Much as the book series set before this one (Negima! Magister Negi Magi) this book series has some perverted elements (such as Karin fighting in the nude at least twice before the book is through but no full frontal nudity) and earns its "Older Teen" rating thanks to that and scenes of violence. So please use your best judgement when picking up this series in case these things bother you.

Tota and Kuromaru are thrust into a challenge to prove themselves worthy of the UQ Holder organization early on in the book. This is a story of friendship, growing stronger, and determination as the two of them (although starting their friendship in a rough manner in the first book) help each other overcome all obstacles set before them. Like the Negima story the world is populated by an interesting variety of characters each with their own strength and personalities but unlike Negima the cast is much smaller at the beginning allowing for more character development early on as opposed to having focus on a few early on and fitting the other characters in the story though out the plot.

After establishing themselves as members of the organization (I hope that is not a spoiler since the title of the series is named after the group and it would not make sense if they didn't join) Tota and Kuromaru get adjusted to their new life and soon find themselves assigned to a mission with Karin to protect the people in the slums at the base of the Capital from people sent to muscle them out of it. If you like ver the top martial arts and/or magical attacks then this series is on the right path for you and if it is anything like the negima series it is based on I have a feeling as people get stronger you are going to see even bigger fight scenes.

Therr are several parts of this book I enjoyed but my favorite part in the book would have to be when Tota and Kuromaru meet Jinbei Shishido who is a humna that ate mermaid flesh long ago. Not only is he incredibly powerful but he reminds me a bit of Kyoraku from "Bleach" and explains the differences between the various immortals in the organization.

This is very nice the way they're getting stronger is very nice and they got out in just one month. And is nice how even if thery're inmortal there is a way to stop them.

Amanda Setasha Hall says

There's a lot of nudity in this and stripping immortals of their clothes, BUT... It oddly makes sense and is not done in a fan service way, and I super appreciate it.
This series is extremely hilarious and I'm glad I stumbled upon it.

Edric Unsane says

Volume 2 was a lot of fun with some minor plot and character developments.

Selena says

So... this is turning into a stereotypical shounen slog. It's got some interesting concepts, but there's so much info-dumping that it's hard to get through. The characters aren't interesting enough to pull me through this much "blah blah blah."

Joseph Young says

Well, there certainly seems to be a lot of excuses for women to lose all their clothes.

Elisabeth says

Wieder ein schöner Manga, die erste Hälfte fand ich nicht ganz so stark, wie Band 1, die zweite konnte aber wieder gut daran anknüpfen. Deshalb "nur" 4,5 Sterne, aber ich will die Reihe unbedingt weiterlesen :)

This is getting a lot more tense and dark. Tota and Kuromaru are taken to UQ Holder Headquarters where they are thrust into a deadly challenge, a test to see if they are worthy enough to become members of the esteemed UQ. While we know Tota is a vampire, we find out the world he belongs to is filled with the yokai and Kuromaru's secret is finally revealed (which makes the OT rating for this series appropriate for 16+). There is plenty of battle with just a bit of magic and it is much more mature in presentation than other shounen. They have been sent out on their first mission which proved to be violent and we don't know whether successful yet or not. The main character Tota adds the light-heartedness to the series, even though he is proving to be much more powerful than he thought, his attitude is laissez faire and remarks flippant. On the other-hand we are getting to know much more about the serious characters of his partners Kuromaru and Karin. This follows a lot of the common shounen tropes but much more serious and mature which is

reflected in the 16+ age rating. I like this!
