Who's afraid of the big, bad wolf? A new package for a best-selling Classic Goosebumps! Now with bonus features!

There is something weird happening in Fever Swamp. Something really horrible. It started with the strange howling at night. Then there was the rabbit, torn to shreds. Everyone thinks Grady's new dog is responsible. After all, he looks just like a wolf. And he seems a little on the wild side.

But Grady knows his dog is just a regular old dog. And most dogs don't howl at the moon. Or disappear at midnight. Or change into terrifying creatures when the moon is full.

Or do they?

## From Reader Review The Werewolf Of Fever Swamp for online ebook

### Rebecca McNutt says

It's been a long time since I've read a *Goosebumps* book (I know I'm too old to bother with them) but nostalgia is a powerful drug. This book for a middle grade fiction is actually very well-written and beyond the actual werewolf stuff, it's a story about a lonely kid experiencing moving to a weird and gross place and dealing with trying to make new friends.

---

### Catherine Ford says

It wasn't very good. I'd skip it if I were you.

---

### Carmen Toledo says

Está bien, sin más. Se nota que va dirigido a un público muy específico y estoy segura que de haberlo leído con 12 años me hubiera gustado más. Me sabe mal darle sólo dos estrellas... pero es que no me ha transmitido nada.

---

### Carmen says

This was interesting. Grady (12), Emily (16) and their two scientist parents move down to Florida so that Grady's dad's can do some experiments with 6 swamp deer he has. I looked up swamp deer on Wikipedia. They really do exist. But Stine claims they're from South America and Wiki says they're only found in India and are called Barasingha. They are cute. :)

When Emily and Grady decide to explore the swamp a little (Grady in shorts and sandals - moron move right there) they discover a small, crude wooden shack. And there is a swamp hermit living in the shack! With "amazing" black eyes and grey-white hair pulled back in a ponytail, he's an intimidating figure. Emily and Grady flee instead of introducing themselves.

Grady makes two friends about his age - Will and Cassie. Cassie is convinced that the swamp hermit is a werewolf. Will is skeptical. But he does tell Grady why it's called Fever Swamp. A hundred years ago, everyone who had been in the swamp developed a horrible fever that killed most of them. The ones it didn't kill went crazy.

Grady promptly comes down with a fever the next day. He starts hearing howling from the swamp every night. Other nights he and his sister hear scratching at the door. But when they open it, nothing's there.

A few days later a gigantic 100-pound dog appears. He's super-friendly and very affectionate with Grady. He has very blue eyes. Grady convinces his parents to keep the dog, which he names Wolf. Then animals start

getting brutally killed...

...

(view spoiler)

...

All in all, this was more of a mystery than a straight-out horror, in my opinion. Who is the werewolf? Is there even a werewolf? What or who is killing the animals? At one point I was seriously convinced Grady's parents were werewolves.

Stine's description of Florida and the swamps are excellent and a joy to read. I really like the hot, humid, swampy atmosphere he cooks up. That was well done.

I also liked Grady's parents banter when they are discussing werewolves. It's cute and funny.

I liked the ending. It was a good ending. Some of Stine's endings are very unsatisfying, but not this one. I was happy with it.

2'5/5

Típico libro sin más, que te sirve para echar el rato pero ahí se queda. Se nota mucho que está dirigido a un público infantil/juvenil y tanto el lenguaje como la trama y los personajes son muy simples. Sigue la dinámica de presentar un peligro, intentar hacerte creer que es el peligro final y en la siguiente línea descubrir que eran paranoias del personaje. Este aspecto se me hizo bastante pesado, la verdad.

El final me gustó bastante, aunque es predecible como todo lo anterior. Solo recomendado a niños que disfrutan con historias de misterio.

### **Mandewi says**

Yang diingat dari pengalaman baca Goosebumps dulu hanyalah 'seru' dan 'menegangkan'. Sekarang baru paham tentang jalinan cerita dan kalimatnya. Bagus juga untuk ukuran bacaan anak-anak. Ya iyalah, dulu juga suka kan bacanya?! :p

---

### **Danny says**

Ahhh, the Goosebump days. I would borrow so many of these from the library they seriously considered

extending my limit of books checked out at one time. R.L. Stine you were a reprieve from a harsh and dreary childhood in which my mind wandered far away from the troubles of the day. I stole books into my bed and read far into the night by the faintest of lights. I might have better eyesight were it not for you; however, I regret not one page or line.

---

### **Laura says**

Bueno, es entretenido. Supongo que si lo hubiera leído de niña me habría dado miedo.

---

### **Fiction State Of Mind says**

This is my first goosebumps book! I know many kids read these growing up but I was a fantasy & Science Fiction kid. So summer is a perfect time to read this books. I was drawn into Grady's story really quickly. His family has just moved to fever swamp to finish some important research with deer. The isolation is getting to Grady and his sister. Then a new friend named Will and a dog called Wolf enter Grady's life.

The fun is cut short by creepy howls in the night and mysterious animal deaths. All these threads lead to a nice twist ending :) lots of fun

### **Linda says**

Me: 3.5 stars

Son (age 10): 4 stars

Daughter (age 5): 4 stars

This was a fun book that captured our attention each time we listened in the mornings on the way to school. This was my daughter's pick but we all enjoyed guessing what was going to happen, if there was actually a real werewolf or if it was all a ruse, and we were all surprised and satisfied by the twist at the end. Thumbs up!

And the narration by Ramon de Ocampo was pretty good.

### **Carmine says**

#### **Il bacio della luna**

Poche volte nella mia vita ho provato una paura fulminante come quella vissuta nella scena jumpscare del licantropo sotto le coperte (ultimi minuti dell'adattamento televisivo).

Accantonati un attimo i ricordi, questo volumetto si difende bene grazie all'ambientazione indovinata nonché la sottile inquietudine che serpeggi nel lettore quando si sconfinata nei terrori della licantropia e affini.

Prevedibile e simpatico il finale.

### **Salymar says**

Who's afraid of the big bad wolf?

'The Werewolf of Fever Swamp' was the fourteenth (14th) book in the Goosebumps book series.

The plot begins with the narrator of the story, Grady Tucker and his sixteen year-old sister, Emily Tucker with their scientists parents. They moved in a new house in Florida near Swamp Hermit where deers are hardly found. The reason why they moved in Florida is because their father, Dr. Tucker, studied deer in Vermont where he acquired six (6) "Swamp Deer" from South America and now he tries to prove that DEERS CAN LIVE IN FLORIDA. The story continues with Grady and Emily getting lost at Swamp Hermit because they were following a weird slimy deer and a boy named Will.

The idea of having both scientists parents is downright cool but what if they didn't know that the one they're experimenting is their own SON!

---

### **Audrey says**

It's a fun, short spooky story.

There's a lot of buildup with some weird stuff going on, and then everything happens very quickly, and it ends. The chapters are very short, about two pages, and all those little cliffhangers kind of got silly. Still, it's a decent MG book.

### **Nelson Zagalo says**

Vi-me numa situação de ter uma hora pela frente e me ter esquecido do Kindle em casa, o que me levou a agarrar no livro que o meu filho andava ler, e assim li o meu primeiro livro da famosa série Arrepios (Goosebumps) do RL Stine.

É uma série escrita para pré-adolescentes por isso apresenta um terror contido, tudo ambientado num cenário de classe média americana dos anos 1980. Ou seja, apesar de nunca ter lido estes livros, recordaram-me muito do cinema que vi nessa década. Tal como esse cinema, pode-se dizer que tecnicamente conta bem a sua história, envolve os leitores através de uma boa gestão de suspense, sem nunca deslumbrar, tanto na forma como no conteúdo.

Agora tenho de esperar que o miúdo acabe de ler para comparar a minha experiência com a dele!
