Pamela Rabon says

Book 4 of the Fortune children series. Still some mystery to be solved. He shouldn't have waited so long to tell her the truth.

Chitra *CJ* says

So what happens when a crappy lazy hero meets a strong opinionated heroine and decides that she aint good enough. She might have been career minded and a little shrewd, but that was NO EXCUSE for what the hero did.

In the abominable story called "Forgotten Honeymoon" Kristina and d-bag *cough* Max end up together because apparently forcing someone to mold into your version of perfect is SO ROMANTIC.

Our shi**y hero owns an inn, which our h Kristina Fortune gains half inheritance to after her grandmother passes away. Recovering from a recent breakup, she is appalled at the pathetic condition of the inn. Saying it like she means it, she informs her thoughts to the hero who does not like it.

So what does he do? When she has an accident and loses her memory, he convinces her she's a maid. Then makes her do menial tasks, and does his best to postpone the recovery because he prefers the new, nicer, tamer her.

I found the hero pathetic and that is all what I can say. Atleast he didnt try to sleep with a woman who didnt have all her reserves handy..

The only reason this isnt a 0 star is

-The series moves forward with a big moment involving Kate

-Sterling's confessions

Then again, the one moment of redemption was followed by regaining of memory..only for the h to turn into a pussyfooting teary mess after VOWING revenge.

GAAAAH.

Safe

1/5

I'm not categorically opposed to amnesia plots, but this one is baaaaaaaaad. Her identity is stolen and she's put to work as a maid so that she can be taught a lesson and then that's all fine because they fell in love. No.

No, no, no, no.

Somehow my mom didn't find the last one in the original series, so I'm done until I can get my hands on it. Half price books, here I come!

Sinopse: *Max Cooper, um solteiro convicto, aproveita a oportunidade perfeita para se vingar de sua sócia arrogante. Kristina Fortune perdeu a memória e depende dele para preencher as lacunas em sua vida. Mas enquanto Max, racionalmente, a transforma em sua escrava pessoal, seu coração coloca em dúvida os motivos para isso. Será que estaria punindo Kristina por causa da atração irresistível que sente por ela? Ou estaria desejando uma lua-de-mel inesquecível?*
