I love this book AND it's author. The characters are so believable. Cars and writing are right up my alley, and Cheryl brings the story to life with a captivating enthusiasm. I can't wait to read more of her work!

I am reading this book now (have had it for a while) and I can't put it down! I am enjoying the characters and I love old cars. I don't know much about them, but this book is FUN! The characters are fun and great! I can't wait to read the end! I just found out this is a trilogy... I need the next one soon!

Maddie James says

fantastic book!

Sarah says

I liked the cars mostly. And a strong female character who knew what she was talking about when it comes to them.

Jane Stewart says

3.5 stars. Good mystery story. Wonderful character development. The weak parts were the conflicts between hero and heroine.

REVIEWER'S OPINION:

The story was good, an unfolding mystery with murder and secrets, and of course, there was a developing romance. I loved the following characters: Sally, Joe, Grandma, Justin and Ellen. One of the characters had a surprising redemption during the story. There were a couple of other interesting plot surprises.

One part bothered me. I have never liked it when the heroine says to herself, I expect him to leave later and I don't want to get hurt so I'm not going to let myself get involved. Sally was thinking this early on, and then Joe was doing something similar later in the story. Joe's version was that he had to return to his job in another city, and he didn't want to hurt Sally so he refused her advances. This wasn't a big deal to me, but it was somewhat annoying. In some stories, this might work, but usually I prefer heroes and heroines who follow their hearts instead of their (inaccurate) fears.

STORY BRIEF:

Leo is dead. The police believe it is suicide. Joe (Leo's son) believes it is murder and is looking for evidence of who and why. Something is going on related to selling fraudulent antique classic cars. Joe takes one of the classic cars to Sally who runs an auto repair and restoration service. She discovers something fraudulent about the car. Someone tries to kill Sally, Joe and others. A subplot involves Sally being injured nine years earlier and walking with a limp. She and her father are having problems related to her injury.

I'm biased because I wrote this book, but I can't help it. I love the hero, the heroine, and all the characters. They're "family" to me.

Carolyn says

I fell in love with the characters. I also have had a 'secret' love of old cars but never the knowledge to work on them. I hated putting the book down and couldn't wait to get back to reading it. Cheryl certainly brought every aspect of the book to life.

Georgina Sampson says

A cute little read. Don't worry you don't need to know anything about classic cars just need to enjoy a bit of romance suspense and murdervall rolled into one. Will look forward to reading more in this series

Omg I love the book all the characters and everything in it. The ending had me in tears and happiness at the end of it. This is one of the best books I have read in a long time. I am so getting ready to get the other two and start reading them right away! I couldn't lay it down and I was amazed because some of the other "free" books on Kindle were awful and extremely hard to read. I praise Cheryl Norman for a great book!
