# Temptation's Edge

*Eden Bradley*

**Temptation's Edge** Eden Bradley

*What happens when you let yourself fall...*

Mischa Kennon isn't one to take it lying down, at least not until she meets sexy Connor Galloway, a green-eyed Irishman with an air of authority she finds hard to resist. While performing duties as maid of honor to her best friend, Mischa indulges in a casual relationship with Connor. She's surprised by the thrill of his dominance, and lusts for more feisty battles before surrender.

*...over the edge*

It's all fun and games in the exclusive club Pleasure Dome, until Mischa realizes Connor could master her heart.

*...and into temptation?*

If she gives in to desire, will it be too much to handle, or will it open her to a kind of love she never thought possible?

# From Reader Review *Temptation's Edge* for online ebook

## Em says

This the third in her series is actually the best of the three but still not that great. It is still mostly a romance trotted out as erotica. There is definitely chemistry between Conner and Mischa from the moment they see each other at mutual friend's engagement party in Seattle, he friends with the groom and she friends of the bride (the couple from book one). And because Mischa is from San Francisco, they both ascribe to the notion that they can have great sex in the few weeks leading up to the wedding while Mischa is in town helping with wedding prep and making plans to expand her business with another branch in Seattle. Mischa is a tattoo artist and Conner does sci-fi design art for game systems.

Both characters are commitment phobic as is usually the case. Both had rocky childhoods, her perhaps worse than his. Though in an odd twist he actually thinks worse of himself that does she. It's all just sort of old hat, blase`. Even the sex scenes are kind of lukewarm.

And my on-going gripe about this author is that her endings are never done particularly well. She just sort of plops a "TA-DA" down and calls it an ending.

---

## Angel says

*Temptation's Edge* started out really well, and the last few chapters were good too. I had trouble trying to keep my concentration on the story, between those two parts. I know the cause of it, though, and I will explain shortly.

I had no idea that this book was part of a series when I started reading it. It wasn't until Mischa was having dinner with two other couples (and a single Irishman) that I realized this was the third book. However, you can read this story as a standalone. Otherwise, I would have stopped reading it until I read the others first. It just irks me to read a series out of order that had a cliffhanger ending or unanswered questions from previous books.

Now, on to the reason for my loss of concentration. I don't mind reading about BDSM. This books goes a little further with the BDSM play than *Fifty Shades*, and that's OK. But, in the first part of the book, Connor takes Mischa to a BDSM club. I really didn't know what to expect, but I was curious. Although I know this is fiction (and sometimes I overthink things), I just couldn't stop thinking about that part. There wasn't anything bad, it simply wasn't my cup of tea. So, it was hard to focus on the story afterwards. I felt like, maybe, if that scene would have been a little later on in the book (after I was invested in the characters and their story), I wouldn't have minded it as much. When I stopped reading then, and finished the book the following day, I was able to enjoy the last few chapters.

I liked that Mischa and Connor were both headstrong characters. (Of course, he's a dominant. With an Irish accent, I might add. Even though that has nothing to do with anything I just said.) Their whole 'I-can't-let-you-hurt-me-so-I-will-deny-my-feelings' thing was starting to grate on my nerves, which is weird because I, normally, like the angst. Maybe it just went on too long.

Still, it's not a bad book. The plot was good, but I did read some reviews that said it was almost exactly like

the first two books. I wouldn't know anything about that seeing as how I haven't read them. I would recommend this book to Eden Bradley (Eve Berlin) fans and people who read BDSM romances.

---

### **Dina says**

I love Eden Bradley books so much but this one fell a little short for me. It was the third book in a series and unfortunately I didn't read the first two. Although this book can be read as a standalone I prefer to read them in order. I loved the female character Mischa she was strong, independent, successful and didn't think she needed love in her life, but then along came Connor the Irishman who also never had love in his life. The whole book is filled with hot steamy intense sex. Their whole relationship is basically intense and condensed. I just think it was a little repetitive and not very original. Still I give this book 3 Solid Stars!

---

### **Yvette Karns says**

Gave it a 3 star cause it was the same as the first two. Same story line just two different characters. Same BDSM play, maybe a little more intense but you already know what is going to happen to the characters.

---

### **Beth Streeter says**

This book was ok. It started out really good but in the end I kinda lost interest. I didn't really care for the main character a whole lot. Maybe smutty romance is wearing on me?

---

### **Joy Boutwell says**

This book is good-it has sex and a story but it's just like re-reading the other two in the series.

---

### **Leslie says**

I liked the story line and content of this book better than Pleasures Edge. My biggest problem though was the stories were too similar..... Too many of the same phrases and thoughts transfer between the 2 books..... Don't think I'll read the other book Desires Edge....

---

### **Greyland Reviews says**

[ rock hard abs and other mentionables (view spoiler) (hide spoiler)]

## **shartyrant says**

I will admit, this one is not one of my frequently visited genres to read. I picked this up at the grocery store (I kid you not) thinking it was something other than an erotica romance novel so it was a bit disconcerting to realize it was more focused on sex than what I expected.

Recommend this one for those who prefer a bit more romance with their erotica romance a bit darker with more emotional angst between the lovers. This is not straight up erotica, but more erotica romance because there is a constant abundance of the characters having inner dialogues about the emotional turmoil they go through after "bottoming out" after the sex. If you are expecting just a plain "hot, dirty erotica" novel then you might be disappointed with the more emotional dialogue each character has afterwards. If you want just a novel with hot sex with no real emotional connection or no real connection forged outside the physical, then you might want to reconsider as it can be a bit jarring to come to if you aren't expecting it.

Also, be warned that this is the third book in the trilogy. I have not read the previous two yet so I do not know if it makes me miss out on understanding anything on a more subtle level with appearances from previous characters or not. The sex can push the limits for some readers so please read the description of the novel on the book as it is mostly BDSM type style at certain scenes. Overall, it is mostly BDSM type style a bit more than say 50 shades of Grey (which I will admit, I disliked as I found it unrealistic, disturbing and hilarious ...because I have an odd sense of humor.. depending on the scene). I will admit, this is not one of my regular genres to read as I prefer a bit more mystery or plot than just dealing with the two lead characters learning about each other and having sex all the time. Oddly enough, I picked this one up at the grocery store thinking it was something else. I did like it enough to be curious about the author's previous books as well as to see what else she has got out there. Again, recommend for those who want erotica romance with a bit of angst, but the focus to stay on the two leads.

---

## **Janie says**

I enjoyed this story just as much as the first two in this series. Interesting MC's & kinky sex; good combo. 4 stars

---

## **Maria says**

The final in the Edge series book, and I felt the same about this novel as the rest of the series. Really had the potential to emotionally grab me and pull me into the story, but instead kept me at arms length. While enjoyable I just didn't feel emotionally vested with the characters, and really only finished it because it was due at the library.

---

## **Britanni Coldiron says**

Had a hard time finishing this trilogy I loved the first book but def didn't like the sec two I felt like it was the same story line felt like I read the same book twice.

---

**Jenn says**

Not as great as the first two in my opinion, but good.

---

**Sheila says**

Mischa is afraid of being like her mother. Connor is afraid of being like his father. When they meet the attraction is hot, mutual, and intense. Both need to learn they are themselves and what they have is special and precious. They need to trust themselves and know they have learned from the lessons of their pasts. I loved these two. Both are fighting internal battles and in the end realize they come into this relationship as equals. The sex is hot! The relationship is intense. I will be reading more of her.

---

**Ali Mears says**

loved it
