Before the Gods K.S. Turner

Before the Gods: A breathtaking cat and mouse chase full of revelations and suspense, told from dual perspectives, in alternating chapters, as the human Tachra searches to find her makers and the Kutu makers search to find the last of the Old Ones. Fate and choice twist through the plots, intensifying as their paths grow closer. Together they open doors to the oldest worlds and potential devastation within. An unlikely team; a mute prophet, a damaged sensitive, and a wayward leader, hold the fate of all worlds in their hands. But, the ultimate choice belongs to the innocent. Together, they started the battle for life, and together, they made our world the way it is today.
