Forget Me Not Kasey Thompson

Now that Sera has eliminated the threat of her uncle, she believes that she will be free to live a life of peace with her mate, Koda. As Alpha of the Moon Stone Pack, with her mate by her side, she feels as though everything is as it should be. Little does she know that her fight is far from over. Koda's arch rival will stop at nothing until he slowly destroys Koda in every way possible, and that means stealing Sera away from him. Legend says that mate bonds are stronger than steel, but when it is broke, the aftermath destroys the wolf to the point of no return. Will Koda be able to save Sera before all hope is lost? Will he be able to save her before she loses her family, her mind, and eventually her life?

Danielle Smith says

Twist and Turns

There are twist and turns throughout this series. I cannot wait for book 3. This book is not smut! You will truly enjoy it.

Denise Robinson says

Sera a d Koda

This book kept my attention and I finished it within a day. So, as I see it, it is an attention getter. Your villain was a good villain to hate. Made my heart soar that Koda and Sera got to get together again, now another villain comes to play.....

J.J. says

This book was all over the place. Too many gaps and partial storylines.

Liliana says

Amazing

I couldn't stop reading it I really love these books and I hope there is another book I love Kasey

Malinda Andrews says

There were a lot of great aspects to this book. I heartily congratulate the author!

However, the plot was much too twisty, and much of the lore needed more explanation. There were too many loose ends not tied up, and too many holes.

The characterization of Sera, I felt, kind of derailed in this book. I get for a portion that she wasn't "herself", but there are just parts to a personality that don't change. Nor should being with Koda change her that drastically. Once again, as was in the first book, weird time and location jumps happened.

Overall, a really enjoyable read. I actually read it straight through in about two and a half hours.

OH one last thing, the "saddle cradles" that Sera put her feet in to are called stirrups. FYI.

Ally says

No words... Speechless(spoiler alert)

Shocked is the first word I would describe how I felt when I finished the book... Cliffhanger galore... I cannot wait until the next book and I just hate that Sera and Koda have to wait to be together... Honestly it kind of pisses me off but I wouldn't have u any other way because I loved the story and am anticipating the third book and what happens with sera's "older brother" and what happens!!!!

Clare says

I loved this book. So much action but it has left me with so many unanswered questions!

What is faith?

Do shego come back into the next story?

What happens with Nordin?

Who is tarrin and is he really who he says he is?

What happens with the packs?

I seriously hope there's going to be a next installment to answer my questions!
