*Librarian's Note: This is an alternate-cover edition for ASIN B00BLNNS0Y*

Three young girls witness a murder—and make a pact never to tell what they saw. But when the woman's body is uncovered seventeen years later, the killer's faith in their promise is shaken. A few deadly reminders may be in order...

Samantha Beaumont knows it's time to reveal the truth about what happened in the woods all those years ago—until the accidents begin. Fear that the killer will shut them up permanently leads Sam on a quest to protect her friends and expose the murderer's identity. No one, certainly not the man she spent one memorable night with, will stop her.

Ethan Thorne has no reason to believe Sam is any more interested in a commitment now than when she ran from him five years before. Still, he can't resist trying one more time... When he realizes her life is in danger, he'll risk everything for a chance at love.

## From Reader Review We'll Never Tell for online ebook

### Leanne Davis says

The premise drew me right away. As teenagers three teens witness a man murder his girlfriend. He threatens to hurt them if they ever tell. They make a pact not to. Something that affects each one differently when the body is uncovered seventeen years later. The first story in this trilogy is Samantha who has spent much of the last years traveling to help people in disasters areas all over the world. Home now to rest she runs into Ethan, a man she had a one night stand with and then ran out on. Their relationship develops as the dangers of what Samantha saw that night so long ago starts to escalate. This is a well-written story with just the right mix of romance, danger and mystery. I thoroughly enjoyed it and look forward to reading the other friend's story.

---

### Jen Lynn says

This book was ok. It drew me in and kept me interested. The reason I found it just ok was due to the length and how quickly and neatly the pieces came together at the end. It was just too sudden. It was fun and suspenseful and then all of a sudden the mystery is solved and the story is over.

---

### CJ says

A really great book. Loved the dogs!

---

### Margo Hoornstra says

Three young girls hold a secret that may cost them each dearly. Such is the premise of Jannine Gallant's Secrets of Ravenswood series.

In We'll Never Tell, Ethan and Samantha have a past, but that doesn't necessarily ensure they'll have a future. One night with Samantha is enough to convince Ethan what, rather who, he wants with him the rest of his life. Samantha is not so eager to make a similar lifetime commitment. Because her life may well be cut short, the result of that secret from so long ago.

A sweet, sexy love story is set against the background of the actions of a known killer bent on survival—his own and no one else's—especially not Samantha's or her two best friends.

Bringing Ethan into her confidence for the sake of those friends, Samantha first learns to trust and eventually to love.

An author who excels at writing romantic suspense, Jannine Gallant doesn't disappoint with her newest release. And makes us readers waiting for what she does next.

### Ali says

Not sure what to say about this, I liked it, but it seemed to wrap up to quickly all it was missing was the big pink bow on top.

Sam and her friends witness an accidental murder as children and threatened by the murderer to keep quite or else.....flash forward to the future where all 3 girls are grow up and doing wonderfully in there careers when Sam accidentally finds the body of the women they witness being killed. Up until this point they have been left alone by the murder, now he is ticked and out to remind them to keep quite or else.....

Things move rather quickly as the murderer starts out with his "reminders" and pushes Sam into the arms of her new love, a one night stand that she regretted leaving in the 1st place, and then they catch the murder.

I really liked the plot, and the characters were like able I just think there could have been more buildup to the ending.

---

### **Alicia Dean says**

We'll Never Tell sucks you in from the first page. You almost feel like you're in the woods with those poor little girls. A very intriguing story with characters so real, they seem like they live down the road. The romance was electrifying, the suspense nail-biting. I love the elements of the ghost story woven throughout. Jannine Gallant did an excellent job of keeping me guessing until the very end. I can't wait to read the next two!

---

### **Kathy says**

I enjoyed this quick fast reading book. Had a nice romantic story to it along with some mystery and thrills. Good read..

---

### **Alison Henderson says**

I loved this taut romantic suspense novella (the first in the Secrets of Ravenswood trilogy) about three women who witnessed a murder as young girls and find themselves threatened by the killer years later. The romance between Samantha and Ethan is steamy, yet deeply heartfelt. Despite it's shorter length, We'll Never Tell is a satisfying, fully developed romance, and the Sierra Nevada mountain setting is so detailed you can almost smell the forest.

---

### **Emily says**

When they were young three girls saw a murder and in order to stay alive had to keep it a secret. Years later Samantha Beaumont has come home and the secret she has kept quiet is about to be unearthed. Now the killer is out to make sure she never reveals what she knows.

Entertaining quick read. I liked Ethan Thorne a lot, the chemistry between Samantha and Ethan just added another dimension to the story. Great read.

---

**Glenda Bettin says**

Wow another great series, love Sam and Ethan as a COUPLE
