## Francesca says

Maybe it is just my hate for superman, but boring. Okay Lois is pregnant. Why does that have to waist 75% of the comic. The only part i like was Superman asking batman to be the godfather, he'd be a better dad than superman, and the ending when the joker and Harley Quinn showed up, but of course it ends with a cliff hanger.

I am just glad this was a free download. I watch my boyfriend play the game. I don't need to read the comics.

---

## Elena says

Testing out this new comic app. Pretty freaking awesome if I do say so myself! And this comic is really awesome as well can't wait for the next one :)

---

## Ulises says

Estamos ante la presencia de un cómic que marca un quiebre en los parámetros conocidos del mundo DC.

El imprevisible Joker lo vuelve a hacer y esta vez convierte un certero jaque mate para Superman, y de pasadita, se encarga de hacer una "pequeña fiesta pirotécnica" en Metropolis.

Lo entretenido de este cómic es que "el payaso" se pasó del límite permitido, y por su culpa, cabreó y reformó la forma de hacer justicia del "Hombre de Acero".

Creo que cuando a uno le dan donde más duele, es como lógico que se reaccione en caliente y no se piensen las consecuencias de los impulsos, y en esta primera parte me quedé "im-pak-tadoh", porque para nada me esperaba tanto "bombo y platillo".

Esperanzas e ilusiones hechas añicos. Proteger lo que más se quiere y fallar.

Darle una vuelta a la injusticia mundial.

Una mente retorcida y genocida que se divierte con el dolor ajeno.

Estamos ante el comienzo de una magna obra del universo de DC cómics, y que sinceramente creo que no me la perderé de leer.

5 estrellas y muy recomendado.

### **Derek says**

"Gotham has fallen silent," Batman laments. It has fallen under the iron fist of the Man of Steel.

INJUSTICE : GOD'S AMONG US opens with Batman on top of a building looking down at the shadow of what used to be his city. A great sense of foreboding prevails before we CUE FLASHBACK to five years earlier, to Lois pregnant with Superman's baby. Superman is in protective mode, he's even had a high school planned already, and wants to move out of the metropolis and go to Smallville, but Lois won't have any of that. Neither will she stop doing her job. So, while following up on a lead, her and her partner are ambushed by the Joker & Harley Quinn and Jimmy, her partner catches a bullet...

### **Jay says**

What happens, when you destroy hope in a man who wields the power of God? A man who holds the standard for Justice, Compassion and Morality?

That is the direction Injustice takes. Consider my review a review of the entire saga.

Unfortunately, as each novel progresses, the story worsens until you start to wonder if the writers had really just ran out of ideas but had to churn out chapter after chapter.

However, the first 1-3 novels? Are absolutely fascinating.

I highly recommend this DC Story arc, until you get bored of the terrible character arcs and story direction. Then I suggest you put this down, and continue on with your life.

### **Glory says**

Read this on the Madefire app as a motion book, complete with motion and music. It was a super awesome experience and I hope they re-make more books in this fashion. I don't usually read DC but this was cute, especially Superman getting all awkward with Batman when talking about having a kid. D'aw.

Kad?nlardan korkulur arkada?. Wonder Woman'?n Superman'i elde etmek için yapt?klar?...

---

### **Jesus says**

It's the first justice league comic that i'm reading and i found myself liking it very much, it's cool and darky, i want more to see how this goes

---

### **Earl Shaffer says**

I love the themes in this book. The idea that villains don't always start out as villains but end up making bad decisions through good ideas and end up being something horrible. The effect of external forces on what should have been an infallible being. Plus the joker is being the joker.

---

### **Luis Cortes says**

While Marvel may be dominating the cinematic media outlet, this series show that DC is king in comic book writing. As much as I love Marvel's Civil War, Injustice just has it beat.

When the Joker tricks Superman into killing Lois Lane and his unborn baby, Superman snaps and takes the Joker's life. From there Superman begins his descent into madness as he and other Justice League members try to enforce "world peace" at the price of mankind freedom.

With the invincible man of steel as the Earth's new dictator it's up to none other than Gotham's caped crusader, Batman, to end Kal El's regime. Bruce does everything he can think of to put an end to Superman's cruel rule, such as magic, kryptonite, and even assistance from DC's Gods.

#### **GREAT START...LOOKING FORWARD TO MORE**

Great start to the INJUSTICE SERIES. Looking forward to more. A couple of somewhat shocking surprises right off the bat. This is great. You are really on the edge waiting to read the second comic. If you are looking for something exactly like the video game, you aren't going to find it here. Something that kind of explains the time and situation in which it is set? I am sure we will get to know more and more as the series carries on. Also, classic smartass Batman. Love it! :)

---

### **Christine says**

An alternate DC Universe story in which the Man of Steel's obsessive nature to protect has gone extreme when he's manipulated to do something awful. Pitting pretty much the entire DC Universe against each other, messing with the laws of time, involving ancient deities and outlandish characters, Injustice is a sweet chance for any fan to see what it would be like if their favorites were involved in the ultimate face-off. Tom Taylor starts the series with fantastic art to accompany. A hardcore fan or not, everyone could enjoy this series as a fun 'What-If'.

---

## **Rubin Carpenter says**

A very good begining for the alternate reality story with DC's chacters

---

## **Kaiu says**

I loved this book, it was so conflicting, heartbreaking, and overall, exciting. There were points in the book where it was very surprising, corners were turned unknowingly and they even did things you wouldn't think they would do to your favorite comic book characters. If you want the goodies to be baddies and the villains second-guessing themselves while they watch everything they planned to destroy be destroyed by their own nemesis then this is the type of book for you! Join your childhood heroes from another universe in a quest of destruction, agony, war, and bloodshed with the occasional saving of the heroes who stayed pure and enjoy yourself one more comic that needs to be read.
