Dark, brooding, but never boring, Emily the Strange pokes fun at impostors, illusions, and just plain phonies in the \_fake\_ issue! With her posse of black cats, sharp-but-silly wit, and unique brand of genuine nonchalance, Emily gets into strange and spooky situations while dressing up, getting down, and being real. (But is it really Emily, after all?) This black-and-white comic is a treat for Emily enthusiasts, from die-hard fans to perfect strangers.

**Sandy says**

It's a short read but there's really nothing to it. Just a couple pages of fluff drawn to look pretty. It's mainly filled with fan art. To be included in a true fan collection, I suppose.
