“Welcome to Hell, donna.”

Wowza! My mind has **OFFICIALLY BEEN BLOWN!**

The moment I read the blurb for **BLOOD & LIES** (A Twisted Duet Bk 1) by Bella J, tremors of excitement coursed through me and I could not wait to devour this book! And once I finally dove in, it exceeded every expectation. This highly addictive mafia romance was chock full of so many sinfully depraved twists and turns I was on **SENSORY OVERLOAD!** There is the perfect balance of spine-tingling suspense, wickedly sexy kink, palpable romantic tension and adrenaline-pumping mafia mayhem to whip readers up into a lather!!

The storyline is oh-so-**DARK** and **DELICIOUSLY SINISTER!** Castello, the newly appointed boss of the Fattore mob family, is hell-bent on exacting revenge against the rich and powerful Linscotts. The day he watched his father and identical twin brother, Carlo, being lowered into the ground he had vowed to avenge their deaths in an eye for an eye brand of justice. And the woman who would pay was beautiful heiress Tatum Linscott, the spoiled rotten daughter of the man responsible for destroying his life. His family had been broken because of this woman and the choices that had been made when she sunk her claws into his brother, which led to his untimely demise. But before her blood would be shed by his merciless hand, she would suffer his wrath in cruel, merciless ways.

“Tatum Linscott would never know peace again. This all would be her payment, her atonement for what she has done, for what she has taken from me and my family.”

So after three months of meticulous planning, her day of reckoning had finally come. The pampered socialite had been kidnapped and taken to his compound, stripped of her fancy clothes and material possessions, dressed in a rags, and locked in a cold prison cell until her execution day came. When she awoke from her drug-induced slumber, terrified and desperate for answers, she was treated as a lowly prisoner--his personal pet--to do with as he pleased.

He hated her with every fiber of his being but what Castello hadn't counted on was that his cunning prisoner possessed a strength, an inner fire that inflamed his twisted desires. As it turns out his meek “little mouse” was far from weak. The way she stared at him with her perceptive blue eyes as if she was looking right through him, seeing all his secrets stripped bare, unsettled him, and the more she fought him, pushed him, **PROVOKED** him, the more she awakened the monster from within.

“Keep fighting me, little mouse. Keep fighting me until your last goddamn breath. It makes me want this so much more.”

Tatum had never been more petrified in her life, but there was something in her beautifully savage jailer that called to an elemental part of her. How was it possible that she could ache for this dangerous criminal, who was a dead ringer for the man who had shattered her heart? Why would her body react so sinfully toward the dark, angry tormentor who had the ability wreck her with his wickedness while he relished her demise?

“He was a predator—a vicious hunter who had the power to entice, ensnare, only to let you meet your

doom once he had you in his clutches. Yet he made me curious, wanting to know what exactly would happen if he managed to bait me, to lure me into his trap? ”

And as they engaged in a deviant game of cat mouse, where Castello vowed to break his captive into submission before destroying her completely, while she planned to fight for her survival by wielding her most powerful weapon—her sexual sorcery--over him, the lines become blurred over who was the hunter and who had become the prey.

HOLY BLAZES! This book consumed me from start to finish and I am utterly bewitched by Bella J's dark, entrancing, high octane style of writing! She knows how to weave a darkly sinister tale that electrifies your heart, taps into your darkest, most taboo desires, and leaves you all aquiver!

I was swept up from start to finish by the fiery tempest of hate and lust, rage and desire, fury and need. There was such an enticing blend of raw, explosive emotion and chilling suspense that I was biting my nails one minute and **SHIVERING** in delight the next! There was so much pathos and pain, lust and longing, backstabbing and treachery, I felt as if I was watching a Shakespearean play unfold.

The chemistry and mounting sexual tension between the hero and heroine was so scorching hot they were like a stick of dynamite that could detonate at any moment! In fact, the hyper sexy slave/master power exchanges are among the most scintillating I have ever read and the sex scenes were combustible!

Castello was such a deliciously dominant anti-hero...so passionate and predatory, uber volatile and **POWERFULLY MALE**. Yet if you peel back the layers you find a tortured man who may possess dark, demonic desires but ultimately is no soulless monster. Blinded by grief and rage, he felt honor-bound to avenge his brother's death yet was crushed under the weight of bearing the responsibility of running the family empire.

“Unfortunately for me, my brother's birthright had become my curse, and now I had to carry that curse up until the day I finally take my last breath.”

There was palpable tension throughout as Castello waged an internal war between his fierce loyalty to his family and his traitorous desires for his hauntingly beautiful prisoner. Unfortunately, his plan of breaking his little mouse was working...almost **TOO** well. Because he was breaking alongside her and was shaken to the core by the thought of love slave who was slowly becoming an addiction he couldn't live without. Up until the very end it was unclear whether our deeply conflicted hero would carry out Tatum's death sentence or lay down his life to protect the woman who aroused his dark, primal passions.

I also loved the heroine's tortuous internal struggle as well. For now matter how much she feared and loathed her cruel captor, she **CRAVED** his dark dominion because it stirred up her deepest, most sordid desires. And in his own demented way, her harsh master made her feel alive. He **OWNED** her pleasure and her pain!!!

“He was the man whose sole purpose was to destroy me, yet his touch made me feel like it was the only thing that could save me.”

The plot is thrillingly fast paced, many secrets and shocking revelations are unveiled throughout, all leading up to a shattering climax that was so jawdroppingly intense and gutwrenching it gave me heart palpitations! I found the ending to be immensely satisfying, though fair warning...it does end on a semi-cliffy. So now I am chomping at the bit to find out what spine tingling thrills and dark wicked pleasures will be unleashed in the denouement, **BLOOD & VOWS!**

Final word? **Read. This. Book.** It is bloody brilliant!!!!

5++ Dark and Sinfully Twisty Stars!

Carolyn Reilly says

Hot, dark, unputdownable!

Wow, I just love it when I find a new-to-me author, have no clue what to expect, and they go ahead and blow my mind!

Castello and Tatum have the most insane, disturbing and emotional journey in this uber-hot mafia romance!

Their story is not for the faint of heart, but if you like dark and twisted reads, this is for you.

I loved the writing, the characters were diverse and multi-faceted, and the suspense was edge-of-your-seat. I almost read the book in one sitting and can't wait to find out how this enemies-to-lovers journey continues. Blood & Lies is book one of two, but there's no cliffhanger ending which I greatly appreciated.

Insanely Dark!

Bam! All my feels are so fried!! I don't read a lot of books in this erotic genre of extreme dark Mafia romance, but this part one of two is the darkest of the darkest thrill reads, and undeniably the most bone chilling story that I've ever experienced. Bella J not only brought the seriously sexy heat, but also the most engaging brutal intensity to this story. Castello, the edgy hero with the blackest revenge filled heart, captures Tatum, a heroine with the purest, kindest spirit, and they have the most unimaginable, unexpected and torturous journey ... it's devastating, lascivious and seemingly inescapable to them both until the nail biting very last page ... talk about a book hangover! I'm almost afraid of reading the sequel, but a part of me can't wait either!

Crazy-Emotional-Trigger-Filled Must Read!

I Voluntarily read this ARC for a review

Deborah says

3.5*

I'll be honest I was a little wary starting this book since it came with a warning stressing it was a 'dark

contemporary romance' and I don't like my books too dark.

'I've waited months for what was about to happen. I've dreamt about the moment when she would realize she no longer lived, but only existed. Soon she would discover there are worse things to fear than death, and that eternity in Hell would be a far lesser punishment than what has now become her world. Her world now only consisted of one thing...me.'

Castello finds himself in a position he never thought or wanted, having buried his brother and father he's now Capo and he wants revenge, revenge for the murder of his brother and subsequent death of his father and revenge for the fact that's he's where he didn't want to be, in charge his entire life has changed all because of one woman, Tatum Linscott.

After months of observation he's finally got Tatum exactly where he wants her and all his anger and frustration is aimed directly at her he'll make sure she pays.

Tatum wakes up in windowless room dressed in an old rag, she's hungry and thirsty and sees Carlo for the first time since he disappeared but he looks different, harder and darker this isn't the same soft gentle Carlo she fell in love with.

"My name is Castello. Castello Fattore." He leaned closer, his gaze never leaving mine. "And Carlo was my twin brother."

'I studied his face, scrutinizing every contour, every inch...his eyes. And then I noticed it. Apart from the scar, the pupil of his one eye was elongated. It was easy to miss since his irises were already dark, but I saw it...and Carlo didn't have that.'

So with his brother Vico, mother and family behind him Castello is focused on revenge but deep down this isn't him, something about Tatum calls to him, did she really love Carlo, did she still believe he was alive. Castello isn't the cold hard monster his mother wishes he was but despite his questions and his confused feeling for his prisoner he must do what's right for the family.

Now this this book was nowhere near as dark as I expected and for that I'm truly grateful and it made for an interesting read but as always I had a couple of small issues.

I know she's hungry and thirsty but still at some point especially considering when she was drugged and taken she'd been drinking all night she would surely need to urinate but there's no toilet or bucket mentioned.

'Concrete walls decorated with nothing—not even a trace of paint—surrounded me. It felt cold and damp and empty. Besides the bed and a chair in the corner, there was nothing else in the room. It was grim and completely dismal, which did nothing to ease the panic that rapidly rose inside my chest.'

A small point and maybe I'm being picky but surely it would have added to her humiliation to include this.

(view spoiler)

This is book 1 of 2 and while things are left open I don't consider it a cliffhanger as such, I'm happy with the way it ended and while I've enjoyed this read I don't feel an overwhelming need to continue on and read the next book, that's not to say I won't but as it stands at the moment that's how I feel.

Five amazing stars!

Who said blood is thicker than water?? Get outta here! In the world of the Fattore family, blood means nada!

This story reminds me of a combination of fabulous Friday night shows from the 80s. Dallas, Dynasty, and Falcon Crest. Intrigue. Drama. Jealousy. Greed. Hatred. No trendy "bad boy" vibe in this dark read. Castello is NOT a bad boy! I am proud to confirm he is the perfect combination of dark, broken, and out of the friggin loop. His discoveries bring pain but also relief. Tatum is the ummmm.... Fattore special. Castello's actions toward Tatum are brutal. Although brutal, those actions confirm the language their souls speak. Yeah what their souls should have done was whisper because two important players are coming like Ali Baba and the Forty Thieves! I wasn't ready for the level of greed and deceit. Didn't see it coming.....at all.

Soooooooo where do we go from here? WAR!!! Woohooooo did you get chills or what?!!!!

This story details dark subjects that may not be suitable for sensitive readers. Although beautifully written, this story is dark and should be read with caution. This is book one in a two book duet. I'm waiting on the second book like it's a "he went to Jareds" diamond!

Five amazing stars!!!!

Snow says

4.75 "Blood vs. Lies" stars

So, this was indeed presented as a dark and twisted romance with scenes of public humiliation, abuse and sexual situations that may be triggers...and what a fuckin rush it was!!!

Tatum Linscott's life has changed in an instant as she wakes up in a small dark room staring at the eyes full of hatred and rage. The eyes of her captor looked familiar and yet they were not. She's confused and lost and scared.

I knew nothing, I chose to know nothing. All I wanted was my drawings, my art, getting lost in my own world of colors, contours, and my vivid imagination

She would soon find out the reason she's been held captive expecting the ultimate punishment for the crime she hasn't committed.

Soon she would discover there are worse things to fear than death, and that eternity in Hell would be a far lesser punishment than what has now become her world. Her world now only consisted of one thing...me.

Castello Fattore has planned this for several months, carefully strategizing, step by step, it was supposed to be only the beginning of the revenge he and his family planned to carry out, as a retaliation for his twin brother's death, that followed by the death of his father, leaving him the next in line to take over the position of the Boss.

Our family had been torn apart, and now it was up to me to put it all back together. My life was no longer my own as I held the future of everyone who once served my father in the palm of my hands.

the pent up hurt, anger and constant fuel of rage pushed upon him by his mother and younger brother, turns Castello into a hardened, cruel monster inspite of his own tendencies of not being this way. BUT he has no choice but to exact the *promise* of vengeance.

I felt nothing. No remorse, no regret. There was nothing inside me that even remotely resembled any kind of sympathy or emotion-only complete emptiness.

yet he was a *shattered mozaic of grief, guilt and anger* mixing inside of him stirring his own dark desires that lingered there on a tiny thread and that fact that he liked a certain kind of women to satiate this dark need, he found his captive weak and pitiful yet she defied him in little glances of her eye, inspite of being scared of the looming fate,

I loved seeing the fear in her eyes, witnessing as it ate away at her soul.

but her defiance, no matter how small, only stirred more rage in Castello to fight within.

This entire goddamn game just kept on feeding, taunting and teasing every ounce of desire I had for the darness, for the forbidden. And God knows she had forbidden stamped all over her.

What he sees in Tatum is a person that hides a dark desire of her own beyond the beautiful features and the allure to let it out is painful not to succumb to it.

"This is wrong on so many levels, Castello."

"Which is why it feels so fucking good."

I loved how she looked at me with hate and lust, rage and desire, fury and need.

Tatum could not surpress the need anymore, even though she hated him, not knowing the reason why she 's being held, tortured, humiliated, abused, punished and then totally submitted to the one man she could not give in...but the need and the dark that consumed her and crushed the resistance of her will, taking them both into the abyss of undulated passion seeking deliverence somewhere in between pleasure and pain.

We are completely fucked little mouse..in more ways than one..

This was me, this was her, this was us. These moments where we consumed each other, these were the dark moments that defined us both. It's in these moments we escaped, embracing our inner demons, our depravities, and forgetting about the world that so eagerly judged and destroyed.

We might be enemies, but somehow whenever we were this close, it felt like we were the same - the same creatures craving the forbidden.

BUT then the truths come surfacing as the revelation sink in and Tatum has to cope with the lies, lies, lies from the man she thought she loved, that she thought he loved her BUT betrayed her instead, her own father played a role of shattering her dreams to tiny little pieces...and yet she could not deny the fact that she gave her bare body, mind and soul to Castello,

BUT one lie doesn't come alone, it brings the army of many more until they intertwine the suffocating web that blinds you into submission thinking one thing but doing it for the wrong reasons...and Castello would find that his own family he vowed to protect and obey its laws stood for nothing but the rotten flesh of lies, rage, selfish and malicious intent and sickening vengeance...and he would have to make a choice in the final downfall for them all...

This was retaliation, vengeance, payback - and all because my actions protected something worth protecting. Her.

This would divide one family while shattering another BUT the outcome would yet to be revealed...

This is my first book by this author and I was amazed by the *effortless writing and the easy flow of the storyline*, that was *thrilling, enticing, passionate, dark and gritty* and even though I never once romanticized the main characters, I felt every sense of their tumultuous struggles to fight off the cravings of darkest needs against all reasoning and yet they both succumb to each other out of recognition of the same deepest desire that goes beyond emotional label we call love. It's a bond that surpasses the very same notion we hold dear.

I am so looking forward to finding out the outcome of the upcoming events in the next installment.

This book reminded me a little of *The Dark Duet* by CJ Roberts. It's a dark, captive read, so it's intended to make you hate the male character, yet part of us is as drawn to him as she is. Castello is a troubled character, torn between what is right and family loyalty. He struggles to see himself as anything but a monster, although it's a struggle to ever view him as one. Tatum is a tortured individual who doesn't know how to deal with her intense feelings involving everything and everyone around her. They both see themselves as tainted, but find a twisted solace within each other. There's no happy ending for these characters because this book is realistic and life doesn't always fight fair. Overall, I took away a star because I was really sad about Carlo situation, I wish it would've been different than it was. I thought the book was over, I could've handled that as a conclusion. That sneak peek into the next book though...I am so intrigued on what secrets are still left undiscovered!

Favorite Quotes:

- I planned to break her, then mend her, and then break her again.
- I was fucked. Whether I lived or died, I was screwed. If I had to die, it would be the bullet or the knife that took my life. If I had to live, it would be his touch, his kiss, his unmistakable dominion over my body that would take my life, my soul.
- "*Tu mi hai rovinato.*" You have ruined me.
- I smiled as the Italian words left my mouth in a whisper, "*Mi hai liberato.*"
You set me free.
- "Your blood feeds the beast inside me, bella donna."
- This was me, this was her, *this was us*. These moments where we consumed each other, these were the dark moments that defined us both. It's in these moments we escaped, embracing our inner demons, our depravities, and forgetting about the world that so eagerly judged and destroyed.

Blood & Lies
A Twisted Duet, #1
By Bella J.

I had no expectations going into this book, the only reason why I say that is cuz due to the fact that I've never read anything from Bella J before..... So I was so happy that I could connect with the characters & enjoy this twisted & turns of this story....

This story grabs a hold of the reader from the start & was one hell of a wild ride that had me on pins & needles almost to the very end.

1st of Author start off with WARNING Please be aware that this novel contains scenes of public humiliation,

abuse and sexual situations that may be triggers and make some readers uncomfortable. This novel is dark, it's twisted, and I understand that it's not for everyone

That should tell us something

Castello Fattore new Capo boss, after the death of his older twin & his father's second in command. Castello's father's heart couldn't take the loss. So on that faithful day Castello buried both his brother & father. Bound & determined on vengeance & blinded with revenge for Carlo's death, Castello set in motion his twisted plan of revenge.

I pity the person that Castello will play his Cat & Mouse game with in his sick game of revenge

Tatum wakes up in cold dark places, all she can remember is the night before wild party. She finds herself looking into the eyes of the man she once loved. Or so she thought he was the love of her life. But yet his eyes they seem so much darker than she remembers.

Tatum finds herself in a world of trouble. She's pissed off some dangerous men & they're out to make her pay. She has no idea what she has done to make this family believe she had hand in Carlo's death

This was intense, action packed & exciting read. If you like Mafia/blood & drama stories with plenty of twists & turns, this is a great choice. I am looking forward to the next book "Blood & Vows" since there is a storm brewing –The war of blood. –The war of brothers... blood isn't thicker than water & we will mostly see that in "Bella J" next book

I would definitely read more from this author & I would definitely recommend this book to anyone who likes Dark Read

Hope you enjoy this read & also always keep in mind this is just my opinion

Wow!..... And breath.

Blood and lies is a dark concoction of lies, deceit, enemies within, danger, revealed twisted lies and exposed truths.

Amongst it all is Castello the new mafia boss who now reigns following the death of both his father and brother and the pawn in the deceptive game is Tatum, daughter of a powerful businessman.

Blood & Lies begins with Tatum's kidnapping and a promise of revenge from Castello to his mother. Castello has been led to believe Tatum's father is responsible for killing his brother when he found out that Tatum and Castello's brother Carlo were in a relationship.

Carlo was next in line as boss after his father and so following Carlo's death then the immediate natural death of his father Castello was thrust into the lead and became head of the Mafia.

Castello had the responsibility of avenging his brother's death and what greater way than to take the

woman responsible for luring his brother.

This is far from any Romeo and Juliet romance though.

There's lies and deceit in this tangled web and as the plot grows Castello begins to discover truths and his reasons for killing Tatum become blurred.

Tatum and Castello have a toxic attraction to each other, neither can contain their animalistic need for each other.

Blood and Lies is part one of this duet and just when things are getting even more intense your left wanting more.

A dark and gripping read. Contains bondage and knife play and triggers of self harm. It's definitely not for the faint hearted and is filled to the brim with danger, angst, mystery and suspense.

A story of a girl taken against her will by a family who wants an eye for an eye but somethings just aren't that cut and dry and Lies exposed throw a bloody spanner in the works.

Told in first persons dual pov.

Looking forward to part 2, Blood & Vows.

Carolyn's says

I have read all of Bella J.'s books so when her warning of this book saying this is dark, might elicit triggers in some well- I am all in and ready to read.

I am not sure who has the more depraved mind? Bella J for writing such dark, mysterious and taboo books, or me, for reading and loving and playing right into her hands wanting, NO NEEDING, Tatum and Castello to be together.

Bella J has a niche for writing situations that are dark, scary and intriguing yet so consumed with passion and desire that she blurs lines of deranged. Readers crave for the characters the same euphoric release they are after or just plain need.

The twists in this book are artfully written and fall at the exact moment you don't expect- so perfect. I often compare books to an emotional roller coaster but Blood & Lies feels like you are on a perpetual incline just anticipating the drop which just so happens to be the hall of horrors. Reading this book evokes such strong emotions of hate, disgust, love, hate, fear, derision, hate, anger, heartbreak, tenderness, and compassion that you can't help but get caught up in the soul sucking power of the loss on both sides of the coin. The vulnerability of both characters allow you to sympathize with both while still rooting for them to be together

and for one to kill the other. See why I say Bella J is a master manipulator of our emotions. LOL! But in all honesty- that's what love can be- a intense draw and passion that's all consuming for one another while you want to kill them and see them suffer! LOL!

I always wonder where authors find their inspiration for their books and quite frankly- I don't want to know where Bella J got hers for this book because I would probably be scared of her or for her? Not sure which! LOL!

Like a mouse after cheese so am I after the next book in this series!! Awesome teaser!

Castello is burying his brother and father. His father, the head of the family, and his brother, Carlo, the next in line. This now leaves him as the head of the crime family. Castello promises his Mom revenge at the gravesite.

Tatum awakens a prisoner of Castello Fattore. He plans to break her because he believes she is responsible for Carlo's death. When she awakens he hears she doesn't even know the Fattore name. Blinded by revenge he doesn't know what to think.

This book is filled with twists and turns and draws you in from the beginning. The truth discovered at the very end which leaves us on the verge of a familial war. I highly recommend this dark story!

Kristin says

First a warning. This story is so dark it makes 50 shades look like light romance. There are triggers here for some people. If you are ok with this, then you will definitely want to add this book to your reading list. Wow. I really couldn't see how a kidnap victim and her kidnapper could fall in love but this author is amazing at writing believable characters and developing their relationships. She pulls this off convincingly and with intense emotion.

These are two of the most messed up characters I have ever read. The hatred Castillo bears for Tatum is palpable in every scene. The actions of Castello's brother that led up to this situation are a complete mystery to everyone. This drove me through the early chapters that were extremely dark. It was well worth it. The mystery just seems to grow with each new question answered. Once they start to see each other as real people and not just victim and mob boss, things heat up to inferno level. I love how she points it little details about each character's behaviour or body language and uses them to further the relationship and reveal personality characteristics.

I can't recommend this enough for those who are ok reading this type of book. Well written.

KAT ? Kitty Kats Crazy About Books ? says

BLOOD & LIES: This is spoken in 'Dual Perspectives' We're first introduced to Castello who can't believe he's in a cemetery saying his last goodbyes to his father and twin brother as they are both lowered into the ground in their last resting place.

Within the blink of an eye. One bullet and a simple phone call was all it took to change my life and to turn me into the souls bastard that I was today.

Nothing from this day forward will ever be the same again. His family has been torn apart and now it's all left up to Castello to pick up the pieces and glue them back together again.

His only thoughts running rampant through his mind is vengeance, punishment will be dished out to all the families who wronged the Fattore family. Revenge is a dish best served up cold and that's exactly how Castello works, an eye for an eye. He's a cold hearted ruthless killer, being from mafia stock family loyalty above all else comes first, and no one knows this better than Castello, now the new Capo Boss is out for blood and one female is on the top of his list and nothing or no one is going to get in his way.

SEVEN MONTHS LATER: Tatum Linscott reins from one of the most prominent powerful families in America, she awakens disorientated, in a cell like room, no windows, no door by first glance, lying on a bed and wearing clothes that aren't hers, stripped of everything she owned, scared, not knowing where she is or what is going on, or who has kidnapped her.

This is the first book I've read by this author and I'm so glad I took the time out of arcs and other commitments to fit this in, her writing flows effortlessly, her use of words, she has you right in the palm of her hand as soon as you start reading that first line, who wouldn't be drawn into the story when the opening chapter is Castello now the head of the mafia family, not by choice but by the hand dealt to him.

In the beginning you'll try your hardest to see if his armour will crack, he's cold, ruthless but little by little Tatum unfreezes his dead heart.

The sexual tension between these two right from the beginning is off the charts, it's forbidden, both try to fight it, but it's like their souls scream out to the other, it's an undeniable attraction that neither can deny, but at what price will this come at?

My body wanted her, my soul screamed for her, and my monster demanded to have her.

So many twists and turns that will have you sitting on the edge of your seat.

One moment

One decision

One bullet

And now everything was fucked up.

Bullets

And screams

And dead bodies.

From the get go the author has placed a warning, heed this warning as you the reader need to be aware that this novel contains scenes of public humiliation, abuse and sexual situations that may be triggers and make some readers uncomfortable. This novel is dark, it's twisted, and I understand that it's not for everyone

Whilst this wasn't the darkest mafia book I've ever read it does packs one hell of a punch within the pages that kept me reading in one sitting. I devoured this, I inhaled it. But if you're just stepping into the mafia genre or are wanting to read something that's a wee bit gritty and not too dark I highly recommend this come release day.

5 HOT, Twisted, HOT, Dark Stars!!!!

I was graciously gifted an ARC from this author and let me say that I was not only honored by her generosity but also very excited to see what was in store with this book!

Wow, I was and still feel blown away by this story. Now when the author warns you this is a dark story and there may be triggers for some, and that it may be sensitive to some readers, please take that warning into consideration. For me personally, when I see a note that it's going to be either dark, taboo, forbidden, twisted, etc....you get my drift, then automatically, I know that I am in store for just about anything and everything SO for me to complain after the fact is crazy when I have a clue as to what I am getting into. So yes, I read the warning and honestly I love me a good dark and twisted love story at times so I was quite excited to dive in.

So first let me talk about the characters. Castello, OMG....this man is seriously twisted as f*%@%^ and as sexy as a mofo!!!!!! Yeah, this man was the epitome of a "bad" boy and I loved every dirty, dark and delicious part of him. I have to say, there was SO MUCH more to him than we truly see. Yes, he was a bitter and hardened man bent on vengeance and yes, he was blinded with revenge BUT gosh did I love his turn-around from start until finish and truthfully, I am hoping to get 100% of him in the next book. His "true" self unfolds throughout the book BUT I am dying to really "see" him and if the ending is any indication of what's to come, I am all in for that ride:)

Tatum, was pretty straight forward and yet when we got inside of her head, wowza, she was as dirty and perverted and yes, just as sexy as Castello and when they finally get together intimately.....HOT and I mean five alarm fire HOT. Again, that ending has me DYING to see what they face down the road together and I, for one, am so excited and yet VERY nervous to see what happens next....

I read this book in one sitting. I read from start until finish and never once put down my Kindle. I was on the edge of my seat in fear one minute and in complete lust in another minute. It was mind boggling because

one moment I should loathe Castello and yet in the same moment, I was loving every single second of his depravity.

I will be waiting with bated breath until the next book, the sequel, comes out. Again, this may not be for everyone but me....I love to take a walk on the wild side and yes, this was a very wicked, very sexy and very scorching hot wild side at best and then mix that in with some twisted, dark and depraved moments and you have a downright very wild and crazy lust filled ride and I loved it.....
