**Where Sleeping Gods Lie** Yolanda Olson

**Content Advisory: The following story contains scenes of a graphic nature. These scenes are horrific and sexual acts that are occurring. Bloody goodness and dirty, vicious boys lie ahead. You've been warned.**

Logic tells us that when we reach the end of something, we stop.

Life is a game, a book; everything has an ending, but what if the end is just the beginning? My end came a long time ago and I hope you'll understand why I can begin again at that exact moment.

There are reasons these things happen. I'm not entirely sure what they all are, and I can name a certain few, but that would defeat the purpose of figuring it out. Everything should begin as a clean slate and end in flames. Nothing is salvageable if you really open your eyes and look at this putrid world. I was once taught that everyone deserves a second chance, everyone is wonderful in their own way, and everyone finds happiness.

I used to believe that because I had found my happiness. My sliver of sunshine on a rainy day. My cool, calm in the raging fires that spoke softly enough to quiet my malicious thoughts.

But there are only so many times you can roll the dice before you keep ending up with the same numbers.

# From Reader Review Where Sleeping Gods Lie for online ebook

## diana marcela Ballestas says

una historia diferente a lo que estoy acostumbrada, empecé su lectura porque su portada me llamó fuertemente y la sinopsis era tan ambigua que definitivamente necesitaba saber de q iba la cosa. He leído suspenso antes, pero nunca había sentido tal incertidumbre sobre nada antes, es un libro que por más que pasa y pasas páginas no tienes una idea clara de q rayos es lo que está pasando, haciendo que tu mente divague creando miles de teorías, cada una más loca que la anterior, esperando acercarte medianamente a la realidad; simplemente no puedes detenerte y cuando al final se descubre todo tu simplemente quedas en estado de shock, como esas caricaturas con los ojos muy abiertos y la mandíbula en el piso y diciendo '¿en serio? eso jamás lo vi venir'.

---

## Rodolfo says

No sé ni cómo comenzar, me encuentro en shock después de terminar este libro, creo que no había leído algo como esto antes, pero vayamos por partes; comencé a leer este libro porque su portada me llamo mucho la atención y su sinopsis ni se diga, una historia corta cargada de erotismo, drama, misterio, terror, suspenso que no puedes dejar de leer hasta saber cómo terminara, definitivamente no es un libro para todo tipo de personas y que puede herir la sensibilidad de más de uno, al comienzo todo parece confuso y puede que como yo sientan que la historia no tiene pies ni cabeza pero conforme pasan las paginas todo se va volviendo más claro y con un final que si bien un poco predecible, no deja de sorprender. Me ha gustado pero no puedo decir que me haya encantado por que parecería que soy un psicópata por gustarme todo lo que plasma la autora en el libro, me siento perturbado por tal final y que aun así me dejo con preguntas que jamás serán respondidas.

---

## Barbara Gartman says

Yolanda is a masterful writer! She knows just how to draw you in with each bread crumb that she leave to lead you to an ending that you won't see coming. I became more and more engrossed with ever turn of the page and by the end I was left in shock ( the jaw dropping kind of shock) when I was finally able to see how all the pieces fell into place. You can't help but love Fai and Koval. Then there's this other character, who shall remain nameless, that you will dispise like no other.

From beginning to end I had a horde of emotions that was just too hard to keep track of. From hate to empathy and so much more. Trust me you want to read this for yourself to see exactly what I mean. It'll have you in such a tail spin that you won't know what to do with yourself by the end. This is by far my most favorite book(#1)! I loved it so much that I read it twice pretty much back to back! I so very highly recommend reading Where Sleeping Gods Lie!!!

### **Mona williams says**

another amazing strange book you wrote! these books are awesome. keep you guessing until the end. yes i always wondered what happened to exxie. its a book that keeps you on your toes and keeps you guessing what will happen next . thanks for giving me a chance to read this book!

---

### **Linda Cotter says**

For Yolanda's first M/M, M/F/M book, this is absolutely what you would expect! A man, still looking for the girl he fell for so many years ago. Two men who love each other. A woman who gets caught up in the middle of them. Its absolutely riviting, and in true Yolanda fashion, it'll leave you questioning what you read and needing to read it again. Amazing!

---

### **Roxs Goncalves says**

MIERDA. MIERDA. MIERDA. MIERDA. MIERDA. MIERDA.

\*Hours Later\*

Debo decir que no sé muy bien cómo hacer esta reseña. Sé que debo decir qué fue lo que me gustó como para haberle puesto esa puntuación, pero no sé cómo explicar la trama.

Es complicada, y mucho más extraña que el libro de "Wink Poppy Midnight", pero a la vez es diferente.

- 1- No es para menores de edad.
- 2- No es para mentes sensibles.
- 3- Debes saber que hay connotaciones homosexuales entre los dos personajes principales.
- 4- Debes saber que hay un misterio muy fuerte que desentrañar a lo largo de las casi 100 páginas que tiene el libro.
- 5- Es confuso al principio, y no es sino hasta la mitad que empiezas a ir captando qué está pasando.
- 6- Puede que te deje más preguntas que respuestas al final. Y no hay continuación.

En lo que a mi respecta, me fascinó. Y Fai fue el personaje que más amé del libro. Aunque claro..., a mí siempre me gustan los psicópatas.

---

### **Alicia Huxtable says**

**Well written**

While I went into this book not knowing what it was about, I quickly worked out it wasn't going to be a happy ending....well not exactly anyway. It was well written though

---

### **Mandie (Naughty Book Snitch) says**

I love dark and twisted, I love the bloody and gruesome mind fuckery and this was not that story. Im sorry, but I was totally bored and I had no clue where the fuck this was going and what the point was. In my opinion, there is way too much untold story and too much unnecessary crap (*page filler*) thrown in. The detailed grocery shopping? Why? What was the point?

You get a tiny bit of back story on Koval in the prologue but its not enough to tell the story of his obsession, where Fai comes from, or any actual solid information about Exxie. The characters are totally one dimensional and completely underdeveloped. I also don't get the title. The sex is underwhelming and I found myself drifting off while reading it. However the one scene with Koval, Fai and Angie was pretty decent.

*"“You may want to get dressed. I can still smell you,” I say to her with a smile as I walk out of the living room. I don’t mean it in a derogatory way, I would just prefer not to smell pussy before dinner is all.”*

The **ONLY** good part is the last 9% of the book. That is when everything happens. But why? Why only in the last little bit of the book? And it felt rushed! Its like the author got bored herself and just ended it.

(hide spoiler)]

I don't know, maybe my expectations were too high and I let myself down? This author is clearly talented and this book has a ton of fantastic reviews. So, if you are reading this review, dont take my word for it. Read it for yourself and form your own opinion.

### **Anna Jimenez says**

como describirlo?

rudu,retorcido,tetrico, oscuro, perturbador.....e increblemente sórdido

Esta mal que diga que me encanto? que disfrute cada palabra....cada segundo que seguía leyendo..que sonrie

hasta el final....hasta la ultima gota de sangre?  
realmente creo que estoy mal de la cabeza (culpo a las puertas de ello).  
y no le puse 5 porque fue DEMASIADO corto.

### **Danielle Harris says**

Mind blown. This is a hard review for me. Nothing in mu review will give this book justice. I'm still trying to wrap my brain on this story. It's dark and has twists, but it's much deeper than that. This is a milder book then what I'm used to from this author. Yolanda pulls you into the couples lives and makes you feel like you are actually there with them. I don't know how this woman can write so many books so fast and every single word she writes just brilliant.

Koval was shattered at a young age because of a girl named Exxie. Now at the age of 25 he is with his lover fai. I'm not going to lie the steamy scene between these two was kinda hot. Koval brings home a girl named Angie. She reminds Koval of Exxie. Will Angie survive?

I received this arc for my honest review.  
Thank you so much for letting me be part of this.

### **Michelle says**

#### **ARC REVIEWED**

Yolanda Olson is now on my one click must list, I go in blind with her books, never read the blurb because I have no doubt she will drawn me in and the tangled web she wraps me in will always blow my mind!.

Where Sleeping Gods Lie is another twisted read and what you think happened and who is the alpha is totally turned upside down.

Koval & Fai are hot but also all kinds of wrong I think I will add them to my BBF list for sure :)

This story contains m/m and some m/f/m action that is HOT!!!! and a pleasant surprise until Yolanda does her thing and then things get brutal.

"How can someone miss something they never truly had in the end" << mind games love Yolanda's mind games.

---

### **Samantha says**

I was already intrigued by the end of the prologue of this book. The theme of "the one that got away" with Exxie and the "what ifs" that Koval had about if she had stayed really drew me into the story. There were

many eloquent words within this story, which I found soothing coming from an author that would no doubt be wrecking my mind soon enough.

The more times I read through it as a Beta, the deeper I was pulled into the story. Koval and Fai will stick with me long after I am finished with this book.

The passion with which Koval longed for Exxie was very compelling. Fifteen years of yearning had done things to his mind that frightened me a bit. Koval's current obsession in the flesh was Fai. He was very protective of him and any perceived slights toward him. By the end of Chapter 4, I was worried about how dark things were going to get for Angie and what she had truly gotten herself into by going home with Koval. The way she unknowingly continued to set him off made me wonder how far things would escalate. It got a bit anticlimactic at that point when Fai talked Koval down from his rage, but I was still curious if that would be the last I would see of Angie. Koval and Fai's coupling was powerful, but how they acted together still showed the potential weaknesses in their union. It was a back and forth of emotions between them and had me wondering about how far each one of them could be pushed.

The return of Angie was something that I had been curious about and I was eager to see how she continued to fit into this story. It appeared that she had seen the errors in her previous behavior, but would it be too late to undo what had been done? The fact that she took pause to remember her mother's advice about strangers when leaving with Fai was a great foreshadowing of what could go wrong. When they reached Fai's house, the pace and intensity of the story really picked up and I was on the edge of my seat about what was going to happen next. Olson did a great job of hooking me in the suspense.

When Fai brought Angie to the cabin, I was very eager to know whether or not that action would end up causing strife between him and Koval. I could see how stubborn and set in his ways Koval was, and how he may or may not want to go along with the game, which could be bad for Fai in the end. I loved that I was constantly on pins and needles in anticipation.

Koval and Fai's protectiveness over one another and the jealousy they feel when interacting with the people at the stores really showed their feelings for one another and even gave a glimpse of the possible depths they are willing to go to for one another. When Koval confided to Angie why he was interested in her in the first place, coupled with Fai's comment to her about cooking a meal as if it is her last day on earth, were very ominous events in the story at that time. Angie's fascination while watching Fai and Koval together felt so forbidden and yet again made me wonder what would happen if they noticed her. Would they be angry? Would it ruin the mood for them? Then when she began creeping closer to them, my curiosity intensified. When she was finally found out and Fai touched her, I knew the fireworks were about to begin. Things escalated quickly and then when everything was finished, it felt so empty. I wondered how Angie would respond to that. The discussion over dinner intrigued me even more.

Even when the bad things finally did start happening, I remained on edge until it was over. Olson's writing always has the ability to throw me for a loop at any time. The ending of WSGL was wow-worthy. It wasn't what I was expecting, but perfection nonetheless. When I got to the end, the title of this book became even more stunning to me as well.

WSGL had characters that made me care, suspense that kept me constantly on edge, and a darkness that eventually consumed it all. Kudos on another fantastic book.

---

## **Lis Garcia says**

Let me just tell you, I love this story and it is now in my top 5 favorites from this author. The connection, the chemistry, the just overall raw emotions of Koval, Fai and Exxie will make you not want to put the book down. There is a scene with Fai in sweatpants and heeey. ;)

There are twist and turns in true Yolanda fashion.

The book kept me guessing, gave me feels, made me say, "Oooh, hey, Aww, No way, LOL, oh dear, ouch and WOW!"

5 stars for me.

#TeamFai.
