(Book 3 1/2 = -300)

(Book 1 already logged -300)

1/4 of 2600= aprox 650

2600 - 650 = 1950

BOOK 2: This book is about Nikki being invited to several different parties. Brandon finally invited Nikki, and she may have a chance of becoming more than friends with her dreamy crush. But when MacKenzie tells her some more nasty rumors, she doesn't feel as confident. With her bratty sister Brianna adding more to the table, a party at the zoo, will she be able to be at two places at once? Or is everything too good to be true?

BOOK 3: This book is about Nikki signing up for a talent competition, and Nikki gathers a band with her friends. Everybody seems to be talented, and with Nikki as lead singer, she must carry the team through the contest. Although there might be a slight little accident, Nikki soon realizes it puts the contest in a bad spot. Can Nikki find a way to fix it, or will her pop star career end before it even started?

Book 4: This book is about Nikki entering a ice skating contest. Well, it's actually a charity event that will be performed in front of thousands of people. Nikki desperately wants to help out Fuzzy Friends, Brandon's after school job, but MacKenzie completely sidetracks the owner. Can she fix everything and get a good act going? Or will she yet again humiliate herself in front of everybody?

Book 5: This book is about Nikki celebrating the new year with her friends. But something horrible goes wrong when Nikki and her BFFS Chloe and Zoey get caught while toilet papering MacKenzie's house. Now Mackenzie has two secrets that could end Nikki's already-bad-enough reputation. Can she make it out alive, or will she have to endure the most humiliating year of her life?

Book 6: The school dance is coming up, and Brandon is getting and acting weird. He keeps humiliating her and not going on "dates" anymore. But who's actually behind the scenes? And can Nikki fix everything before the dance?

Book 7: It's finally time for the big T.V. show, and Trevor Chase is catching every moment of Nikki's life.

Nikki thought she would love to have a reality TV show, but maybe it's getting out of control. People are faking friendships for the fame, and the camera crew are catching moments a little too private. Can she one week without privacy? Or is being a TV Star too hard for a dork like Nikki?

Book 8: This book follows the story of Nikki's world being changed into fairy tale stories. What was the cause of these dreams? You guessed it, MacKenzie. Nikki has to somehow get to fairy kingdom and talk to the wizard before sundown or she will never make it back to the real world. Never.

Book 9: Nikki's diary is missing, and the wrong object fell into the wrong hands. MacKenzie has Nikki's diary, and she doesn't even know. This is the perfect setup for MacKenzie to release all Nikki's secrets to the world. But that's not the worst part. MacKenzie hacked into Nikki's account and his hurting other people, even her Nikki's best friends, feelings. Can she find out in time? Or is another job to fix too much?

I would give these books for 4th-7th graders because of the feeling it gives readers. Younger kids wouldn't understand anything from Nikki's point of view.

Dork Diaries is about a girl named Nikkie Maxwell taking on middle school by writing in her diary. In the tenth book Nikkie's enemy Mackenzie Hollister took Nikkie's diary and started reading everything that Nikkies has wrote in it from the last nine books including her password for something very important to Nikkie. At first Nikki didn't know who took it so she asked her two bestfriends Zoey and Chloe to help her find it. They didn't know the diary was Nikkies because Mackenzie put a different fabric on the diary to make it look like her's.

Rachell Renee Russell is my favorite author. I'd recommend this book to girls in the range of middle school and also girls who like books about diaries. I absolutely LOVE this book. The characters are amazing, and I love how the book just starts right into the book. The first two books are not my favorite but if you like reading the first book all the way till the end that's ok. I started at book three and it got me hooked and I kinda just jumped around in the series but then I read five six seven etc. in a row. This book is in a series of ten books and the eleventh one is coming out this fall. The first one is called tales from a not-so-fabulous-life. Like I said not my favorite but if your looking where to start there you go. But I recommend the Dork Diaries series they are just amazing books but don't read the first one and give up because the rest of the books are really good. And I've read all 10 books.

I enjoyed these books when I was younger. But when I was older I realised how poorly written this was. A high rated, stereotypical storyline that follows a girl who complains way too much. She gossips about how horrible the CCPs are but she is a mean girl herself. She frightens her sister about the tooth fairy, spent all her father day present money on things for herself, cares only about Brandon and doesn't focus on her grades or school life. She also talks about her family in a disrespectful way like they are all crazy and she doesn't act her supposedly age which is 14. All the books are basically this: BRANDON.

She also claims she is a dork but really isn't. I apologise for my negativity but this is my honest opinion.

Leeanna says

Are you a fan fiction!! Well if you are I am sure you will love these series. Dork Diaries is about a girl named Nikki Maxwell in middle school and she is determined to have it all. Nikki has a diary where she writes all of her deepest darkest secrets, will she go crazy if it gets in the wrong hands like her enemy, Mckenzie Hollister.

Bre says

Would you ever think you would share your diary with the world? Well that's what the dork diaries series is about it has so much drama but it's still funny. One of the parts I like about it is the characters there names are Nikki, Brandon, Brianna, Chloe and Zoey, and Mackenzie.

Nicki is the main character she's the one writing the diary. the other thing I love is that There's action, sneakiness, romance, comedy, and drama, it seems just as somethings going good for nicki then her sister Brianna or Mackenzie have to ruin it for her. Also something else this book is about middle school how it would go if your a "dork" that's why it's called dork diaries because she thinks she's a dork. so This book will be a perfect book for girls going into middle school. So if your into all the drama and romance like I am then you should really read this book.i most definitely recommend this series for 10 year old girls.

LOVE LOVE LOVE LOVE LOVE LOVE LOVE LOVE LOVE x

Zoey says

I really like Dork Diaries because we can read them in one day without trouble and it is for all grades.

Lin Let says

Here we follow a idiotic young girl who focus on her looks and all her time recording things her crush does. A bad example to little kids since Niki wastes her time trying to get Brandon to be hers even when he obviously showed clear signs. Doesn't focus on school, rubbish at grades not the ideal role model. She is so dumb that she doesn't even realise that Brandon probably likes her too after like ten books. Hate this series. Wouldn't even made it one star but had too otherwise I can't write a review. Want to save your kids from failing in life? Don't let them read this.

Leilani Montgomery says

These books are super fun and cute!! If you're in a reading funk and your trying to get back into it I would DEFINITELY recommend this series for all of you guys!!! Fast pace and you really get attached to all of the characters absolutely LOVE this series 10/10 for me :):!!

Nang Michelle says

This is about a girl who likes a guy who fancies her too. But poor Nikki doesn't know that. Mackenzie is an evil witch trying to make Nikki Maxwell's life into a disaster. As Nikki went through all sorts of funny problems, her younger sister, Brianna the cute and annoying, keep bothering her.....
