## Angelica Died Jill Rowan

What if you make a life for yourself, but it's in the wrong time?

After her mother's death, aimless recent graduate Angelica Graham learns she has an aunt who has been in care since she was brain damaged in a mysterious car crash in 1966. Convinced that her Aunt Grace is fully aware but locked inside a helpless body, Angelica tries to discover what really happened to her.

While visiting the hospital where Grace once worked as a nurse, Angelica has one of the strange hallucinations she's been experiencing since her mother's funeral. Only when she opens her eyes afterwards it's not 2013, it's 1965. She's not Angelica any more; she's Grace. And the journey is just beginning.

### **Leila says**

This is one of the best books I have read this year and I am going to see if she has written any more. Highly recommended.

Unique very personal tale of someone who sort of is and then isn't and then is and then isn't...

Jill Rowan doesn't disappoint. :)

The only thing I felt would have been even more interesting is to ask the meta question .. Just who are we?? Really. But that would have taken this story out of its frame. And the book would have been totally different. So this is a story and that is the question in my own mind after reading it.

I loved it! Never read anything like it... And was so wondering how it would all turn out in the end!

#### **Fantastic**

Really enjoyed this story. Not a real fan of time traveling fiction but the story made sense and pulled together perfectly at the end.
