**Don't miss this fan-favorite tale from *New York Times* bestselling author Sherryl Woods of finding love in unexpected places...**

Marilou Stockton frequently saw some odd things at her job as a postal worker in the dead-letter office. But when she stumbled across a grandmother's heartrending missive, one glance convinced her she had to seek out the writer's little grandson.

But Cal Rivers was no child! He was a man—a sexy, stubborn rancher with no intention of honorably mending his fences. As far as Marilou could tell, all of Cal's intentions were strictly dishonorable...and aimed at her. But while his anger might be valid, she knew there was more to life than holding grudges. There was forgiveness...and love.

### **A story to enjoy**

This book has something for everyone. Romance, family problems and the wide open spaces with horses and cattle. It was great to see Cal finally find the love of a wonderful woman. All in all, the book was very enjoyable.

I was upset and disappointed when I realized that this book was originally published in 1991 and rereleased with a new updated cover but not content. Cal's grandmother, Caroline, who actively runs one of Wyoming's largest, oldest, and most profitable beef ranch calls a 'computer' a "new fangled " gadget...Really in the Wyoming, where livestock and farms are mechanized/modernized if they are to survive in 2016. The content should be redacted and modernized to reflect the times .Also readers/purchasers of the book should have been made aware that it was a rerelease novel.

The novel was short, the plot and characters' behavior predictable, and dated. Tsk, tsk, Ms.Woods!! 2.5

Marilou works in a post office where she sorts dead letters. She is taken with a letter from a grandmother who is dying and trying to reach her grandson. Just losing her parents recently, Marilou takes a vacation to find this person and deliver the letter personally. Cal Rivers is not the young, little boy that Marilou thought him to be. Instead he's is a handsome, rugged and self absorbed man. As much as she tries to convince him to contact his grandmother, he is adamant about it. He wants nothing to do with past hurts of his family. Cal cares only about himself and his independent life style. He is though very interested in trying to seduce Marilou to make her run away and leave him alone.

I enjoy these type of books where the naive but determined woman softens the heart of an angry and self centered man and breaks down those barriers. Its a romantic story with tenderness and forgiveness.

Marilou works in the "dead" letter department of the U.S. Post Office and sometimes she comes across some very interesting letters. Normally Marilou just does her best to trace the address and get the letter on its way but this time she rads one from a grandmother trying to find her grandson. Marilou is in need of a vacation and decides to follow up on this and do her best to reunite this pair.

### **Dear Cal needs to run for it.**

Excellent premise, the dead letter from his dying grandmother and the postal employee who decides to track Cal down to return it. But I had trouble with the beginning when he walks away and she virtually invades his home and starts doing his laundry???? What! You have got to be kidding. Of course she stays and the story proceeds from there. Good writing, interesting characters. Nice read. I couldn't get past the female invasive beginning. Others may enjoy the takeover, not me.

## **Patricia Solla says**

Author Sherryl Woods gives the reader a story filled with love and laughter. She tells a tale of Marilou who works in the United States Post Office Dead Letter Department. Marilou receives a damaged oddly addressed letter. Feeling like she must find the addressee of the letter, Marilou takes time off from her job and goes in search of the addressee (Cal). The fun begins as Marilou drives to Florida, finds Cal and tries to get him to go to Wyoming to see his Grandmother. There are plenty of interesting characters involved in this story and there is never a 'dull moment' in reading this story.

The added bonus book is A Texas Rescue Christmas by Caro Carson. The story involves a young man, James Waterson III (Trey), returning home for his brother's wedding and a young woman, Becky Cargill (related by marriage to the bride), arriving to crash the wedding to escape her mother's manipulating her life. The reader learns a lot about Trey and his problems with what turns out to be brain injury caused by concussion and just what Becky puts up with living with her mother. Things go sour for Becky when the wedding is actually not going to happen as planned and she goes off to figure out what to do when she gets caught up in a freak snowstorm. Trey is part of the search party looking for Becky. The romance continues on from Trey finding Becky and their bonding together to keep her alive. The story comes to a very satisfactory conclusion and deserves its own four stars.

Entertaining; don't need to overthink it. Read it in between two books that require total attention.

A good one-day, rainy-day romance read. Typical Sherry Woods story. Strong characters and a feel good ending. Good way to relax between heavier plots/authors.

Entertaining, fun, and just loved the characters of this book. Marilou works in the dead letter office of the post office and tracks down the grandson of dying grandmother to discover the grandson is all grown up. Sparks fly for Marilou and Cal from the moment they meet when Marilou captures Cal's heart and leads him on a merry chase to find the meaning of family. Don't miss this story as it will charm you to pieces.
