**How can she love the man responsible for her husband's death?**

When Frenchwoman Giselle McTavish married a Scotsman, she never expected to be widowed two years later and left to bring up their son alone. Nonetheless, she's determined the next laird will be raised in Scotland. Even though Highlander Hugh Ferguson—the man she holds responsible for her husband's drowning—also lives at Craiglocky Keep. Two years pass, and her struggles to overcome loneliness and homesickness are compounded as it becomes more difficult for her to fight the warm feelings Hugh now stirs.

Hugh has loved Giselle almost from the moment he laid eyes on her. But as the wife—then widow—of his dearest friend, she's forbidden fruit. He refuses to act on his feelings for her, especially since she's never shown any romantic interest in him. But that changes one providential Valentine's Day when he risks everything by using Scottish folklore and legend to at last proclaim his love. . .

Fans will love this romantic story!

HEART OF A HIGHLANDER is perfect for Scottish romance lovers! Collette Cameron really surprise me with sweet and short novella set in the Scottish Highlands! Her heroine is Giselle, whom you'll remember in the previous books Highlander's Hope and The Earl's Enticement.

The story starts as Giselle is visiting the old graveyard where her late husband Liam is buried. She misses him so much, but, now she has the responsibility of Ewan, her young son, who is raised to become the next laird of Craiglocky, like his father Liam. She was missing her home, France and knew she had to remain in Scotland. Liam's best friend Hugh, will do anything in his power to protect her and offer her some tenderness. But, soon, sparks flare and ignite a sweet passion between Giselle and Hugh.

Very well written with a touch of tenderness! The moment, they shared a kiss, their passion for each other will explode.

I really enjoyed the beautiful and romantic love story of Giselle, who gets a second chance at love with the irresistible warrior Hugh. I loved Ewan, Giselle's son, who played the part of getting Giselle and Hugh together forever!

I strongly recommend Collette Cameron new Scottish adventure!

Short tale explaining the Laird Ewan McTavish's (Highlander's Hope) mother Giselle's own love story. She was married and loved Ewan's father Liam. He died when he was a child and his father's good friend Hugh Ferguson (father of Adaira :The Earl's Enticement, Isobel: Virtue and Valor, Seonaid: Scandal's Splendor)...has loved and watched over him as his own son. Giselle has been watching Hugh watch Ewan...feeling a bit guilty she keeps her growing attraction to herself. On Valentine's Day after visiting her husband's grave the snow starts falling very hard. Hugh rescues both Liam and Giselle and guides them to the keep. Hugh not be able to stand it any longer tells Giselle how he feels. She feeling the same tell Hugh

she loves him and agree to marry. HEA yet again!!! Yes it was quick and too short but a wonderful beginning to 4 more loving children stories...fun family as well!

### **Deb Walker says**

Again Collette does not disappoint. This short story is a sweet romance. It is a snowy Valentine's Day in Scotland. Giselle is raising her son Ewan, since the death of her husband, several years before. There is also a very handsome Scott, who just happens to be in love with both Mother and son. For the details, you need to read the story. I loved it.

### **Jimnlori says**

In Heart of a Highlander Giselle McTavish is a widow with a young child to raise in the harsh Highlands of Scotland in the 1700's after losing her husband three years ago. After three years of mourning her husband Giselle is ready to move on. She is now having feelings for her husband's best friend Hugh Ferguson. Hugh Ferguson's feelings for his best friend's wife will stay buried forever if need be, but seeing her daily with her son and watching her embracing and struggling with the harsh Highland life despite her loss has been torture. Would this day that is for lovers find them finally being honest about their feelings for one another?

This was a perfect short and sweet love story!

I was given an ARC for an honest review. All conclusions are mine and mine alone.

Love how you get to see two characters admit to each other that they love one another.....Everyone sees the love they have in the series but it's good to see them at the beginning....And little Ewan is too cute

### **Macaron says**

Lovely story, tender, sexy and funny. But really too short.

I don't know how anyone can put such a full, thoughtful, touching, sweet story in to so few words, but Collette Cameron always manages to do so. This is the second novella I've read by this author, and as much as I loved "A Kiss For Miss Kingsley", I like this one even more.

The way the story unfolds, supplying us with the backstory along the way, and adding to the charm of both the hero and the story by throwing in some Scottish folklore (which may or may not have been completely fabricated by said hero), is quite engaging and draws the reader in from the first paragraph. The little boy in the story supplies a sense of wonderment and charm as well.

So much is conveyed in such a short span of time, and yet, there is a completely real and believable feel to the story. I could almost feel the cold and the snowflakes falling. I liked this one so much, I may have to read it again.

Wow! I don't know what I can say about this story. It was short? Really short! 44 pages to be exact. The rest was taken up on Collette Cameron's other books.

This was about Giselle, who was married but her husband Liam died years before, and Hugh, Liam's best friend who had been in love with Giselle since Liam brought her home from France. Then there was Ewan, her son, who loved Hugh and thought it was just fine that Hugh marry his mother. It was Valentine's Day and according to tradition Hugh marrying Giselle made perfect sense, so said 5 year old Ewan.

Anyway, it was a cute story even if it was short.

There was desire and wanting in this and that made it better. There was no sex.

### **Vero Stro says**

Lovely short story! Tender, sweet and very romantic!

I wish it was longer!!! As usual Ms Cameron weaves a story full of love and emotion and reading flows. An amazing short story about two people that finally let the love they feel for each other wins!

### **Dee Deacon Foster says**

Giselle McTavish never expected to be a widow after 2 short years of marriage but there she was picking weeds from her husbands grave on Valentines Day with Ewan, her 3 year old son who was now head of the clan, waiting nearby. Valentine's Day...what a cruel day when she has lost the one she loved & the man she could love doesn't know she exists.

Hugh Ferguson has long loved the wife of his best friend. The friend that lost his life when it should have been Hugh who drowned. He knows Giselle blames him for her husband's death & vows to treat her son as his own but never show his true feelings for her.

Until Valentine's Day.

A beautiful story of second loves & a wonderful short prelude to Collette Cameron's Highlander's Hope in the Castle Bride Series.

This is a good very quick read. It's a short story that you can read during your lunch hour. That being said, it was cute and I liked it.
