**The beer's not the only thing getting tapped.**

## **CALLIE**

I have a secret. It'll get me fired if my boss ever finds out...which shouldn't be a problem except for one thing: my coworker, Reid Morgan.

He's cocky, aggravating, and that hot-as-sin mouth simultaneously makes me want to slap him and melt into the mattress.

Now that he's discovered my secret, he's doing everything in his power to take my job.

## **REID**

I have a problem: my pint-size spitfire of a coworker who's primed to take my promotion.

She's infuriating, sexy as hell, and I just can't seem to keep my hands off her.

Now we're both vying for the same position...and only one of us can come out on top.

## From Reader Review Tap That for online ebook

### Alex ? says

#### DNF @ 11%

Who lies on their résumé?

This heroine (and apparently some of my new colleagues), but anyway...

Who takes a job at a microbrewery and doesn't know anything about beer and actually hates beer?

This heroine (and fortunately none of my acquaintances).

And I wonder how many German readers these authors gonna win with this line...

**News flash: I'd take the blow job any day over beer.**

TSTL is not my genre...

Greetings from Munich, ladies and gentlemen!

**Prost!**

---

### Amanda says

Tap That is a fun enemies-to-lovers story told in dual POV. The writing flowed well and was easy to read. Reid and Callie are vying for the same management position at the brewery On Tap...he's worked there for five years, she was brought in to be trained for the position. He hates her because she's in the way of his opportunity but they're attracted to each other and can't keep their eyes and hands off one another. Let the games commence!

I liked the story well enough to breeze through it and finish it but there wasn't really anything memorable for me (I didn't even highlight anything aside from their first kiss :/ ) or punch of feelings to put it over the top.

I enjoyed their happily ever after, it was sweet and the perfect ending to their story :)

---

### ✿Penny says

I must've been in a great mood today cause this actually made me chuckle a few times and I didn't want to

strangle the MCs (*at least not too hard*) ?

This was a very light read perfect for those who like rom-coms and enemies to lovers stories, just be prepared for some seriously childish behaviour.

Safe.

#### **4.5 Bingo & Anti-Date Stars**

This was such a fun read! Light, well written, funny and sexy.

I have read RC Bolt before so I new I liked her writing style, but paired with another author was something new for me. I have no idea who bought what to the table but together Jennifer and RC have created a great book, I appreciated their ability to go from serious to funny and back again without going overboard.

Reid and Callie were a great couple and I liked Callies strength toward the end. Reid well, at first I thought sexy as hell alpha bartender, bring it! As the book continued he did get super sweet and maybe a tad too soft for me, that didn't take anything away from the story though.

I loved Mel Callies BFF also Bert from the Bar and Reid's grandma. These characters were so funny and gave the book that little something extra.

Looking forward to reading more from this author duo.

-Alicia, 4.5 Stars

### **Nissa | Of Pens and Pages Book Blog says**

#### **2 stars.**

It pains me to write this. I love the two authors individually so I tried so hard to like this, but I just wasn't feeling the book at all.

First of all, I disliked Callie immediately. I know some people oversell themselves on their resume, but this girl lied about being a beer connoisseur and got the job because of it. She doesn't even like beer! Throughout the story, she came off as entitled and immature. Even with the whole thing with her parents, I still thought

she didn't deserve the position.

While I was on Reid's side regarding the suitability to get the job, he came off as immature as Callie. They didn't communicate properly, so there lies the problem.

I felt nothing for the couple. I know they were attracted to each other, but I didn't feel like what they had was anything more than lust. They spent the first few parts of the book trying to one-up the other, and the rest they were suddenly telling each other stuff they never tell others, and I don't know. I didn't see enough of a connection for them to be emotionally invested in each other.

And the boss. This is all his fault. I'm so mad at this guy. He didn't see Reid's potential, made some stupid decisions, and blech.

While I didn't like this book, I'm still excited to see what the authors individually have in store for their readers.

### **Elle's Book Blog says**

**Release Date:** March 6, 2018

**Genre:** Romantic Comedy

Tap That is a fun little romance with humor and heart. Although a shorter read (somewhere between 200-300 pages) the authors give enough build up so that readers are able to feel the relationship progress at a good pace. All in all, I enjoyed this just as much as I have enjoyed Boldt's previous comedies. So I will continue to read her books in the near future.

### **More About the Book**

Reid has had his eye on a management position within the bar that he works at for a year. So imagine his surprise when his boss brings in an outsider named Callie to run the business (on a trial period of course). Reid's idea of taking back the position that belongs to him? A little sabotage! He just doesn't expect that this will bring him closer to Callie...

Callie needs this at On Tap desperately in order to get out of her parent's clutches. Unfortunately, while she may NEED it she doesn't know a thing about beer. Good thing she told a little white lie on her resume! But her arch nemesis (the tall, broody man who makes her panties melt) learns her little secret, she decides to learn what she needs to know in the business. This lesson brings more than just knowledge of beer though. And her and Reid become much closer than either imagined..

### **Overall Thoughts and Recommendation Status**

Overall, I enjoyed Tap That. I read it in about 3 hours, from start to finish, without putting it down. It's certainly up to par with the authors other books and the humor associated with it (even if it's only peppered throughout the pages) is phenomenal. I think many readers are going to get a kick out of this one and enjoy it very much. So yes, I would recommend it.

---

**This book will appeal to you if you:**

- Are a beer connoisseur
- Enjoy romantic comedies that make you laugh
- Like enemies to lovers romances
- Enjoy books with characters who are tough and independent

**Actual Rating:** 3.5 - 4 stars

**Recommended** Yes

### **Beneath The Covers Blog says**

**Hilarious, witty, and with a plethora of sexually-charged angst, *Tap That* is a fun and feisty enemies-**

## **to-lovers romance with the perfect mix of heat and heart!**

This book was a very enjoyable quick read. It takes the love/hate relationship and blends it with an intriguing forbidden romance, with an abundance of comedy throughout. The relationship between Reid and Callie sparks intensity immediately, an intensity that's geared more towards eliciting sabotage and hostility in the workplace. Their clashing vibes were like oil and water, that no matter how much they're shaken up, they'll never mix just right. But all it took was for both of them to truly look deeper into who the other person was, to know their true motivations and dreams, for them both to finally realize they're more alike than what they originally thought. The angst that simmered throughout the story slowly morphs into a respect and admiration, followed quickly by joy and heartache that neither were ready for.

**Passion runs wild in this entertaining and emotional romance! If you love a good angst-filled, comedic, and heartwarming story, then *Tap That* is the book for you!**

4 Stars!

## **Sharing My says**

I loved *Tap That!* The banter between Reid and Callie was hilarious! There was so much sexual tension, so I was waiting for Reid to Tap that. Callie and Reid were both very competitive, vying for the same job. Who would get the coveted position? Would the other graciously accept defeat, or stubbornly hold a grudge? I love RC Boldt's books, and this one with Jennifer Blackwood was fantastic!

---

## **Corrie says**

If you are looking for a read that has the angst to the max...Tap That is the book for you!

This is not the first time I have read a story by either of these fabulous authors. Each story confirms I was right to put them on my one-click list! I have been hooked since the first time and you can be sure you are getting a hot read, some heart games and maybe even some laughs when you pick up their work!

There is nothing better than a story that wraps its emotional war up with the personal success of the characters. You know that both will fight tooth and nail for what they want personally or professionally...all while trying to keep this thing between them going or being forced to end it.

Not only did I find myself all heart achy...but I giggled quite a bit throughout, which makes this an even bigger win!

Reading time for me was a little over 4 hours...which I binged. Couldn't have put it down if I had to, seriously.

Tap That was a major win for me. I am giving it 5 stars!

## **A Book Lover's Emporium Book Blog says**

Tap That was a fun frenemies to lovers read with just enough angst that leaves you wanting more. The character's chemistry was smoldering and intense with a lot of witty banter back and forth. I had a little trouble getting into the book but once I did, I could not put it down. I loved how the story unfolded; there were times I wanted to punch Reid and knock some sense into Callie but these two were just perfectly imperfect together. The side characters were just as great. I vote that Grayson gets his own book!

I'm a big fan of RC Boldt's but Jennifer is a new to me author and one I will be on the lookout for. Thanks to these two, I have now had the Spice Girls song going through my head for days.

---

If you are looking for a fun, sexy, swoon worthy book then look no further. This one is just that and more.

## **Jenny••Steamy Reads Blog•• says**

I really looked forward to reading this one. First, obviously for the hottie on the cover, and second since I've enjoyed this author in the past.

I'm conflicted in how to write this review. Here's the thing, I enjoyed this story, but I did not love it. I'll try to explain this without giving the story away... Bear with me.

We're introduced to Callie our main heroine in the beginning of this story. I. Did. Not. Like. Her. At. All. in the beginning and then of course she grew on me the more the story progressed. I felt as if she grew up throughout the book until she spilled her guts to a priest drinking beer in a bar. Really... seriously for real?? You don't pour your heart out with private secrets and information to a priest you don't even know, sitting in a bar, drinking beer. Just no. NO!

Okay so I overlooked that, let it go and moved on with the story. I got the ending I craved and I loved the groveling that Reid did. He definitely won me over with it and I may have swooned a time or two ❤️? He definitely has a soft heart that he guards with an ironclad case around it. But once Callie was in it, there was no shaking the chemistry and connection these two had. The banter between Callie & Reid made this book for me. It made me laugh and it made me fall in love with this couple.

This story was about finding love and chasing your dreams. There was some bumps in this story that I could have done without, but Overall it was an okay read for me.

---

### **Louise says**

I really enjoy the work from this author and this collaboration is also very good. This book has it's fair share of funny moments mixed with sexy times but there is some serious background stuff going on which takes it a little bit deeper then a shallow read. I found I was really invested in Reid and Callie and felt every good and bad moment. I loved that Callie seemed so real. She did and said things that made me cringe but mostly because I have found myself in similar circumstances. Reid is a tough guy with lots of muscle and some angst right deserved but my favourite times are when we see his softer side - awww. This is another very enjoyable read.

---

### **Bookgasms Book Blog says**

Enemies to lovers tropes can be tricky for me because there's a fine line between "sexy-mean" and "well now I just feel bad" mean, and let me tell you - it doesn't take much to make me feel bad. So, fantastic news y'all? Ms. Boldt and Ms. Blackwood got the balance just right. Because there are angry sparks flying here - but

they only lead nicely into a sizzling sweet burn and it was not difficult for me to jump on board with this romance.

There's a sort of quirky adorableness to this fun, light-hearted romance that sets *Tap That* apart from other books of this nature. It was Cassie and Reid's ability to be so *real* with each other that really drew me in, and the easy way they interacted - that is, when they weren't stubbornly butting heads (because...*enemies*). However, even when their heads were butting, the chemistry was on point. And Reid was that perfect kind of hero, his gruff and grumbly exterior blanketing that irresistible heart of gold on the inside.

I can't stress enough what a *fun* read this was. There were moments so perfect they literally made my breath catch. There were moments so funny I couldn't hold my giggles back. And there were moments I wanted to knock their heads together to try to work some sense into them - but over-all - these moments all equaled a delightful romance and a super satisfying reader experience. ~ Shelly, 4 Stars

\*\*\*\*\*

I was so excited to read *Tap That* as I have read both R.C. Boldt and Jennifer Blackwood separately and thought they were both delightful. So a collaboration by these two fabulous authors was something that got my grabby hands all crazy! And let me tell you this story was great! It was laugh out loud funny at times with a sexy hero and heroine and a boatload of fun side characters. I thought Reid and Callie had great chemistry, banter and a push and pull attraction I could not get enough of.

Anyone who knows me knows that enemies to lovers is my jam. It's a sickness. The meaner the better is my motto because the reward is always sweeter. *Tap That* was on the milder side of the enemies to lovers trope but was filled to the brim with a sassy heroine, alpha hero and engaging back and forth banter. I enjoyed Reid and Callie's spirited antics but also loved their sweeter side.

All in all this was great and I look forward to more from this duo in the future! Bravo! 4 stars! ~Ratula
