I love reading because it allows me to forget everything except what is happening in the book. This novella is sweet and sexy.

This is another happening at the Little Black Dress Cocktail Lounge in Las Vegas.

A tech world billionaire handled by a feisty cocktail waitress.

Tempest lives up to her name but is crushed by a message she mistakenly sees on someone's phone after realizing she is in love with Maddox.

This book is Maddox and Tempest's story which has a cute beginning and a stormy ending but an HEA and an Epilogue that made me smile.

A quick and sweet read. I just cannot get enough of this series of Cocktail Girls. This was once again a must read. It is an easy and quick read but it is captivating and enjoyable. The characters are really likeable and it is written in such a way that you feel you are in the story with them.

To let fate help you to find your soulmate. I love these two characters. They have both things to deal with but Tempest has the darkest past. To let go of that and take a chance on the one you feel is the one for you is not easy. But can they do it? Not easy and not without something going wrong because of a bet made in jest. Absolutely a must read.

### **His Hurricane**

The more of the Cocktails Girls I read, the more I fall in love with them. Tempest (synonym for hurricane) is a beautiful, saucy, sassy woman. Maddox, is a handsome, confident tech genius. When they meet at LBD, where Tempest works, she shoots him down but he won't be deterred. When he gets her to let down her guard sparks fly. Tempest has a secret so she try's to keep him at arms length. Maddox has a secret that could damage Tempest forever. Getting to their HEA won't be easy but it will be fun & steamy along the way.

The Cocktail Girls novellas are quick reads yet a complete story with an HEA. I like that I can read them in one quick sitting, get the romantic flutters and still be a functioning member of society.

[on their first date, to avoid having sex with him, she gives him a blowjob. That's fine with me. She's a virgin and tries to hold on to it as much as she can but what I hate is that in order to keep her virginity, she gave her dates in the past blowjobs. I don't like it when the H or h mentions how much they like o

### **Nope**

Right off the bat, the male main character says in his narrative that he sleeps around. He says he meets them, beds them, and walks away. Why would I want to read a romance in which one of the main characters is like that? It's not sexy, and it's not normal. I don't expect the characters to all be virgins, but I don't like romance novels where the characters are bad people. I don't care if ends up a changed man and falls in love in the book, he is still a bad person for treating women that way. The great way he ends up treating someone does not mean it was okay he used to be bad to women or be a "playboy". Sex is intimate. It is not to meant to be casual. I understand sex means different things to different people, but this garbage doesn't belong in romance novels. Manwhores are not romantic.

This is a great short story, the characters are all well thought out and a great little love story. However if you take offense to having to read any thing that has to do with sex this may not be the love story for you, but you could always skip over those pages and still find the fantastic book that this is.

Maddox Ramsey is at the Millennium Hotel for a conference, he is expected to give the closing speech at the end of the week for the last meeting. He is sitting at the Little Black Dress the bar that is to the back of the casino in the hotel talking with his two friends Ryan and Grace. This is when he first meets Tempest their waitress and takes an instant liking to her. She is so different from most of the girls that have caught his attention before being for one thing that she seems to be cover all over in tattoos. He tries to make a date with or to just get her number but she shoots him down. It is then that he and his friends strike up a bet.

Tempest Morrison doesn't particularly like rich guys especially guys Maddox Ramsey who is a know playboy. Tempest is so much more than she seems at first. Unfortunately as a young teenager her boyfriend came to her house when she was alone, and he then tried to take advantage of her regardless of her saying "No", Thankfully her older sister came home in time to save her but not before it left her with last emotional trauma.

Maddox finally does get her to go out with him I wont explain who that is for you the reader to find out. For you to also find out how their relationship moves from that point on and if she ever finds out about that bet. Read the book I promise you will enjoy it.

### **Not Bad**

#### **3.5 Stars**

This was an alright story. Maddox wasn't my favourite, he was a massive manwhore before he met Tempest. Tempest was a pretty nice character. She came off as a tough, tough bad girl because of her attitude and tattoos but inside she is a softy. The sex scenes weren't too bad but there was one scene that I thought was too soon for these characters, especially Tempest. The grand gesture at the end was grand, OTT and perfect for Vegas!

I think Tempest is possibly my favorite Cocktail Girl. Fitting to her name she's a tough girl, but lets the whirlwind romance with Maddox soften her up a little. She makes him realize how different she is compared to the girls looking to jump into bed with him or just wanting a chunk of his wealth. What started out as challenge to get her into bed, turns out to be so much more! Maddox and Tempest have a chemistry together that steams up the pages. Great novella! I loved the characters and especially loved the ending.

His hurricane is a short story that is part of the cocktail girls novella series. This story is short, fast paced and entertaining. I read this book in one sitting and wasn't once bored. I liked Tempest. I liked that she was different from the other girls. She had a hell of a lot of tattoos and had a dark edge to her. She said what she wanted and didn't put up with crap. I wasn't a big fan of Maddox in the beginning. I hated that he was cocky and accepted the bet. Even after getting to know Tempest, he could have called the bet off but he didn't. That being said, I liked Tempest and Maddox together. They were so different yet they suited one another perfectly.

I liked Tempest's reaction when she found out about the bet. I felt sorry for her that she was understandably upset but I liked that she confronted Maddox.

The epilogue for this story is really sweet.

The storyline for this book is easy to follow and a nice read.

His Hurricane is just like its title. A hurricane full speed ahead love affair with a hot-tempered virgin named Tempest. Tempest is not your ordinary waitress at the Little Black Dress night club in Vegas. She is tough as nails, take no prisoners kind of girl. But can she stick to her guns when she crosses paths with billionaire tech guru Maddox.

Maddox knows what he wants and bets he can get it. He is a love em' and leave em' kind of guy. But when he meets his match with the tattooed dark hair beauty, he realizes things are not going to plan. Can he convince her to trust him?

I loved this story. The characters are tough as nails and have the attitude to go with it. A little heat mixed with a whole lot of sass makes this book a fun read. Keep in mind this is a short story so the end game comes quick. Boy oh boy does it have an awesome end game. ;) So get ready for some excitement and pick up this installment of the Cocktail Girls.

Tech billionaire meets sassy, sexy waitress and he can't stay away! Things are about to get HOT!

Maddox is a tech billionaire. He's in Vegas to give the closing speech at Apex-Con. He's driven, hot af and used to getting everything he wants, but that's about to change.

Tempest is a waitress at LBD. Covered in tattoos and not impressed by wealth, she has zero interest in Maddox or his money. However, Maddox can't seem to resist her and will do anything to get a date and hopefully a whole lot more with this gorgeous girl.

These two have chemistry in spades. He wins her over but something is holding her back. Both of them have secrets that could end things, before they get a chance to really begin.

If you love hot and sexy insta-love with the sweetest HEA, you have found your perfect match. His Hurricane was short, incredibly sexy and just the right amount of sweet.

Love this series! Alexis Adaire writes the latest installment of this series and brings fiery Tempest to life. She reveals a side that we would have never guessed and it is all because of Maddox. He has grown bored of the playboy lifestyle and wants someone to settle down with him. Tempest is his dream but she isn't having it. You have to read this book to see how he wears her down and convinces her. Not to mention the lovely little surprise in the end! I voluntarily reviewed an advanced copy of this book.

Maddox is well known in the Technolgy world as " Techs Golden Boy. " He exudes wealth, power, prestige, intelligence and the looks to go with it. He has charmed his way into many women beds with ease, but there is a certain waitress at The Little Black Dress NightClub, Tempest who seems immune to his charms!

Up for a challenge, spurred on by his friends he refuses to give up on the fiery Tempest and her witty ways! Woo!
