## **Chosen By The Prince** Calyope Adams

Spoiled Socialite Jillian is at the Palace for a party when the King's Advisor pulls her aside. He informs her that she's been selected by the Prince to be his Sofriquette. Her jaw drops as he explains that she is to be the Prince's sexual servant for the remainder of her days, or until he releases her from servitude. She will be at his side constantly, to ease him at the very moment he expresses desire. If she disobeys him in any way, her family's immense wealth and very lives will be forfeit.

"He can chose only one woman. He made his selection several years ago..."

Jillian stares at the handsome Prince in shock as they lock the jewel encrusted collar around her neck. He doesn't even like her! He's been giving her odd, dark looks for years. What she doesn't realize is that he's been biding his time, waiting for her to grow up, to be ready to be Chosen By The Prince.

The Royals Series is an exciting new fantasy series by Calyope Adams. These stories are longer and less explicit than Calyope's other titles. We hope you will enjoy Chosen By The Prince!

## From Reader Review Chosen By The Prince for online ebook

### Deborah says

This was a enjoyable but predictable read. If you've read the synopsis you can probably guess where this book is going and I got what I was expecting. It was nicely done, there was an attempt at a twist, and slight more steamy scenes that I would have liked, but I should have expected that I think looking back at the synopsis now.

### Bettye McKee says

#### For mature audiences

This is the story of Prince Maximilian and Jillian, the woman he has chosen to be his concubine.

The book would have benefited greatly from the services of an editor or proofreader.

### Fay Pretty says

*“At the same time she looked regal, like a queen and a slave at the same time. Maybe that was the point.”*

Let me set it straight for you- this is basically erotica, not a Regency romance like I was expecting and maybe not as the author expected either because this book is so damnmed confused. What it definitely is, is terrible. Even if you're into BDSM, the sex scenes are weird and the lead up (basically forcing stimulants on this poor girl) is massively off-putting. The storyline is everywhere at once and the premise of forcing an unconsenting girl into these situations and being 'obviously' in love with her made me bash my head against a wall. Proofreader over here, please.

Just avoid.

Even if you like this sort of storyline there *must* be much better out there.

#### Fast romance

3.75 stars fast historical romance stars. It was different to read about a collared woman during this time period. Very interesting.

### **Collared**

This book had some good sexy point, but for me I found the "Prince" emotionally abusive to point of being cruel. So, if you are into selfish, self-centered, self-indulgent to point of being sociopath this "Prince" is for you. The ending didn't make up for labor it took to finish reading the book. Well written enough to make me feel uneasy for the Collared suffragette.

## **Megan Brader says**

Very charming bought today read today lol.

## **Jessica says**

### **Cookie cutter**

Nothing really new in this story. Girl forced to be a sex slave but she loves the prince. He loves her. Someone steals her. She runs off. Prince finds her and brings her back to the castle and wins her heart again and they live happily ever after.

## **Amy Crull says**

So from the blurb, you kinda get an idea of how things go. So in your mind, you set a scenario up or at least I did. Anyway, this story took a twist that I should have seen coming.

I don't normally read historical romance books unless there's something in the blurb that hooks me, this book hooked me. I'm not even sure what it was but I wanted to read this book.

The prince and Jillian have a history but she never thought he would pick her to be his plaything. She has responsibilities and marriage to be ready for. Seeing as he's the prince, she has no choice but to say yes to him. This book takes on a whole other level now, the prince starts growing feelings and stands on his own two feet. He also shows his true compassion for Jillian and helps her heal as well. This was a sweet romance, minus a few parts of crazy people trying to ruin their happiness, and I truly enjoyed reading this book.

~i was given this book for an honest review~

## **Angela Hart says**

This book infuriated me. I hardly \*ever\* give negative reviews. But I need to write this one.

A romance novel that involves raping someone into submission (which turns into love?) is not okay. Calling someone "property" and genuinely meaning it is not okay. (There isn't even a year/setting for this story to

call it historically accurate.) Forcing your "whore" (<- as he calls her near the end) to wear a COLLAR is not okay. Parading her around the palace forcing her to quote "feel humiliated," is not okay. When the heroine says she is being treated like a "pet" and is drugged/has \*all\* of her food spiked so that she is at the prince's mercy/is primed for him, IS NOT OKAY!!! If this book were not a romance novel, I would not have read these lines of dialogue, actions, or scenes in this manner. While they are brutal and harsh, they could be viewed differently in another genre. In a romance novel, this is NOT OKAY!

EXAMPLE from the book:

She froze, her head lowered as her shoulders trembled suspiciously. She was crying.

"You may lie on your stomach."

She did as he asked, laying face down, her head turned away from him. He started at her...

Also, apologizing for raping someone DOES NOT MAKE IT OKAY!

### **K says**

Well, this book made me rather uncomfortable but at the same time, it kept me completely enthralled. I wasn't entirely sure what to expect from this book, but thankfully there was a HEA. This was just a really unusual read.

### **zhane johnson says**

#### **Amazing**

I loved then at first I was like omg he did not but as time went on I could not put it down so many twist and turns and obstacles im just a gappy reader loving a happy ending

---

### **Debbie Stewart says**

#### **Horrible**

Includes the rape of a traumatized, possibly brain injured woman. Honestly, I couldn't finish it and read it far longer than I should have hoping the prince would change. This is not romance or even erotica.

### **Lydia Gaona says**

## **The prince!!**

This was a great read that I finished rather quick but it left me wanting more. This author is new to me and I thought the story flowed very well and only a few misspelled words but nothing bad.

---

## **Katrina Holder says**

I had conflicting emotions about this book. I enjoyed it but I loathed it. While reading this book I was filled with myriad of conflicting emotions so I guessing that is a plus on the author's part. There was indeed a happy ending but I felt irritated at the way we finally arrived there and was sorely annoyed at the hero because he just came across as a petulant child.
