The drama of Admiral Arnold lies in elements beyond his poetry -- yet the tone of Admiral's newspeak is perhaps the only language that will outlive the Memoirs of Zeus, within the context of untutored magic ... And we see a keen love for womanhood. Perhaps the latter is part of his theme, for Admiral has a love for female softness that transcends the fact that his mind wanders up every woman's dress, feels her crop and searches for her essence ... In the poet's own words: "Love both colored and blinded my eyes..."-- Ahmos Zu-Bolton II Poet, Professor, Literary Critic

I... got this from Goodreads Giveaways.

But... hmm... it's a novella alright. With old people going at it. I'll get back to you when I turn into a senior.
