going to top that and keep my interests?? Have faith because she has. I just can't quit. The characters, story, everything just has me turning the pages.

Colt has so much going on, he's not sure if he's finding a way back, walking around with a target on his back, or falling so far into his old ways that he'll never find his way out of Hell.

Aub's, she's not sure where her mind has her. I mean after last book, I'm amazed she can function at all. The constant nightmares, trying to find a balance in a life and body that no longer belong to her. Those moments when they were out of their minds come back to haunt EVERY one involved.

Devlin. The Devil, he actually got a head of himself. Doing things he thought would never be found out. But Merc, he has eyes in more places than anyone knew.

Personal relationships are all stretched to the max, along with professional ones.

I need to move onto book five. I'm on the edge of my seat how this is all going to end. Hopefully our characters (even side ones), get that HEA.

I'm scared!!

I would highly recommend these all up to this point.

I seriously love this series, but chapter 16 is completely missing???

### **Vickie says**

Another great book in this series. Not as action packed as the previous books it's still an addictive read. Now starting to build up to the climax, Aubrey and Colt's relationship changes yet again. With Colt determined to end his part in the family's business, it's all coming to a head. Can't wait to read the last part. Especially after that ending!!!

### **Donna says**

OMG YOUR KILLING ME LOL.....

Colt, god he breaks my heart. I so desperately want Colt and Aubrey to get the HEA, or at least the revenge they deserve, the freedom they need and a life to look forward to. This was amazing, loved this story, loving this series.

CAN NOT WAIT TO HAVE MORE!!!!!

### **Sasha says**

Exhaust has a different pace from the previous books. A transition from the crazy, adrenaline filled ride Colt and Aubrey have been on with Devlin, we see the internal demons become just as destructive as those living inside of Ashville. The emotions I felt while reading came on slowly but were felt so much deeper and left a hurt in their wake. Skye Callahan's writing is so descriptive, I could feel the torment and pain of the characters.

I love this raw ride with Colt and Aubrey and all the twists and turns of the Redline Series. This series has become my addiction!

3.5 Still Good But.....

I have enjoyed reading these very short and quick reads and for me, I am one who is getting tired of "series" you know the continuing of very short "stories" and so for me I think may be the underlying problem. I have enjoyed it yet.....I can't quite put my finger on it BUT I am not buying the last book as of yet because I wasn't that quite enthralled with it either:(

**Spoiler Ahead** This was book 4 in the "*The Redline*" series. This book picks up where the last one left off. After saving Aubrey and helping Colt sends her away to heal and to protect her but can he save himself. With Colt determined to end his part in the family's business it's all coming to an end. This book is not as action pack as the last book. Colt and Aubrey struggle in their relationship. This was one action pack series and the book's have kept me on the edge. This book was well written like the other books in this series with no errors in grammar or spelling. I am looking forward to reading the next book.
