Chas's Fervor Chiah Wilder

The first time Chas saw his son's teacher, he wanted her in his bed. Now.

Chas, the hardened, tattooed member of the Insurgents Motorcycle Club, has sworn off women since his divorce left him bitter and jaded. The last thing he wants to do is settle down with another old lady.

His relationships now are easy and free--exactly the way he likes it.

Until he meets curvaceous Addie. The sexy redhead whose eyes set him on fire.

He has to have her between his sheets.

And he knows she wants him. Eyes don't lie.

Addie O'Leary has lusted after her student's dad ever since she saw him.

She has guarded her heart and her life for the last two years. Now Chas, the tattooed, dirty-mouthed, rugged outlaw biker threatens to tear down all her barriers.

Always loving the bad boy, Chas is a dangerous badass with an attitude and an outlaw MC. His charming smile pulls at Addie's heart and his chiseled chest makes her body overheat.

Carrying around a deep, dark secret, Addie is afraid her past will destroy her future. Chas seems to be her only hope for redemption. Will he be able to intervene before it's too late?

Chas knows Addie is hiding something. He makes it his mission to find out what it is, and, once he does, he'll claim her as his woman.

The Insurgents MC series are standalone romance novels. This is Chas and Addie's love story. This book contains violence, strong language, no cheating, and steamy sexual scenes. HEA. No cliffhangers! The book is intended for readers over the age of 18.

Of the books in this series, so far Chas is my favorite

Emily says

Chas is a single father with a young son who is part of a reading program, one taught by stunning librarian Addie O'Leary. Addie is not who Chas thinks she is, she is the same woman but she is also on the run from a man she thought she once trusted.

Chas knows nothing about dating, but wit Addie he is willing to try. There is something powerful in the works that is about to come crumbling down around them. Will Chas decides Addie is worth it?

This had several unexpected twists. Chas has swagger from the first page, he is a flirt and it puts Addie off guard. Addie is conflicted about trusting again and especially another bad boy. Very entertaining read.

Precious story

This was a great installment in this series. The relationship moved at a pretty normal pace and was insta lust, normal! The love came along nicely with excitement, sex, suspense, sex, brotherhood, sex and action. I liked how the story played out and did not have any loopholes like some can. Onto the next!

Chiah Wilder

5 stars

Let me start by saying if you have not read the first two books in this series; Hawk's Property and Jax's Dilemma you are missing out. The covers are amazing alone. These are some of the best MC series books I have read. I love Jax and Hawk and I just knew nothing could sway me from them being my number one guys .. until Chas. Every book of Chiah's is filled with emotion whether it be passion, anger, fear, betrayal, commitment, soul scorching heartbreak or all of them wrapped up in one big ka-boom. You cannot go wrong clicking up her stories.. Its raw and I love it ...

Addie O Leary has a secret. She has been running for two years now constantly looking over her shoulder hoping that she is safe. However ending up in Pinewood Springs was the best thing that could have come out of her situation. Addie is doing what she loves and being around kids is the icing on the cake. Laying her eyes on Jack's father ... that has thrown a wrench in her stay simple life as she cannot be involved with a man like him .. ever. Much less he is a biker; a member of the Insurgents MC who would never want a curvy woman like herself. Those feelings have been turned off in her for a long time anyway and she needs to dunk her head in a bucket of ice water just from the first greeting. Addie knows her situation cannot take that type of distraction. No one can know anything about her other than what they see on the outside.

Chas feels like he has hit a brick wall – who is the redhead and why is that he is drawn to this sassy and straight laced woman. The lady he met when picking up Jack is something else; completely different from his ex; this woman has everything he wants and nothing that he would have grown tired of. But .. Something is going on with her .. something isn't right and Chas intends on finding out what. However first he has to figure out why he can't push her from his thoughts; thoughts that are not sugar and spice and everything nice.

Then there is Jack ... being a teacher, my heart broke for him within the first few pages of meeting him. Chas only grew a million times larger than life for loving his boy the way he does. Sigh ... A good father and the love he shows for his child is just heaven.

Chas and Addie are both such strong characters and you know I love the fact that Addie is a real woman. I LOVE the fact that she is curvy and not written to be the next Vicky Secret model. Those messages in books for women are so important these days. Both characters have difficult pasts to say the least but Addie is an entire new ballgame. Having Chas in her corner at the time she needs it the most is a bonus for sure! ERRGGGH! No spoilers but dang! Nail bitter and drama.

You need to punch on READ NOW if you want to know about the characters who pop up throughout the story. I loved hearing about my peeps! You can never get enough once you are consumed by a series and wish to roll yourself right up to that MC and say hey how can I get in. LOL! It means something when a reader can connect themselves to a story and the characters that lie on the pages. You always want to feel like you could actually see these folks walking around in your neck of the woods. Of course there are bits and pieces to every story that is not going to happen but I think you get my drift here.

Chas and Addie are two more in this family that you are going to want to know more about as the series continues. I'm even thinking with some of the couples having babies . . . we should eventually get stories from the kids when they are grown!

Chiah you are brilliant. You keep me turning the pages as fast as I can and I'm anxious for the next and the next and the next. Review to post to Ramblings From Beneath The Sheets.

Chas's Fervor is the third book in Chiah Wilder's Insurgents Motorcycle Club and it does not disappoint. I actually just finished book 2 a few weeks prior and was excited to remember that I signed up to review the third book. I personally enjoyed this book more than the last book I read. For me I think I just loved the characters more and could relate to the female character more than I was able to in the last book. With that being said let me give you a little breakdown of this book.

Chas has sworn off any type of relationship with women since his bitter divorce with his ex-wife. His ex-wife makes me want to throat punch her anytime she appears in the story. Once you read this book you will totally understand and probably want to get in line behind me to do your own punching. Besides having to deal with his ex-wife Chas shares custody with their son who he will do anything for. When his son has academic trouble at school and is placed in an after school reading program Chas's ways of thinking that he will only use women for pleasure quickly gets thrown out the window when he meets his son's sexy librarian. Addie O'Leary with her gorgeous red hair, piercing eyes, and curvaceous body she doesn't know or understand the sex appeal she gives off to men. The more Chas sees her, he wants nothing more than to get her in his bed, under his sheets and more importantly under him.

Addie has always been attracted to the "bad boy" type and despite telling herself that she needs to go with a safe good man she can't seem to stop eyeing up one of her student's father. Addie senses that Chas is a whole lot of trouble but for some reason her body and mind can't walk away. Despite the fact that she knows she shouldn't get involved with a student's father, Addie's real concern is that the past she has been running from will catch up to her. Will Addie's past catch up to her before she has a chance to come clean to Chas or will Chas be able to chase the past and demons away from Addie and find the happiness both never though

they could get.

I am so happy that I read this third book of the series. Chas and Addie are amazing characters, first as individuals and secondly as a couple. From the very beginning you can just tell how much Chas has loyalty to the club and to his son. He will do anything in his power to help his son and his MC family. I love the loyalty that he has and the fact that no matter how bad the relationship with his ex-wife gets Chas never lets his son hear him speak ill of his mother. I think that speaks volumes when it comes to the character of a man. Addie loves her students and will do anything to help them achieve success. The first meeting between Chas and Addie you can just instantly feel the chemistry between them. As the story continues the chemistry between them only gets stronger as does their relationship. I loved how their relationship and trust between one another great naturally. I feel that this series keeps getting better and better with each book! I am anxiously awaiting the next book in this series.

Yay finally one of her books with no scene's with other women and NO cheating! The hero and heroine were really sweet and I felt the love between them, a good read.

Dawn Pressel says

After the first 2 books I wasn't sure I'd continue the series but I'm glad I gave this series another look.

I like Chas and Addie, hated the ex's and can't figure out why Matt was introduced as her friend then moved abruptly out of the picture. The whores and hood rats are boring and a bit too much drama but thankfully short blurbs of their efforts to lay claim to men that look at them as "holes" and the disrespect they show to the girlfriends is all I had to read about.

Why didn't Chas return to his son's friends house and teach the abusive father and drugged out mother a lesson? Honestly I was really disappointed with the fact he did nothing knowing what was going on

All in all I liked the book and will continue to the next book.

Fantastic!

This one hit the mark for a fabulous biker/romantic suspense novel.

Chas the tough edgy brooding biker who took a spin on the marriage wheel and didn't like it and swore to never go back.

Addie, the quirky no nonsense librarian with a heart of gold who doesn't shy away from bad biker dudes.

Lots of twists and turns made this an exciting story to read and a few alarming surprises along the way.

Gritty and sneaky self serving characters balance out all the mushiness in between. Well written and overall, a great story.

RISKING MY EMOTIONAL SANITY WAS FUCKING WORTH IT!!

If I loved Hawk's Property and Jax's Dillema as much as I loved ANY MC book, CHAS'S Fervor definitely become my new absolute favorite!! To be honest though, I wasn't sure what to expect from Chas's story but I was completely taken aback from how emotionally I connected with both him, Addie and both of their' side's of the story.

I will try to keep this spoiler free for those who haven't read the previous two (though I can't see how you aren't getting up an one-clicking those sexy biker's story.. GO!!).

When you meet someone for the first time, that one guy that slowly makes you have a blurred vision of everything but him? With tattoos and an undeniably badass vibe about him. An Insurgents MC member that knows exactly how to walk the ground like he owns it. Someone that you know from the first moment you see him, he might be a big mistake but cannot NOT take the risk with your mind... At least having him take over your thoughts is only the beginning..

I loved Chas from the very first sentence he uttered. I was literally head over heels. If you know me or at least my book preferences, bikers and tattooed creatures are at the very top. So judging one biker after the other will have my mind in picking up parts that I love but also parts about them that I'm not a huge fan of. With CHAS'S FERVOR? I was absolutely in love with every aspect. I couldn't believe how much I would love a third book in a series, lets just say it rarely happens.

Not getting enough of Chas's dirty talk, his sexiness, dominance, and everything in between that unintentionally made my mind go straight for the gutter.

However, what sealed the deal? Both Chas and Addie have a difficult story to tell, and an ever harder past to either run away from and forget or just deal with when it comes down to it... With Addie's past coming back to her, Chas is at a point were he knows she is his only salvation, his only woman, she is made for him in another sense of the word, BUT he starts to question who she is as soon as her secrets start to show up..

TRUST.

BETRAYAL.

LOVE.

PASSION.

ANGER.

POSSESSION.

ADDICTIVE.

SINFUL.

DARK.

ROMANTIC.

EMOTIONAL.

With their story we go on a journey that I don't think you will ever expect in what happens next.. It's a love story that has so much to give in that respect, but add to that the element of darkness, sexiness and all things twisted? You get one of my favorite books of the year - CHAS's FERVOR.

I loved this story from the title and holy hell of a book cover, to the very last past. It was simply, perfection of what an MC book should be.

My emotions were all over the place. Connecting with the characters was so easy that at one point I had to put the kindle down and smile. CHAS'S FERVOR made me realize why I do what I do, read, write and blog? That's not easy but when you find books that give you shivers almost as strongly as that new Adele song Hello? Yeah, you know the author has made it to your heart.. An emotional connection with fictional characters doesn't happen that often and when it does it better be the way the Insurgents MC is written.

Chiah Wilder, I couldn't thank you enough!! First creating Hawk, a guy that I think so far I've read about 5 times? Maybe 6? He became one of my top 5 MC guys.. Then we had Jax, which I am still trying to get over how much I cried and laughed both at the same time with his story. Now with Chas I can safely say that if the next MC book I read isn't as great, I can still smile and feel proud that I found such an amazing, dark and soulful story! So thank you for the ARC that will long stay in my mind and heart :)

THOUGHTS...

I think my GR friends that read biker books wouldn't think their time is wasted with this one and it's a Kindle Unlimited right now, or 99¢ (as of this date). I'm surprised there aren't more reviews for it.

Really pretty good! I liked the plot, the action, the H and h. The bad guys are really bad.

The size of the *short*, bbw (size 18) h seemed too extreme for the lust she supposedly generated from all of those hot guys, but what the hell... romance fantasy. Not saying this as a skinny woman being catty, because I'm no lightweight either and I found it incredulous... minus 1 star for not being more realistic, like size 14 or even (mmmm...maybe) exceptionally well-packaged and tight 16. Size 18 is really big even on tall 5'8" ladies like me.... it isn't 'curvy', not a little plump, it's fat, ok?

No typos that I noticed, which is really a joy!

There is a little too much rumination for my taste on the part of the H. Not wild about the name Chas for a biker (sort of effeminate, imho). All the other bikers have the usual badass names, like Steel, Axe, Bruiser, Snake - then there's Chas. Snore...

Overall, for a newish author, this book actually kept me engaged all the way through, other than skimming the smex scenes after the first couple, because after all the books I've read, they have to be incredible for me to read them anymore. There were very few boring parts.

I plan on buying the next book due in January, 2016.

BE FOREWARNED - YOUR MILEAGE MAY VARY

This isn't one of the grittiest biker books out there, but...

For those in these various safe groups who are wanting to know about these things in advance, there is physical & verbal domestic violence of the h, verbal child abuse, rape (gang and another attempted) and other physical abuse of females, some under-aged. There is group, public sex. Tiny bit of spanking, but not really BDSM. No cheating by the main characters after they meet, although the h is technically still legally married to another man she ran away from 2+ years previously (but that's technically still adultery, fyi). In short, it's an MC book with an active, stereotype clubhouse.

She Hearts Books says

Holy hotness. Chas is a sizzling hot naughty talking badass biker man. I wasn't sure how things would go with him having that not gonna settle down ever again burned by a woman attitude, but then here comes Addie into his life. She's his son's teacher and Chas is definitely hot for teacher. They are scorching hot together, but Addie's got a pretty big secret she's hiding. Telling him would put her back in danger, but she will have to trust him with everything before it is too late. I so loved their story and can't wait for more of this series.

I give Chas's Fervor 5 hearts!

Carissa says

Chiah Wilder has surpassed her own capabilities with this 3rd instalment in the Insurgents MC series. I was highly anticipating a parent-teacher romance, and I was simply blown away by the intensity of the story. A well written novel, with developed characters, a dark and scary plot, interspersed with steamy, off the charts sex. The impact of the sex scenes are panty dripping and stunningly arousing.

Ms. Wilder starts off us with Lizzie Quinn witnessing a murder. A murder committed by her very own husband. A man she believed was the CEO of a company. However, it turns out, his riches comes from being a highly paid assassin to the rich and powerful.

On this discovery Lizzie knows she must escape. Finding out her husband is an assassin is one thing, but actually witnessing a murder. This means that there is a possibility, that he will need to tie up loose ends. Lizzie may very well become dead, in the foreseeable future. The need to protect herself, leads Lizzie into going underground. On the run, now two years later, Lizzie settles in Pinewood Springs, Colorado. Her new alias is Addie O' Leary, a librarian and after school reading instructor.

Going underground was the hardest and most frightening decision Lizzie had to make. Always looking over her shoulder. In fear of being caught, and the repercussions of being an eye-witness, along with running for two years. Staying on top of her game, keeps Lizzie safe and aware of all possible outcomes. Creating her own slice of heaven in Pinewood Springs, has given Addie a renewed burst of vigor. Knowing she's being strong for herself, along with pursuing a passion for books, and teaching children and aiding their reading abilities.

At a student pick up, Addie meets Chas. Chas is Jack's father. A student she tutors in his reading. At the very first meeting, we're given an explosive attraction. One that both Chas and Addie can't deny. Chas wants her, the vivacious, voluptuous redhead, with the tight pencil skirt and the silk blouses. All that leaves too much to his imagination. And sends a not so discreet message to his nether regions. Chas can't help but notice the patience and love Addie has for Jack and the time she takes to help his reading abilities. Coupled, with the intense desire, and electric aura surrounding her.

Being a member of the Insurgents MC, and a man who likes his women easy with big titties. Chas can't seem to understand what draws him to Addie. Other than her sexy as sin, curvaceous body, and feisty attitude, she emits a calm and intense sense of protectiveness over him. Drawing him in, and making him yearn for more. This straight laced woman, is slowly devouring his soul, a dark piece at a time.

Chas is a serious bad ass. I loved him off the bat. This man has a way with words, that infuriates and pleases you on impact. He's brutally honest, and had no problem staking him claim. Addie is different from his ex-wife. A drama induced, fake woman, who loves to spread her legs for anyone.

Being on the run for so long, and with the disillusionment of her marriage. Addie has learned to suppress her feminine urges. But after one meeting with Jack's father, the intense reaction she had to him was unnerving as much as it was welcomed. Yet, with him belonging to an outlaw club and with her, running from her own demons. Jack's father was not a favourable option.

Sometimes, overthinking things never gets you anywhere. Actions speak louder than words. And boy, did these two have actions. Loads and loads of erotic actions. That had me drooling and begging for more. I even wished I had a Chas in my bedroom.

As Addie and Chas gets to know the other, deciding on having a relationship, is laced with a bitter ex-wife, an outlaw life, Addie's own fears and inhibitions, along with taking Jack into consideration. Addie's secrets weigh heavily on her shoulders, as she continues to hide her true roots. Living a lie is becoming more and more difficult, as Addie and Chas's feelings starts slowly growing into more than simple desire.

Intermixing with their story, we get some flashes of Hawk and Cara, and Jax and Cherry, with baby Paisley. As much as Hawk and Cara are my favs! I believe, they've been over topped by Chas and Addie. I don;t know how Chiah Wilder does it. But she creates some kickass MC stories.

With Addie's secrets being revealed, anger, hurt and betrayal, takes Chas on an emotional rollercoaster that has him questioning who Addie truly is. Along with having to deal with another chapter of the Insurgents, that has gone rogue. The Insurgents's enemies are lingering and lurking in the dark. Simply waiting to pounce and destroy them one Insurgent at a time.

Sigh...Love, love, loved this story. These two were perfectly paired. Mostly, Ciah must be congratulated on making Addie a size 18 model. I absolutely loved the portrayal of Addie. She was intelligent, patient and sexy, all in a seductive package. Playing on her best attributes - boobs, bum, curves, and mostly her persona-

was significantly impacting as a reader.

Chas...well he was simply to die for. Nothing and I mean nothing, could sway me from that man. Has any battles or wars been fought over a man?

Well done CW. I once again applaud you.
