September Moon Trina M. Lee

Death is coming for Alexa O'Brien.

Alexa must stop Shya from claiming Lilah's vacant throne. If the demon succeeds all hell will break loose. Forming alliances is a challenge. The vampires hate her and the wolves don't trust her. Rebellious vampire activity creates tension between Alexa and the FPA. It gets ugly when the covert government operation learns that Shya needs her as a sacrifice.

The strain of what's to come is weighing on both Arys and Alexa. Ary's need to protect her is as strong as his growing desire to kill her. Haunted by visions of her death at his hand, Arys can no longer trust himself. The strength of their bond is about to be put to the test.

Tammy "Z Girl" says

OMG!!! I love this series...but I especially LOVED this book. I am a huge Kale fan, always have been and this book made actually sigh with happiness. I know it seems weird to do considering the dark place Alexa is in at the moment, but I have waited a long time for this...yes I'm being vague, but can't spoil it for those that haven't read this one!! ❤️?❤️?. Can't wait to see where the story goes from here. In my heart, I have a feeling it will not be exactly an ending I hope for, but looking forward to the journey. If you are looking for a new series to dive into, I definitely recommend this one!! ??

Amelia says

I loved this book, I love these characters and the story just keeps getting better and better! Trina, I am completely addicted!!!! Thank you for writing a fabulous, amazing series!

Toni ~married to a hunk~ says

This book took me a long time to finish. It was fast paced but I felt like it was forced to almost finish the series. I'm not sure that I will continue this series even if there is only 1 left.

I adore this series..... To all book lovers out there, this is the Alexa O'Brien Huntress series and I strongly

recommend it. September Moon is the 8th book in the series and the story keeps getting more captivating as it unfolds.... Okay, when is the next one?

Rebecca Waldron says

once again I am left longing for the next Alexa book! Trina M Lee is by far, one of my favorite authors! Can't get enough of Alexa, Shaz, Aris and Jez! Oops, forgot about Willow and Kale! Waiting impatiently for book 9.

Michele Avery says

Ms Lee does it again! I so love Alexa, Arys, and Shaz. My only complaint is the leave you hanging endings. But this is still one of my current favorite series. Would highly recommend you you start at the beginning, but if you like vamps, wolves, demons, and angels then you would be more than happy!

Julie says

4.5 stars. First off I love this series and this book was a great addition. We saw good progression of the story and Alexa herself evolves too. My one complaint that I deducted .5 stars is the state of Alexa and her many

men. Make a choice already. We are 8 books in. I love a hot and steamy love triangle but I always feel at one point they need to end. I dont want to see any of the characters that I have come to love get hurt. But even in a paranormal/fantasy novel I find it ridiculous for 2men to share a woman and live happily ever after. The heroine rarely picks my fav hero in triangle love stories.. But seriously. Pick one already.

Tammy says

Does not disappoint

I have fallen in love with all the characters, well minus ones I love to hate. I don't write big, long reviews, and if I take the time to write anything's it's usually because I either loved it or hated it. This must be love.... Great characters, love the story. Exciting and adventurous, and thrilling, and even a little nerve-wracking! I enjoy this authors story very much. Great picture writing - painting a picture with words...Try the series.

Kay Callahan says

was bloody amazing and especially loved/ hate how it ended as I just wanna keep reading :-)

Sue says

The Alexa O'Brien series continues and as with the others its fast paced with plenty going on, Alexa has to deal with the Vampires, The Wolves, The FPA, The Club and Demon Shya, as well as Her vampires, Arys, Kale and Jenna and her white Wolf Shaz.

As the hound of God, Alexa is the only one who stands a chance at defeating Shya but can she find a way to do that before Shya can complete his plans to take over Lilahs throne using Alexa as a blood sacrifice? Life is changing for Alexa,Arys and Shaz none of them are sure how this new chapter they are facing will affect their bond but you can bet one thing, whatever happens next won't be dull.

I LOVE this series and can't wait for book 9
