## Flames Like Vines Sara Raasch

*This is a companion story to ICE LIKE FIRE, the sequel to SNOW LIKE ASHES. It parallels the beginning events of ICE LIKE FIRE.*

**"She was part of Summer, and Summer was part of her, and this land wouldn't abandon her too."**

Ceridwen Preben, princess of Summer, has spent her life plotting against her brother, Simon, the Summerian king. Simon has embraced the ruling family's reputation for using their conduit to keep their subjects in a state of bliss, and has spent his reign slowly driving Summer into ruin, filling everyone with carelessness and letting them turn a blind eye to Summer's rampant -- and deadly -- slave trade. But Ceridwen refuses to let her kingdom disintegrate, and with the help of her fellow rebel-in-arms, Lekan, she hopes to undo Simon's lethal dealings.

But when Ceridwen uncovers Simon's deadliest plot yet, she starts to realize just how deep magic runs -- and that even though her kingdom is one of sunlight, with light, there always comes shadows.

## From Reader Review Flames Like Vines for online ebook

### Azbaqiyah says

I'm in ♥ with this Summer Princess~

P.S. : This book is better read when you already read half from Ice Like Fire.

---

### Laura (bibliophile) says

\*3.5\*

Enjoyable, but not amazing. Sara Raasch's writing was as beautiful as always, but the story had no emotional impact on me.

---

### Cas says

Flames Like Vines really showed Ceridwen how she is in Ice Like Fire. Her strong views are expressed in this amazing short story.

---

### Vendea says

Paradoxn? je tohle zatím nejlepší ?ást série, kterou jsem ?etla. Ceridwen mi byla sympatická už v druhém díle a její pohled m? bavil o dost víc než ten Mei?in nebo Mather?v. Je škoda, že se s ní potkáváme až ve dvojce, protože by celé sérii její p?ítomnost prosp?la o dost d?íve.

4/5\*

---

### Danni Maxwell says

PETITION FOR THERE TO BE AN ENTIRE BOOK ABOUT CERRIDWEN PLEASE I NEED THIS IN MY LIFE

---

### Kristy (Book Nerd Reviews) says

I would not recommend reading this novella before reading Ice Like Fire - as it does contain spoilers for that book (and in fact, the whole Ceridwen storyline in Ice Like Fire really interesting, so don't ruin it for yourself!).

I LOVE Ceridwen! I think she is a great addition to the Snow Like Ashes series. I really enjoyed this novella about the Summer princess, which gave a great insight into her own determination and suffering. She is one tough cookie, with a fierce sense of compassion and rightness, and just a touch of sass!

In Snow Like Ashes Lekan intrigued me as well, and this gave a nice insight into him, and his relationship with Ceridwen.

I would have given this novella 5 stars if I had of gotten a little more of Ceridwen and a certain other person - although I think I could probably read a whole book on this situation :)

### **??? ?????? says**

I now know for a fact that Meira is my main problem with the series .. because this book doesn't have Meira andis I enjoyed it better th n the rest

I loved Ceridwen from the moment I met her in Ice Like Fire, she is strong and knows what she wants .. now to the final book in the series

---

### **Avalanche says**

***Love me, sister. Obey me, sister.***

I am so glad Simon died in *Ice Like Fire*!!

This short story was great. Loved getting to know Ceridwen better!

---

### **Dannii Elle says**

This short story mirrors the events at the opening of the second book in the Snow Like Ashes series, Ice Like Fire. It can be found here: <https://www.wattpad.com/story/4889742...>

This gave a whole new level of understanding to the character of Ceridwen and has confirmed in my mind exactly why she is my favourite character from the series! This was a surprisingly long short story and the stirring descriptions and depth of emotion were vastly improved in comparison to the first short story to accompany this series. This story added to the central story, without spoiling any events from the book and has given me the fix I needed of this world, as I eagerly await my copy of Frost Like Night.

#### 3.5 Flame and Heat! ★'s

*"She was part of Summer, and Summer was part of her, and this land wouldn't abandon her too."*

"Flames Like Vines" is a Novella, that's in Ceridwen's (the princess of Summer) POV. I don't recommend

reading this before reading *Ice Like Fire* seeing as how it does contain spoilers for that book. Anyways, it was a pretty decent read. Most Novella's don't really do anything for me, but here I am. I keep on reading them haha! It was insightful at least and it gives you more of an understanding into the character that is Ceridwen. This girl right here, deserves her own book, like a spin off trilogy or something :D Yeah, she's that bad-ass!!! Ceridwen has got to be one of my favorite characters in this trilogy. I loved Ceridwen, from the moment she was introduced in *Ice Like Fire*!!! She is such a strong, determined, and brave character. Who easily draws you in and keeps you wanting more :) Don't believe me?? Then I guess, you'd better read these damn books!

---

### **Sharon says**

Ceridwen is MVP. Ahhh. This short story makes my heart ache for her.

---

### **Sara MinHerondale says**

Nothing new, but it was nice

---

### **Shanna says**

I can not believe I just discovered this novella now! I've been wanting to read the final installment of the Snow Like Ashes series since I purchased it and I somehow stumbled across Flames Like Vines. I immediately sought out this story on Wattpad and I'm glad I did!

I really enjoyed Ceridwen's character in *Ice Like Fire* and I'm glad for a little more insight to her life in Summer. This short story really showcases her compassion for others and her determination to change the status quo. It also gives us a little more insight into the Summerian court and the beginnings of how the Decay is poisoning Simon. I also enjoyed learning more about Lekan. The little bits we are given of his story is just as interesting as the rest and his determination and devotion to Ceridwen's cause is just as fierce, no matter the personal cost to him.

Overall, this was an enjoyable read. I do wish that it had been longer but it makes a great companion read to *Ice Like Fire* and it reminded me how much I love this world.

---

### **Ayla says**

It's a nice companion to *Ice Like Fire* and it's really fun to read from Ceridwen's perspective, but it's nowhere near as good as the books.

I would've really liked this if it was written parallel to when Meira came to Summer, but it wasn't.

I recommend reading this after reading *Ice Like Fire* instead of before, since it's a bit spoilery and might even be kinda confusing.

Long story short: it's a fun read, but it doesn't really add anything to the story.

---

**Jessica Hansen says**

Nothing spectacular but nice to read from the POV of Ceridwen.

---
