**Lasts** C.L. Matthews

Él es de otra.

He's married. He's forbidden, but I want him.

Knowing what can never be kills me.

No podemos desafiar al destino, estamos destinados el uno para el otro

Ella está con él.

Pero él no es digno de ese amor, y ella siempre será mi vida.

I'll burn the entire world to the ground until she rights her wrongs.

This will end with us, and she knows it.

## Aurora - Whoo Gives A Hoot says

*\* Read more of my reviews at Whoo Gives A Hoot \**

OH MY FREAKING GOODNESS!!! FINALLY! I finally got my hands on one of my most anticipated reads of 2018 and let me just tell you all that it was totally worth the wait! C.L. Matthews almost completely destroyed my heart when I read *Firsts* back in May and I really thought I was prepared for *Lasts*, but holy moly I was not. For a brief moment I even thought I knew pretty much everything about Silas and Leia...but I absolutely had no clue what the heck was about to happen.

This insanely beautiful forbidden romance got a whole lot hotter with all the new twists and turns thrown our way. There were so many unexpected and OMG moments throughout that I found myself picking my jaw off the ground a few times. This extraordinary raw story had my heart beating right out of my chest and I loved every single moment. Readers finally got to see a new side of Silas and the journey he took that ultimately led him to Leia. These two were meant for each other and yet obstacle after obstacle kept getting in their way. My heart bled for them and I even shed a few tears. I don't know if my heart will ever be the same again...at least until I get my hands on the Cape Hill series!

## Book Boyfriend Whoarder Mari says

After *Firsts* I was hooked, after *Lasts* I'm addicted!

CL Matthews can melt my kindle any day. She has a way with taboo that just leaves you wanting more. *Lasts* was not enough!

The queen of #CarrotTeases did it again, I'll be polishing my pitchfork later on.

My girl Leia, still loving two men for completely different reasons. Can you blame her? I can't. Sy is hot. Brax is hot. Sandwich please??

Sy, this guy is loyal beyond words. My heart aches for him. He is finally found someone who fills his whole heart, but to protect her he has to do things none one us want.

Brax, my pequeño is growing up. His awakening is *Lasts* is refreshing. Seeing him grow and start finding himself is amazing to witness. He still has a long way to go to be the man that I know he can be. Can't wait to see that happen.

Lastly, don't be hating on my Papi Danté. Yes, uhh he crossed some lines, but from a dads point of view, can you blame him?? Nope I can't. So put the shanks down and chill. Okay?

If you want a story to keep you on your toes with some turns and twists, this is for you. If you want a story that will make you love so many flawed characters, this is for you. If you want a story that will make you squirm, this is for you. Have a nice cold drink ready and dive in!

I thought I was ready for Lasts. It turns out I had no idea. This book was so good! CL Matthews cranked up the dial on all the heat and suspense and angst and had me gripping my Kindle and racing through the pages as fast as I could. I so love Leia and Sy and Brax and their twisted journey to love. I can't wait for the rest of their story!

I love this book as much as I loved the first in this series! This book was so good. The suspense, the angst, and the hot scenes. I have been anxiously waiting for this book since I finished reading Firsts. I love the characters! The emotions I went through while reading this had me everywhere at once. I HIGHLY RECOMMEND THIS BOOK!

“Tears fall from my eyes like blood drips from an open wound” I can’t with this quote, with this book. It’s so much. I don’t even know where to start to explain what I thought of it! All the secrets revealed! The steaminess. The push and pull. The times my chest ached. The emotions she pulled out of me were crazy! I don’t want to spoil anything. But damn! That second epilogue. Hottest ever!! Please say its foreshadowing.... A total 5+ stars!

**Jennifer Richey says**

Blown away by this book it picked it when firsts left off! You get more background on Silas and xo but wow Silas and Lelia that was just wow! Brax he continues to impress me! Another amazing job!

I'm blown away!

I loved Firsts and how the story of these complex characters started, but also it left so many questions unanswered and the plot twists and drop offs could literally take you in any direction!

What I absolutely LOVED about this book was that it took those turns and unanswered questions from Firsts, and started to pick away at them ever so slowly. It was agonizing(and steamy!) but amazing to read all at the same time. Lasts started to peel back the layers and give you glimpses into the back story of each character to put the puzzle pieces together a little bit, chapter by chapter. Then also threw you for a loop by adding in more twists! Just when you thought you had something figured out, she would throw something

different at you and make you have to re think everything! I loved how intriguing this story was and cannot wait for more! The cliffhangers were killer but in the best ways!

I am beginning to kinda hate Leia a little bit, shes getting flighty and contradicting herself alot. But I also kind of love that about her. She's raw and real with the emotions shes battling and the internal struggles shes dealing with. I had to step back a few times, and re read her chapters thinking "ok, I'm reading this from a 30 yr old me perspective....she's 17 try this chapter again through her perspective" lol then I started to get it way more!

I loved the character development of Sy, he's got a few different sides to him and they all started to come into view in this book, so you start to get to know him better and begin to understand what makes him tick, why he has made the choices he has....but still not REALLY knowing him yet. We have so much more to learn about him and I'm so excited!

Brax is still kind of an illusion of a character to me, even after some of the back story development but I kinda like the mystery of him still. He wasn't really a forefront in this story much and the end was such a HUGE cliffhanger for him that I'm eager to learn more about him and see where his role in this series takes us!

Such a great read!

Taboo deliciousness

LASTS, book 2 in the Cape Hill Series , starts right where FIRTS, stopped. And Holy Smokes , Batman it's a must read.

C.L. Mathews give us a dark, emotional and fleshy tale that is devilish raw , gritty and unconventional . And that , for me , makes it an addictive read ...yum hum give me more !

LASTS lives up to every promise and more as the author isn't finish with this story. Be aware , this books ends in a cliffhanger but it's okay, the journey and characters arc merits a third book. I only encourage her to write faster ; I am salivating for more !

Yep, I am addicted to this book trilogy and Leia, Brax & Sy are the cure!

---

I can not wait to read Lasts... Book 1- First was amazing ! Please C.L. Mathews type faster , I want to read your book! ;)

## Misty Walker says

What has CL Matthews done to me?!?! I feel like I want to kiss her and strangle her all at once for making me so invested in this taboo tale.

Lasts picks up where Firsts left off except now we get all the backstory between Leia's mom, dad and Danté that I never saw coming. It added so many more layers to this already addictive series. Between the characters, the authentic and rich feel of Leia's heritage and the crazy sexy couplings... this is a dark and taboo readers dream.

I can't wait for more!!

## Na says

*"I want all of her lasts. Last touches, last kisses, last love, and to be the man she'll ever have."*

I'll be honest with you. I really don't know how I feel about this book. It splits my heart and soul in two pieces. So I'm really not sure how I'm gonna write this review. Lasts is special in so many points. Mostly it's confusing. My best guess is, that CL Matthews is a genius. She writes her characters so intense that you feel as confused as they do, on so many different levels.

*"Sy is the reason my soul is weeping, and Brax is why my heart feels weighed down by a million trains."*

Don't expect a lot of action of this book nor a thrilling ride. Expect to be mostly within the heads of the trio Brax, Leia and Silas. Expect to get a deep-dive into their souls, minds and thoughts. Expect to get some of Sila's history. Expect to get all hot and bothered at one moment, only that shortly after the author can hit you with a bucket of cold water to get you back to reality.

*"No matter how much I love him, no matter how right he feels under my fingertips, it's too many shades of wrong."*

Yes, the love you will experience within this book, might be - for normal social standards - fifty shades of wrong and forbidden. But who are we to judge? Love has no boundaries, only in our minds. So be open, dive into the minds of Sy, Leia and Brax and let your self get carried away by a love that's so complicated, ugly and mixed up, that it's already beautiful again.

*"He was my first, but he'll never be my last, not when he's not even my now."*

CL Matthews delivered with Lasts a fantastic sequel to Firsts. It will twist your mind in so many ways, that at the end you'll have no idea what you just read and leaves you no idea in what direction the story will continue.

*"Love isn't measured in age. It's not even measured in time. It's unexplainable. And that's what makes it beautiful."*

## **Jennifer Shiflett says**

Every single thing I want to say about this book will just give the story away, and I'm not gonna do that. I will say it's another excellent book by one of my favorite authors.

It's definitely got some emotional moments, along with a lot of really steamy ones.

I thought I knew going into this book which team I was on, and if you have read Firsts, you know exactly what I'm referring to. If you haven't read Firsts, what the hell are you waiting for?! Read it now and prepare yourself for everything that is Lasts!

Duck. Me. Sideways.

I've read this book twice now, and was just as surprised with the turn of events during read two as I was when reading it the first time round.

Lasts gives you more of an insight into Silas' character and his past. It's grittier and rawer than Firsts – book one of the Cape Hill series – so buckle up and enjoy the ride. One thing's for sure...not everything is as black and white as it seemed in Firsts...

*\*\*Lasts is the second book of the Cape Hill series. In order to fully enjoy this book, it is recommended to read Firsts.*

## **Sissy's Romance Book Review says**

Lasts by CL Matthews is book Two in the Cape Hill Series. This continues the story of Brax, Silas and Leia. You do need to read the previous book 'First' to fully understand and enjoy this one. Leia is still in love with Silas while Silas is still married to her mother. Silas is also battling a issue off Leia's radar to keep her safe, which means he can't be fully open with her. Brax is still in the mix working his way through his feelings also.

This book doesn't end their stories another should be coming out to give us more into their relationship and what is going on.

## **C.L. Matthews says**

Oh, this book.

I was hesitant for this book. Maybe it's because of not feeling good enough, or maybe something else entirely. Either way, doubts can really hinder your writing. That's what happened here. Then, it just hit me, and I made changes. And with those changes, I felt secure and positive.

I hope you all love the continuation of Leia, Sy, and Brax. And I hope you add Forevers to your TBR, it's the conclusion of their story.

## **Dani says**

C.L. Matthews picks up in Lasts, where Firsts stopped. The emotional journey we follow in this story is nothing short of breathtaking and heart wrenching. Every word, every page, and each character pulled me in and left me in tatters. This author is only growing from strength to strength as she finds her niche and with this beautifully intricate taboo book, she's woven a story that will stick with me for a long time to come. I'm still reeling by her poetic writing, and the heartbreak and choices that these characters need to come to terms with.

Well done, Cassie, an incredible story. Now if only you would hurry and finish the next instalment. ;)
