**Lucy in the Sky** Barbara Elsborg , B4Jay (Illustrator) , Deco (Editor)

When you wake up to find a spaceship in your back garden what do you do? Choose from the following:

Phone the police.

Scream.

Go yell at the alien for wrecking your garden.

Lucy storms out of her house to confront the inept pilot and the last option turns out to be both the right and wrong choice when she finds the gorgeous hunk's name is Three. She's torn between fury that he's crushed her roses and decapitated her statue of Eros, and a longing that he enliven her boring life and whisk her to the stars. Three doesn't give her a choice when he throws her over his broad shoulders and takes her into space. Lucy soon finds herself exploring alien territory in ways she never imagined.

Three's efforts to hide and protect her on the mother ship are stymied by his inability to keep his hands—and other body parts—off the luscious Lucy, and it looks as if her immediate fate might be a solo trip into space without a spacesuit.

# From Reader Review Lucy in the Sky for online ebook

## Jolyn says

Zimpra shit, I loved this one. I don't know why the rating is so low it's definitely a 4 star at least. This author is my new fave..

---

## Jonella Moore says

I really enjoyed this whimsical book which was a little Sci-fi romance that hit the spot for a light hearted read.

---

## T00zday says

Good enjoyable book, but I probably won't be pulling a re-read on it.

Unplanned Alien kidnapping.  
Erotica. M/F & M/M  
HEA

---

## Laurie Green says

This Science Fiction Romance blends fun, zany humor, steamy love scenes and nail-biting suspense in an imaginative, can't-put-it-down package.

Lucy's antics often made me laugh out loud and Three was a compelling, charismatic (and sexy--did I mentioned sexy?) hero. There was even a secondary romance with a surprising twist.

I don't want to give away the many surprises in this story, but it is hands down one of the very best of its subgenre that I've read!

---

## Spuffed says

It doesn't feel fair for me to say this but this is probably more of a 3 star read, but for alien abduction erotica, it's a four star as the plot was way more developed than I thought it would be and the characterization was pretty darn good too.

Quick Rundown: Super Quirky Chick finds an alien spaceship in her backyard. Of course, hot ass Alien Dude ends up disembarking and a funny little battle occurs before she is abducted. From then on, this

became so much more than the typical alien abduction stories. To say more would be spoiling it for you.

Characterization: Very well done. Dude was extremely complex considering he came off almost like a robot to begin with. His background was a definite new spin, especially for an erotic novel. Chick was developed pretty well. She's one of those quirky, funny chicks but there were a few times I felt that was a little over the top and annoying but for the most part, I enjoyed her and she even made me chuckle a couple times. Secondary characters are few but they were well fleshed out. The Big Bad is no surprise but because of their position, you are always left wondering how the MC's are going to get away from them.

Plot: Like I said before, once Chick get's abducted, there was very little predictability. The alien culture itself was a new twist for me. What happened to the characters was new for me. I was never bored and a couple times was a little bit on the edge of my seat. Needless to say, I couldn't put this book down. The ending was pretty well done and satisfying though I would have liked to have a couple more direct scenes about the environment change for one of these characters. Sex scenes were plentiful, hot and nasty and not too many though I think I skimmed the last one because I'm getting a little "over" the obligatory sex scene at the very end.

Overall: A winner in my book. I would recommend and will be reading more from this author.

### **Ice says**

**I really enjoyed reading this one. It's so amazing! Just like every Barbara Elsborg's works that I've had read, I also finished this in just one sitting.**

I really adore Lucy. She's goodhearted, so cute albeit weird, and really funny.

Three...god, I love his name! (*I have a thing with digits, haha*) Three's the first alien/human that I loved. He's so sweet and I liked that he always try to make Lucy feel loved and comfortable.

**A must-read. Just like all Barbara's epic works.**

---

### **Amanda Sheila says**

Geez, Barbara Elsborg never cease to amaze me!

If I were Lucy, I'll run and never look back. But then again if the alien's as cute as Three, well.. Take me with ya! ;)

I was expecting a menage in this book, but didn't find one. That's okay, Hyll and Zend's relationship os more than enough. I can't wait to read another book of Barbara Elsborg!

---

## **Netanella says**

I love the "voice" of Barbara Elsborg's works - she can do emotion and passion, and smart, witty banter and make you really feel like friends of the characters in her stories, even if the plot is a little out there. And this plot is definitely out there, but it's a lot of fun, too.

Lucy Brilliant Sunshine Pineapple Princess Ferze discovers an alien has crash landed on her prized backyard plants. Rather than faint, call the cops, or freak out, she darts out back, accosts the alien, and then patches him up and cooks him breakfast. Lucy, as we soon discover when she's abducted by Three, our plant-collecting alien, is a 'fixer'. She sings to the plants on the space ship, she befriends the Worker Bots and Pleasure Bots and causes a near social revolution on the space ship. She's dingy. She suffers from what I call gumball head syndrome - whatever pops in her head comes out her mouth with no filter or stop. Surprisingly, she's lots of fun, too, and a main character I enjoyed.

This is a fun, zany book - scifi erotica that's well written and enjoyable. Kudos to Elsborg for another great read.

## **Vins says**

### **Overall an okay read**

I liked Lucy . She is a tad bit stupid. Lets just call it impulsive and leave it at that. What i liked about here is that she is a chatterbox. Its fun to read what she talks and thinks . She is entertaining. The H is okay. He is the right amount of alpha , possessive and protective. I just wish this book had more to tell about the Mc's rather than the side characters. Hyll love story was not needed. It took away the spotlight for the H. Caleb the villain had a nice name which distracted me and i was not exactly scared of him.

The smex is hot . BE is a good story writer . Its never boring to read her books. if i ever re-read this book it will be for Lucy and the smex and that it is written by BE.

I thank my friend Stars to having rec'd this book, because i would not want to miss reading a BE book.

---

## **Linda says**

Laugh out loud - funny! This book had me chuckling the whole way through a great read.

---

## **Miku says**

### **It was an OK read**

The heroine Lucy has a terribly funny long name, she was very impulsive and I did like the hero and like reading his POV he is possessive and very protective of the heroine though he did not know why he had brought her with him. The idea, the plot and the world building wasn't bad but I feel like Hyll's love story with Zedan somewhat outshines the main couples love story and I don't know why if there is a need to read Velida and Caleb's POV. I'm not really even sure that Caleb was all that of a bad guy. Still it was a very fun quick read and a very refreshing one as it is very different from all the alien stories that I had read.

---

## Andrea says

I had read Barbara Elsborg's Trueblood series (<http://www.goodreads.com/series/46896...>) and really enjoyed it so thought I would try another one of her books. Lucy in the Sky fit the bill as I wanted something fantasy.

I thoroughly enjoyed this book and read it very quickly. Lucy is a single woman who has no family left. She had a very close relationship with her father who passed away after sharing years of tending their English garden. When a spaceship ruins her garden, there is no question why she rushes out to confront the culprit. The hot hunky male, "Three", then abducts her and takes her to his spaceship but has to hide her.

Lucy in the Sky is a very sweet story. The story has sex, but also has love. Lucy is irrepressible. The aliens have no concept of love, but Lucy teaches them. She also teaches their genetically engineered workers about love, life, and happiness. She does all this with an abandon for living and through kindness and a sincere interest in everyone she meets. Lucy even wins over two rivals who wanted "Three".

Some small unresolved aspects to the story was Vileda's "queen" reference and her quick reversal of attitude. However, I'll be on the lookout for Ms. Elsborg's new fantasy/PNR book called Perfect Trouble.

## Sarah says

?????????

4.5 stars - but rounded up to 5 because I loved Lucy so much!

An alien space ship crash lands in Lucy's garden, ruining her flower beds, lawn and even decapitates poor old Eros!

And from there on follows a funny, sexy, funny, sweet, funny, exciting and did I mention funny space journey? Lucy is nothing like any of the other abducted humans I've ever read about in any sci fi romance. She's my absolute favourite!

If I ever get so lucky to be abducted by Four (please, please, please), I wanna be like her!

Now, my only complaint is that it was too much sex. I know, I know... I never thought I'd say that myself, but there you are. I shall even repeat it, IT WAS TOO MUCH SEX. Eh, who knew there even was such a thing?!?!

Anyways, a couple of the humping scenes I could have done without. I didn't feel like they were needed and that it was a bit like watching an 80s porn flick, and that's what brought it down half a star for me.

Also felt that Hylls sexual relationship described in detail wasn't needed. Here I would also like to point out that the m/m relationship mentioned in the blurb, is between Hyll and his partner Zand, nothing involving Three.

Cause if you're like me (who don't like to share AT ALL), then you might have been a bit confused and hesitant to read this book, thinking the m/m was between Hyll and Three.

But after all, even though it all wrapped up a bit too neat and perfect, I still loved it and I especially loved the MC and Lucy's personality alone was worth a star by itself!!!

## starsaga says

### Best BE book for me!

Ever the outlier.....I found this book the best of Barbra Elsborg's books. I love Sci-fi erotica.....this one is the example by which I compare all others. It's a funny story, people.....BE skillfully manages to hot up space, make it a little silly and emo and throw in some thrill ride bits all without losing the point of the story and that is Lucy. She is adorable and one of the best heroines I have ever come across.....There's a Wodehouse feel to all of BE's books that are set in England or space, for that matter ....and it is just charming..... Three's a memorable hero too and makes space travel sound really interesting, what's more, Lucy adores him and their romance is just too nice not to read again and again.

---

## Louise says

(Erotica)3.5 stars

*"Mine," Three whispered. "You're mine."...*

*"Mine," he repeated,...*

with that word I'm a goner... \*sigh\*:)

Cute, light, fun, and sexy x10(I mean it, its sex overload!:) )

I had so much fun reading this! Love Three and Lucy, they're lovable characters...I Love Lucy, she might be talkative but she makes me laugh with her silliness even during sex and the way she talked to the plants was so cute and endearing. When she told Hyll about 'what is love' was truly heartfelt:D I adore Three, and how protective and possessive he was to Lucy in any way possible! their banter were hilarious, and I don't know how they find ways to have sex wherever they may be even in times of trouble Ha!:)D

I love the secondary characters Hyll and Zend..Wow! these two men were Hot...the pool scene was worth drooling for lol!:) )

There were only two conflicts in the story: whether Three is human or an Alien and how to get Lucy back on earth...Although the story focus too much on the scorching Hot scenes, the Author did not forget the character development and I love how Three and Lucy grow with each other throughout the story...
